reader to the guiding concepts of contemporary literary and cultural debate. It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding. Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references. The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories. Modern Criticism and Theory has long been regarded as a necessary collection. Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today.
