Imagining the Modern City James Donald, 1999 Paris Berlin London Singapore New York Chicago Los Angeles these define the city in the world's consciousness James Donald takes us on a psychic journey to these places that have inspired artists writers architects and filmmakers for centuries Considering the cultural and political implications of the urban imaginary Donald explores the pleasures and challenges of modern living contending that the imagined city remains the best lens for a future of democratic community How can we think of Chicago without recalling the grittiness of *The Asphalt Jungle* s back alleys or of London without the dank foggy atmosphere so often evoked by Dickens When de Certeau explores what it means to walk through a city or Foucault dissects the elements of the modern attitude what are they telling us about modernity itself Through a discussion of these and many other questions about urban thought Donald demonstrates how artists and social critics have seen the city as the locus not just of vanity squalor and injustice but also of civilized society's highest aspirations *Imagining the modern City* also looks at how artists have shaped cities through their creation of public spaces sculpture and architecture art forms that help determine our ideas about our place in the urban environment Planners and architects such as Otto Wagner Le Corbusier and Bernard Tschumi present us with real and possible cities showing a way forward to alternative social futures Donald asserts The modern city provides both a culturally resonant imagined space and a physical place for the everyday life of its residents *Imagining the Modern City* is a rich and dazzling exploration of the ways cities stir and shape our consciousness *Modern Architecture in Historic Cities* Sebastian Loew, 2003-09-02 *Modern Architecture in Historic Cities* illustrates why France has been so successful in combining conservation and modernity and points to important lessons for other countries which can be drawn from the French experience Beginning with an empirical review of particular events which have affected attitudes towards heritage in France this book highlights the continuity in French thinking and the longstanding role of the French government as patron and leader Planning conservation and design control legislation are examined highlighting the range of instruments available to government in order to influence results and enhance the role of the architectural profession *The Mentally Retarded in Model Cities* United States. system could provide free high quality education for poor children The system never worked as promised but thanks to real work done by students teachers and families Lancaster's failed reforms eventually led to the creation of the modern public school system Lancaster's idea was simple instead of hiring expensive adult teachers Lancasterian schools made children teach one another to read write and behave properly America's city leaders poured the equivalent of millions of dollars into the scheme built specialized school buildings featuring Lancaster's teaching machines and offered him a huge salary In London where Lancaster opened his first school the enthusiasm of city leaders was quickly and similarly followed by scandal and dismay Lancaster borrowed money even from the king of England and spent it on fancy carriage rides and cases of champagne Even worse Lancaster proved to be a sexual predator Kicked out of London Lancaster brought his simplistic plan to the United States His school model didn't work any better in US cities than it had in London and Lancaster himself never changed his abusive ways Mr Lancaster's System details how American cities created their first public schools out of the wreckage of Lancasterian failure In the end the most important people in this story are not self proclaimed geniuses like Lancaster or elites like New York's mayor De Witt Clinton but rather the thousands of parents and children who forced urban public schools to assume their modern shape

Re-Inventing the Postcolonial (in the) *Metropolis* Cecile Sandten, Annika Bauer, 2016-09-27 The notion of the postcolonial metropolis has gained prominence in the last two decades both within and beyond postcolonial studies Disciplines such as sociology and urban studies however have tended to focus on the economic inequalities class disparities and other structural and formative aspects of the postcolonial metropolises that are specific to Western conceptions of the city at large It is only recently that the depiction of postcolonial metropolises has been addressed in the writings of Suketu Mehta Chris Abani Amit Chaudhuri Salman Rushdie Aravind Adiga Helon Habila Sefi Atta and Zakes Mda among others Most of these works probe the urban specifics and physical and cultural topographies of postcolonial cities while highlighting their agential capacity to defy appropriate and abrogate the superimposition of theories of Western modernity and urbanism These ASNEL Papers are all concerned with the idea of the postcolonial in the metropolis from various disciplinary viewpoints as drawn from a great range of cityscapes spread out over five continents The essays explore on the one hand ideas of spatial subdivision and inequality political repression social discrimination economic exploitation and cultural alienation and on the other the possibility of transforming reinventing and reconfiguring the postcolonial condition in and through literary texts and visual narratives In this context the volume covers a broad spectrum of theoretical and thematic approaches to postcolonial and metropolitan topographies and their depictions in writings from Australia and New Zealand South Africa South Asia and greater Asia as well as the UK addressing issues such as modernity and market economies but also caste class and social and linguistic aspects At the same time they reflect on the postcolonial metropolis and postcolonialism in the metropolis by concentrating on an urban imaginary which turns on notions of spatial subdivision and inequality political repression social discrimination economic exploitation and cultural alienation as the continuing postcolonial condition
