Fashion, Women and Power Denise N. Rall, 2021-12-10 This book addresses the relationships between fashion women and power One of the constants within the book is to question the enduring relationship between women and dress and how these inform and articulate the ways in which women remain represented as either suitable or not for public office and their behaviour is informed through dress when they are in power The book critiques the interplays between politics power class race and expectation in relation to the everyday practice of getting dress and the more performative and symbolic function of dress as embodiment As never before women are in positions of political power and find themselves facing the maelstroms of

Fashion Installation Adam Geczy, Vicki Karaminas, 2019-06-13 Gone are the days when fashion relied on a runway launch with coinciding press promotions to show a couturier's new range Today design houses are thinking beyond traditional methods of display to stimulate interest in their collections such as to the internet fashion film and more recently fashion installations This book offers a critical evaluation of the changing ways in which fashion has been exhibited focusing specifically on the recent turn toward installation whether in the form of static presentations interactive performances or the more conventional curated designer exhibition Connecting viewers and consumers on an immersive level the fashion world has begun to appropriate installation methods traditionally associated with displays of experimental art transcending the runway system and its constraints This book turns to the designers who have pioneered fashion installations such as Aitor Throup Muccia Prada Walter Van Beirendonck and Hussein Chalayan among others and also looks back to the early influential fashion displays by designers such as Worth and Poiret to provide historical context Divided into three parts and covering a variety of installations from Vivienne Westwood's fashioned concept stores to Gareth Pugh's immersive films this ground breaking book positions the designer as the curator and exhibition maker and offers the first focused study of the pertinent concept of fashion installation

Creating African Fashion Histories JoAnn McGregor, Heather Akou, Nicola Stylianou, 2022-04-05 Creating African Fashion Histories examines the stark disjuncture between African self fashioning and museum practices Conventionally African clothing textiles and body adornments were classified by museums as examples of trade goods art and ethnographic materials never as fashion

Counterposing the dynamism of African fashion with museums historic holdings thus provides a unique way of confronting ways in which coloniality persists in knowledge and institutions today This volume brings together an interdisciplinary group of scholars and curators to debate sources and approaches for constructing African fashion histories and to examine their potential for decolonizing museums fashion studies and global cultural history The editors of this volume seek to answer questions such as How can researchers use museum collections to reveal traces of past self fashioning that are obscured by racialized forms of knowledge and institutional practice How can archival visual oral ethnographic and online sources be deployed to capture the diversity of African sartorial pasts How can scholars and curators decolonize the Eurocentric frames of thinking encapsulated in historic collections and current curricula Can new collections of African fashion decolonize museum practice From Moroccan fashion bloggers to upmarket Lagos designers the voices in this ground breaking collection reveal fascinating histories and geographies of circulation within and beyond the continent and its diasporic communities

Radical Theology Ingolf U. Dalferth, 2016-07-01 Ingolf U Dalferth develops a radical theology that unfolds the orienting strength of faith for human life from the event of God s presence to every present In a concise and clear manner Dalferth outlines the theological and philosophical approaches to hermeneutics in the modern era in order to promote a convincing and defensible theology for the twenty first century critically carrying on Martin Heidegger and Rudolf Bultmann without forgetting Karl Barth The result of his reconstruction is a radical theology that neither glorifies premodern theology in an antimodern attitude nor seeks a mystical deepening of the secular but argues for a radical change in theological perspective of the possible In doing so theology unfolds limit concepts that restrict the claims of science and philosophy critically and develops ideas of orientation that illumine the ways in which human life is understood and lived in radically new ways in faith From here Dalferth unfolds the reality of revelation and the Christian sense of an unconditional hope that fundamentally transcends all beliefs based on mundane realities and orients the world on something beyond its own temporal horizon its loving Creator

