Roeder,1993-01-01 Early in World War II censors placed all photographs of dead and badly wounded Americans in a secret Pentagon file known to officials as the Chamber of Horrors Later as government leaders became concerned about public complacency brought on by Allied victories they released some of these photographs of war s brutality But to the war s end and after they continued to censor photographs of mutilated or emotionally distressed American soldiers of racial conflicts at American bases and other visual evidence of disunity or disorder In this book George H Roeder Jr tells the intriguing story of how American opinions about World War II were manipulated both by the wartime images that citizens were allowed to see and by the images that were suppressed His text is amplified by arresting visual essays that include many previously unpublished photographs from the army s censored files Examining news photographs

movies newsreels posters and advertisements Roeder explores the different ways that civilian and military leaders used visual imagery to control the nation's perception of the war and to understate the war's complexities He reveals how image makers tried to give minorities a sense of equal participation in the war while not alarming others who clung to the traditions of separate races classes and gender roles He argues that the most pervasive feature of wartime visual imagery was its polarized depiction of the world as good or bad and he discusses individuals Margaret Bourke White Bill Mauldin Elmer Davis and others who fought against these limitations He shows that the polarized ways of viewing encouraged by World War II influenced American responses to political issues for decades to follow particularly in the simplistic way that the Vietnam War was depicted by both official and antiwar forces
