explore how Judaism has inspired Jews to eschew animal products and how such choices even when not directly inspired by Judaism have enriched and helped define Jewishness. Individually and as a collection, the chapters in this book provide an opportunity to meditate on what may make veganism and vegetarianism particularly Jewish as well as the potential distinctiveness of Jewish veganism and vegetarianism. The authors also examine the connections between Jewish veganism and vegetarianism and other movements while calling attention to divisions among Jewish vegans and vegetarians to the specific challenges of fusing Jewishness and a plant-based lifestyle and to the resistance Jewish vegans and vegetarians can face from parts of the Jewish community. The book's various perspectives represent the cultural, theological, and ideological diversity among Jews invested in such conversations and introduce prominent debates within their movements. Whether looking at the pages of the Talmud, vegetarian poems written in Yiddish, lyrics written by Jewish punk rockers, or into a pot of vegan matzo ball soup, this book explores the many ways in which Jews have questioned the ethics of eating animals. Labendz and Yanklowitz achieve their stated goal of exploring what distinguishes Jewish veganism and vegetarianism as Jewish. You do not have to be a vegetarian or a vegan or Jewish in order to learn from and indeed grapple with the many questions, dilemmas, and readings that the contributors raise. Jordan D. Rosenblum, author of *The Jewish Dietary Laws in the Ancient World*, *Jewish Veganism and Vegetarianism* offers theological, pragmatic, ethical, environmental, and other ways to view non-meat eating as a viable, healthy, and holy Judaic strategy to consume the world. Anyone who eats or thinks about eating should take this volume seriously. Rabbi Jonathan K. Crane, author of *Eating Ethically: Religion and Science for a Better Diet*, *From the Talmud's Ambivalence about Human and Animal Suffering to the Challenges of Making a Vegan Matzo Ball*, *Jewish Veganism and Vegetarianism* offers surprising views of the many ways Jewish practice, Jewish culture, and individual Jews acted and reacted in their encounters with a vegetable diet. This important and overdue book does much to introduce a long neglected chapter of Jewish culinary practice and to inspire and instruct future research. Eve Jochnowitz, cotranslator of *Fania Lewandowska's The Vilna Vegetarian Cookbook: Garden-Fresh Recipes Rediscovered and Adapted for Today's Kitchen*, [Radical Healing](#). Rudolph Ballentine, 1999. This extraordinary book offers nothing less than a new vision of medical care. Rudolph Ballentine, M.D., has created a unique integrative blending of the primary holistic schools of healing that is far more potent than any one of these alone. Like Deepak Chopra and Andrew Weil, Rudolph Ballentine is a medical doctor who became intrigued by the workings of mind-body medicine and looked beyond the West in his search for understanding. Drawing on thirty years of medical study and practice, Dr. Ballentine has accomplished a singular feat: integrating the wisdom of the great traditional healing systems—especially Ayurveda, homeopathy, Traditional Chinese Medicine, European and Native American herbology, nutrition, psychotherapy, and bodywork. Melded together, the profound principles buried in these systems become clearer and stronger, and a new level of effectiveness becomes possible. Healing and reorganization are accelerated and deepened, physically, emotionally, and spiritually. The result is transformation. The result is radical healing. *Radical Healing* harnesses

nature's medicinal plants and other natural substances with commonsense essentials such as diet exercise and cleansing as well as the most profound principles of spiritual and psychological transformation In Dr Ballentine's synthesis illness is an opportunity for growth that can go far beyond recovery Through radical healing old habits and attitudes that supported the development of disease fall away to be replaced by the clarity that comes with a whole new way of being in the world *Diet for a New America* John Robbins, 2012 An H J Kramer book published in a joint venture with New World Library *The Actuality of Sacrifice* Alberdina Houtman, Marcel Poorthuis, Joshua J. Schwartz, Joseph Turner, 2014-11-27 Sacrifice is a well known form of ritual in many world religions Although the actual practice of animal sacrifice was largely abolished in the later history of Judaism Christianity and Islam it is still recalled through biblical stories the ritual calendar and community events The essays in this volume discuss the various positions regarding the value of sacrifice in a wide variety of disciplines such as history archaeology literature philosophy art and gender and post colonial studies In this context they examine a wide array of questions pertaining to the actuality of sacrifice in various social historical and intellectual contexts ranging from the pre historical to the post Holocaust and present new understandings of some of the most sensitive topics of our time