Self and World Bruin Carleton Christensen, 2008-12-18 This book draws upon the phenomenological tradition of Husserl and Heidegger in order to provide an alternative elaboration of John McDowell s thesis that in order to understand how self conscious subjectivity relates to the world perception must be understood as a genuine unity of spontaneity concept and receptivity intuition This alternative elaboration permits clarification of McDowell s critique of Donald Davidson and development of an alternative conception of perceptual experience giving clear sense to McDowell s claim that self conscious subjectivity is so inherently in touch with its world that scepticism about the latter must be incoherent It also permits development of a more accurate historically oriented critique of the metaphysics constraining one to construe perceptual experience in ways which misrepresent how self conscious subjectivity bears upon the world It shows that many of McDowell s meta philosophical views are implicitly Husserlian and that had McDowell developed them further he would have avoided the paradoxical meta philosophy he adopts from Wittgenstein In conclusion it intimates the central

weakness in Husserl's position which takes one from Husserl to Heidegger. The book is written in terms accessible to analytic philosophers and will thus enable them to see the central differences between analytic and phenomenological approaches to intentionality and self-consciousness. *Fashioning the Afropolis* Kerstin Pinther, Kristin Kastner, Basile Ndjio, 2022-07-14 A revelation. Reclaiming fashion from its European history. Shane White. With a focus on sub-Saharan Africa. *Fashioning the Afropolis* provides a range of innovative perspectives on global fashion design, dress, photography and the body in some of the major cities with a focus on Lagos, Johannesburg, Dakar and Douala. It contributes to the ongoing debates around the globalization of fashion and fashion theory by exploring fashion as a genuine urban phenomenon on the continent and among its diasporas. To date, fashion and city have not been systematically related to each other in the African context and for too long a western-centric gaze has dominated scholarship, resulting in the perception of Africa as provincial and its visual arts and textile cultures as static and folkloristic. This perspective is all the more distorted given Africa's rich sartorial past. With a huge number of tailors ready to adapt and renew clothing, reshaping garments into contemporary styles and many cities in Africa becoming hot spots for a steadily growing and well-connected scene of fashion designers, in the past 20 years the time is ripe for a reevaluation and reconsideration of the fashionscapes of Africa. Leading scholars offer an updated empirical and theoretical foundation on which to base new and exciting research on sub-Saharan fashion, challenging perceptions and offering new insights. *The Hidden Life of Clothing* Rachel Worth, 2023-06-15 Since the democratisation of the clothing industry in the early 19th century, buyers have become increasingly disconnected from the creative and human aspects of the production of clothing. Arguably, clothing is now valued less for its aesthetic qualities or because of the hours spent in its making but more for the extent to which it serves current fashion. In a climate of increasing anxiety about the environmental and social impact of the contemporary global fashion industry, Rachel Worth suggests that rather than seeking solutions only in the present, looking to history can assist in understanding better the challenges consumers face today in making decisions about the contents of their wardrobes, which in turn will impact on the nature of the future global fashion industry. She does not seek to offer simplistic historical solutions to contemporary problems but explores ways in which it might be possible to bridge divides between knowledge of the past, current individual choice and possible directions for future action. The more we know about our clothes, the less likely it is that we will wear an item of clothing only a few times before replenishing it with newer purchases that are on trend. By taking ownership of our personal clothing choices rather than feeling pressurised to respond to sophisticated marketing and to influencers, this book suggests how we might rethink our wardrobes in philosophical and practical ways in order to create a sense of order and beauty in our lives and to wrest control back from the increasing chaos of seemingly endless choice that perpetuates unsustainable, impersonal and fast fashion. **The Berg Companion to Fashion** Valerie Steele, 2015-08-01 An essential reference for students, curators and scholars of fashion, cultural studies and the expanding range of disciplines that see fashion as imbued with meaning far beyond the material. Over

300 in depth entries covering designers articles of clothing key concepts and styles Edited and introduced by Valerie Steele a scholar who has revolutionized the study of fashion and who has been described by The Washington Post as one of fashion s brainiest women Derided by some as frivolous even dangerous and celebrated by others as art fashion is anything but a neutral topic Behind the hype and the glamour is an industry that affects all cultures of the world A potent force in the global economy fashion is also highly influential in everyday lives even amongst those who may feel impervious This handy volume is a one stop reference for anyone interested in fashion its meaning history and theory From Avedon to Codpiece Dandyism to the G String Japanese Fashion to Subcultures Trickle down to Zoot Suit The Berg Companion to Fashion provides a comprehensive overview of this most fascinating of topics and will serve as the benchmark guide to the subject for many years to come
