Radical Perspectives On The Rise Of Fascism In Germany 1919 1945

Peter Caldwell, William Scheuerman

Radical Perspectives On The Rise Of Fascism In Germany 1919 1945:

Radical Perspectives Germany Michael N. Dobkowski, 1989-01-01 *Radical Perspectives on the Rise of Fascism in Germany, 1919-1945* Michael N. Dobkowski, Isidor Wallimann, 1989 *Radical Perspectives on the Rise of Fascism in Germany, 1919 - 1945* Michael N. Dobkowski, 2003 **The Routledge Companion to Nazi Germany** Roderick Stackelberg, 2007-12-12 The Routledge Companion to Nazi Germany combines a concise narrative overview with chronological bibliographical and tabular information to cover all major aspects of Nazi Germany This user friendly guide provides a comprehensive survey of key topics such as the origins and consolidation of the Nazi regime the Nazi dictatorship in action Nazi foreign policy the Second World War the Holocaust the opposition to the regime and the legacy of Nazism Features include detailed chronologies a discussion of Nazi ideology succinct historiographical overview with more detailed information on more than sixty major historians of Nazism biographies of 150 leading figures of Nazi Germany a glossary of terms concepts and acronyms maps and tables a concise thematic bibliography of works on the Third Reich This indispensable reference guide to the history and historiography of Nazi Germany will appeal to students teachers and general readers alike *Polyculturalism and Discourse*, 2007-01-01 This volume gathers together research by ten scholars engaging with multicultural discourse in Australia and Germany The term polyculturalism rather than multiculturalism is employed deliberately to re open a space in which the workings of discourse on culturally diverse societies both as archive or practice and as intervention can be considered in greater depth The inter cultural perspective and wide range of disciplinary affiliations exhibited by the essays in this volume contribute to this goal whereas the majority of discourse analytical work addresses the diversity of speaking positions as well as the arbitrariness of ascribed meanings within a historical framework delimited by national boundaries and disciplinary boundaries the texts collected here transgress this perspective in working comparatively between Australia and Germany Regulating the Social George Steinmetz, 1993-08-09 Why does the welfare state develop so unevenly across countries regions and localities What accounts for the exclusions and disciplinary features of social programs How are elite and popular conceptions of social reality related to welfare policies George Steinmetz approaches these and other issues by exploring the complex origins and development of local and national social policies in nineteenth century Germany Generally regarded as the birthplace of the modern welfare state Germany experimented with a wide variety of social programs before 1914 including the national social insurance legislation of the 1880s the Elberfeld system of poor relief protocorporatist policies and modern forms of social work Imperial Germany offers a particularly useful context in which to compare different programs at various levels of government Looking at changes in welfare policy over the course of the nineteenth century differences between state and municipal interventions and intercity variations in policy Steinmetz develops an account that focuses on the specific constraints on local and national policymakers and the different ways of imagining the social question Whereas certain aspects of the pre 1914 welfare state reinforced social divisions and

even foreshadowed aspects of the Nazi regime other dimensions actually helped to relieve sickness poverty and unemployment Steinmetz explores the conditions that led to both the positive and the objectionable features of social policy The explanation draws on statist Marxist and social democratic perspectives and on theories of gender and culture **From Liberal Democracy to Fascism** Peter Caldwell, William Scheuerman, 2021-10-01 The Weimar Republic from 1919 until 1933 when Hitler came into power witnessed crucial debates on law and politics These debates are reexamined in this book Were for example democratic rules and procedures an adequate basis for democracy as Hugo Preuss and Hans Kelsen suggested Or should constitutional law elaborate the deeper basic principles embedded in the democratic constitution itself as Hermann Heller argued Was the president the immediate guardian of the constitution as Carl Schmitt's concept of representation suggested Or was Schmitt's concept itself subject to Walter Benjamin's critique of the aura of authenticity These and other typical Weimar era debates helped shape West German constitutionalism The former labor lawyer on the left Ernst Fraenkel for example began to develop a general theory of dictatorship mass democracy while in exile which influenced the new discipline of political science after the war Similarly Gerhard Leibholz an anti positivist lawyer in Weimar served on the first Constitutional Court of the Federal Republic of Germany helping to consolidate its new constitutional culture *Art as Politics in the Third Reich* Jonathan Petropoulos, 1999-02-01 The political elite of Nazi Germany perceived itself as a cultural elite as well In *Art as Politics in the Third Reich* Jonathan Petropoulos explores the elite's cultural aspirations by examining both the formulation of a national aesthetic policy **Hitler's Germany** Roderick Stackelberg, 2002-01-22 Hitler's Germany provides a comprehensive narrative history of Nazi Germany and sets it in the wider context of nineteenth and twentieth century German history Roderick Stackelberg analyzes how it was possible that a national culture of such creativity and achievement could generate such barbarism and destructiveness This second edition has been updated throughout to incorporate recent historical research and engage with current debates in the field It includes an expanded introduction focusing on the hazards of writing about Nazi Germany an extended analysis of fascism totalitarianism imperialism and ideology a broadened contextualisation of antisemitism discussion of the Holocaust including the euthanasia program and the role of eugenics new chapters on Nazi social and economic policies and the structure of government as well as on the role of culture the arts education and religion additional maps tables and a chronology a fully updated bibliography Exploring the controversies surrounding Nazism and its afterlife in historiography and historical memory *Hitler's Germany* provides students with an interpretive framework for understanding this extraordinary episode in German and European history Power and Inequality Levon Chorbajian, 2021-05-30 Successfully bringing together accessible readings that cover the broad range of issues of importance to those studying politics and society this new edition of *Power and Inequality* provides a unique mix of theoretical and empirical pieces such as state and electoral politics that address both classic issues in political sociology and more recent developments such as globalization With strong integration of race and gender

