Modern Nicaraguan Poetry Steven F. White, 1993 This work demonstrates that twentieth century Nicaraguan poetry can not be comprehended in its fullest dimension without an understanding of the literary traditions of France and the United States Ever since Ruben Dario established Hispanic America's literary independence from Spain in the nineteenth century with his modernista revolution poets in Nicaragua actively have engaged in a dialogue with the works of French and North American authors as a means of assimilating and transforming them and thereby inventing a profoundly Nicaraguan literary identity This process has resulted in what might be called a double genealogy in Nicaraguan poetry certain poets attracted to the alchemical properties of the poetic word and a transcendent mythic meta reality seem to have descended from French literary forebears others interested in an expansive poeticized version of history and verisimilitude have roots that might be traced to North American soil This division is a provisional experimental means of grouping Nicaraguan poets based not on the traditional compartmentalization of literary generations but on the family resemblances of poetic affinities Presented here is an effective analysis of the familial nature of the Nicaraguan poets achieving their own literary independence by taking into account socio political and historical considerations common literary themes as well as the intertextual relations that form the basis of international literary dialogues This rigorous but flexible approach to modern Nicaraguan poetry enables the reader to accompany the poets on their journeys toward God and the end of the world into a timeless Nicaraguan landscape invaded by U S Marines beyond a contemporary urban portrait of Los Angeles through the horrifying European battlefields of World War I and the trenches of Nicaragua's revolution against the Somoza dictatorship The English speaking reader probably will be unfamiliar with most of the seven preeminent Nicaraguan poets whose works are the subject of this book but it is hoped that the reader will realize that the poetry of Nicaraguans Alfonso Cortes Salomon de la Selva Jose Coronel Urtecho Pablo Antonio Cuadra Joaquin Pasos Carlos Martinez Rivas and Ernesto Cardenal is worthy of serious study Furthermore the poems of these authors take on a richer meaning when they are studied as co presences in relation to certain texts by Baudelaire Rimbaud Mallarme and Supervielle or in an American context by poets such as Whitman Pound Eliot and Masters A relatively small country with a rich diverse tradition in poetry Nicaragua has maintained high literary standards generation after generation and has produced poets of a world class stature whose time has come for greater recognition

Spanish American Poetry at the End of the Twentieth Century Jill Kuhnheim, 2010-07-05 Has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the Internet Quite the contrary argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time Using a variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national

sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s

careers of Cardenal and Ramírez Sandino's Nation is essential to understanding transformations to both Nicaragua and the role of the writer in Latin America **Central American Literatures as World Literature** Sophie Esch, 2023-10-05

Challenging the notion that Central American literature is a marginal space within Latin American literary and world literary production this collection positions and discusses Central American literature within the recently revived debates on world literature This groundbreaking volume draws on new scholarship on global transnational postcolonial translational and sociological perspectives on the region's literature expanding and challenging these debates by focusing on the heterogeneous literatures of Central America and its diasporas Contributors discuss poems testimonios novels and short stories in relation to center periphery cosmopolitan and Internationalist paradigms Central American Literatures as World Literature explores the multiple ways in which Central American literature goes beyond or against the confines of the nation state especially through the indigenous Black and migrant voices **Indigenous Audibilities** Amanda Minks, 2023 In the middle of the

twentieth century transnational networks sparked a range of cultural projects focused on collecting Indigenous music and folklore in the Americas Indigenous Audibilities follows the social relations that created these collections in four interconnected case studies linking the U S Mexico Nicaragua and Chile Indigenous collections were embedded in political projects that negotiated issues of cultural diplomacy national canons and heritage The case studies recuperate the traces of marginalized voices in archives paying special attention to women and Indigenous people Despite the dominant agendas of national and international institutions the diverse actors and the multi directional influences often led to unexpected outcomes Author Amanda Minks brings together vivid storytelling and theories of collection voice and recording to challenge the transparency of archives as a historical source The book presents a social historical method of listening reading and thinking beyond the referentiality of archived texts and in the process uncovers neglected genealogies of cultural music research in the Americas [The Cambridge History of Latina/o American Literature](#) John Morán González, Laura

Lomas, 2018-02-22 The Cambridge History of Latina o American Literature emphasizes the importance of understanding Latina o literature not simply as a US ethnic phenomenon but more broadly as an important element of a trans American literary imagination Engaging with the dynamics of migration linguistic and cultural translation and the uneven distribution of resources across the Americas that characterize Latina o literature the essays in this History provide a critical overview of key texts authors themes and contexts as discussed by leading scholars in the field This book demonstrates the relevance of Latina o literature for a world defined by the migration of people commodities and cultural expressions
