Lawrence S Wrightsman Book Award given by the American Psychology Law Society Bridges family law and current psychological research to shape understanding of legal doctrine and policy Family law encompasses legislation related to domestic relationships marriages parenthood civil unions guardianship and more No other area of law touches so closely to home or is changing at such a rapid pace in fact family law is so dynamic precisely because it is inextricably intertwined with psychological issues such as human behavior attitudes and social norms However although psychology and family law may seem a natural partnership both fields have much to learn from each other Our laws often fail to take into account our empirical knowledge of psychology falling back instead on faulty assumptions about human behavior This book encourages our use of psychological research and methods to inform understandings of family law It considers issues including child custody intimate partner violence marriage and divorce and child and elder maltreatment For each topic discussed Eve Brank presents a case statute or legal principle that highlights the psychological issues involved illuminating how psychological research either supports or opposes the legal principles in question and placing particular emphasis on the areas that are still in need of further research The volume identifies areas where psychology practice and research already have been or could be useful in molding legal doctrine and policy and by providing psychology researchers with new ideas for legally relevant research

Beyond Straight and Gay Marriage Nancy D. Polikoff, 2008 Part of the Queer Ideas series edited by Michael Bronski QUEER IDEAS a new series of LGBT hardcovers that address important intellectual questions facing the movement The debate over marriage equality for same sex couples rages across the country Beyond Straight and Gay Marriage boldly moves the discussion forward by focusing on the larger more fundamental issue of marriage and the law The root problem asserts law professor and LGBT rights activist Nancy Polikoff is that marriage is a bright dividing line between those relationships that legally matter and those that don't A woman married to a man for nine months is entitled to Social Security survivor's benefits when he dies a woman living for nineteen years with a man or woman to whom she is not married receives nothing Polikoff reframes the debate by arguing that all family relationships and households need the economic stability and emotional peace of mind that now extend only to married couples Unmarried couples of any sexual orientation single parent households extended family units and myriad other familial configurations need recognition and protection to meet the concerns they all share building and sustaining economic and emotional interdependence and nurturing the next generation Couples should have the choice to marry based on the spiritual cultural or religious meaning of marriage in their lives asserts Polikoff While marriage equality for same sex couples is a civil rights victory she contends that no one should have to marry in order to reap specific and unique legal results A persuasive argument that married couples should not receive special rights denied to other families Polikoff shows how the law can value all families and why it must A much needed intervention in the contemporary debate about marriage and family Polikoff's argument is provocative illuminating and original John D Emilio author of *Lost Prophet The Life and Times of Bayard Rustin* Polikoff mobilizes an impressive array of legal history and contemporary court cases to show how marriage whether same sex or heterosexual has ceased to be the only place where people incur long term obligations She argues vigorously that our society needs to find new ways of determining when legally enforceable responsibilities and entitlements have accrued in interpersonal relationships Stephanie Coontz author *Marriage A History How Love Conquered Marriage* This book really matters It is brilliant and thoughtful not simply about a set of laws but as a manifesto to transform the way we understand

recognize and respect the reality of our diverse and complex family compositions Polikoff grounds her arguments in the 35 year history of social change activism in this country to construct a passionate and nuanced argument for expanding our same sex marriage activism to include all of the ways people love form families and build community Amber Hollibaugh Senior Strategist National Gay and Lesbian Task Force and author of *My Dangerous Desires A Queer Girl Dreaming her Way Home* Passionate but completely grounded in reality Polikoff challenges LGBT rights advocates to see beyond gay equality arguments and question the fundamental fairness of limiting family recognition based on marriage gay or straight It is a powerful call for social justice Nan D Hunter founder of the American Civil Liberties Union Lesbian Gay Bisexual Transgender Project and Professor of Law Brooklyn Law School A provocative and perspicuous intervention in one of the most devilish recent debates in U S law and politics In a principled yet pragmatic analysis Polikoff mounts a compelling case against the continued grip of conjugalism on our family law and policy *Beyond Straight and Gay Marriage* challenges us
