Powers Of Thirteen:

Powers of Thirteen, Poems John Hollander, 1983 **Gods and Mortals** Nina Kossman, 2001-03-22 For centuries poets have looked into the mirror of classical myth to show us the many ways our emotional lives are still reflected in the ancient stories of heroism hubris transformation and loss that myths so eloquently tell Now in *Gods and Mortals Modern Poems on Classical Myths* we have the first anthology to gather the great 20th century myth inspired poems from around the world Perhaps it is because the myths echo the structure of our unconscious that every new generation of poets finds them a source of inspiration and self recognition says Nina Kossman in her introduction to this marvelous collection Indeed from Valery Yeats Lawrence Rilke Akhmatova and Auden writing in the first half of the century to such contemporary poets as Lucille Clifton Derek Walcott Rita Dove Wislawa Szymborska and Mark Strand the material of Greek myth has elicited a poetry of remarkably high achievement And by organizing the poems first into broad categories such as Heroes Lovers Trespassers and secondly around particular mythological figures such as Persephone Orpheus or Narcissus readers are treated to a fascinating spectrum of poems on the same subject For example the section on Odysseus includes poems by Cavafy W S Merwin Gregory Corso Gabriel Zaid Louise Gluck Wallace Stevens and many others Thus we are allowed to see the familiar Greek hero refracted through the eyes and sharply varying stylistic approaches of a wide range of poets from around the world Here then is a collection of extraordinary poems that testifies to and amply rewards our ongoing fascination with classical myth

The Books of Contemplation Mark Verman, 2012-02-01 The earliest medieval Jewish mystical writings or kabbalah date from the late twelfth and early thirteenth centuries This is the first book to focus on the most prodigious group active at that time the Circle of Contemplation The Circle of Contemplation generated a mystical theology that differs radically from mainstream kabbalistic theosophy Two of this group's penetrating speculations on God and the origins of the universe are *The Book of Contemplation* and *The Fountain of Wisdom* A meticulous and systematic study of these writings forms the core of this book Verman discovered that the Circle of Contemplation produced a series of distinct treatises each entitled *The Book of Contemplation* and attributed to the same fictitious author These treatises embodying one of the most intriguing puzzles of medieval literature are included here The author concludes that these writings were a product of thirteenth century Spain not France as claimed by Gershom Scholem His conclusion engendered a critical evaluation of the premises of Scholem's historiography of early medieval Jewish mysticism