throughout this collection offers a coherent analysis of power that reflects the contributions of a variety of critical perspectives including Marxism feminism critical race theory postmodernism and power structure theory **Genocide and the Modern Age** Isidor Wallimann, Michael N. Dobkowski, 2000-03-01 In the preface to this 2000 edition the authors point out that with the advent of the millennium it is important to take stock of the 20th century which has been labelled as the Age of Genocide The Sanctity of Rural Life Shelley Baranowski, 1995 This study identifies the contributions of the rural elite in the eastern Prussian provinces namely Junker landlords and the Protestant clergy to the rise of National Socialism in a region where the rural electorate's attraction to the Hitler movement became critical to the Nazi takeover in 1933

Geography, History and Social Sciences Georges B. Benko, Ulf Strohmayr, 2013-06-29 Georges Benko Societies are much messier than our theories of them Michael Mann The Sources of Social Power 1 Towards a unified social theory Why are there communication problems between the different disciplines of the social sciences And why should there be so much misunderstanding Most probably because the encounter of several disciplines is in fact the encounter of several different histories and therefore of several different cultures each interpreting the other according to the code dictated by its own culture Inevitably geographers view other disciplines through their own cultural filter and even a benevolent view remains ethnocentric It was in order to avoid such ethnocentricity that Fernand Braudel called for more unity among the social sciences in 1958 I wish the social sciences would stop discussing their respective differences so much and instead look for common ground on which to reach their first agreement Personally I would call these ways quantification spatial awareness and *longue duree* In its place at the center of the social sciences geography reduces all social reality to its spatial dimensions Unfortunately as a discipline it considers itself all too often to be in a world of its own There is a need in France for a figure like Vidal de la Blanche who could refocus attention away from issues of time and space towards space and social reality Geographic research will only take a step forward once it learns to address the problems facing all the sciences

Disruptions in Economic and Social Polity Arup Baisya, 2019-11-25 Capitalism is in crisis today while the neoliberal economic model that has been pursued in order to move out of the crisis has also not succeeded There are also major disruptions in both economic and social polity and uncertainties due to change and conflict within social relations This book analyses these issues from a global perspective with particular reference to India in order to determine what can be done to provide this transitory situation with a direction of change The essays gathered here counter the neo liberal myth built on the premise that this is an era free of ideology and reconstruct the concept of ideology and its various ramifications The book also delves into how the dynamics of the overall economic situation today give rise to various possibilities for change and details holistic plans of possible future actions Cultures of Darkness Bryan D. Palmer, 2019-02-15 Peasants religious heretics witches pirates runaway slaves prostitutes and pornographers frequenters of taverns and fraternal society lodge rooms revolutionaries blues and jazz musicians beats and contemporary youth gangs those who defied authority choosing to

live outside the defining cultural dominions of early insurgent and later dominant capitalism are what Bryan D Palmer calls people of the night These lives of opposition or otherness were seen by the powerful as deviant rejecting authority and consequently threatening to the established order Constructing a rich historical tapestry of example and experience spanning eight centuries Palmer details lives of exclusion and challenge as the night travels of the transgressors clash repeatedly with the powerful conventions of their times Nights of liberation and exhilarating desire sexual and social are at the heart of this study But so too are the dangers of darkness as marginality is coerced into corners of pressured confinement or the night is used as a cover for brutalizing terror as was the case in Nazi Germany or the lynching of African Americans Making extensive use of the interdisciplinary literature of marginality found in scholarly work in history sociology cultural studies literature anthropology and politics Palmer takes an unflinching look at the rise and transformation of capitalism as it was lived by the dispossessed and those stamped with the mark of otherness Behind the Mask of Chivalry Nancy K. MacLean, 1995-07-13

On Thanksgiving night 1915 a small band of hooded men gathered atop Stone Mountain an imposing granite butte just outside Atlanta With a flag fluttering in the wind beside them a Bible open to the twelfth chapter of Romans and a flaming cross to light the night sky above William Joseph Simmons and his disciples proclaimed themselves the new Knights of the Ku Klux Klan named for the infamous secret order in which many of their fathers had served after the Civil War Unsure of their footing in the New South and longing for the provincial patriarchal world of the past the men of the second Klan saw themselves as an army in training for a war between the races They boasted that they had bonded into an invisible phalanx to stand as impregnable as a tower against every encroachment upon the white man's liberty in the white man's country under the white man's flag Behind the Mask of Chivalry brings the invisible phalanx into broad daylight culling from history the names the life stories and the driving passions of the anonymous Klansmen beneath the white hoods and robes Using an unusual and rich cache of internal Klan records from Athens Georgia to anchor her observations author Nancy MacLean combines a fine grained portrait of a local Klan world with a penetrating analysis of the second Klan's ideas and politics nationwide No other right wing movement has ever achieved as much power as the Ku Klux Klan of the 1920s and this book shows how and why it did MacLean reveals that the movement mobilized its millions of American followers largely through campaigns waged over issues that today would be called family values Prohibition violation premarital sex lewd movies anxieties about women's changing roles and worries over waning parental authority Neither elites nor poor white trash most of the Klan rank and file were married middle aged and middle class Local meetings or klonklaves featured readings of the minutes plans for recruitment campaigns and Klan barbecues and distribution of educational materials Christ and Other Klansmen was one popular tome Nonetheless as mundane as proceedings often were at the local level crusades over morals always operated in the service of the Klan's larger agenda of virulent racial hatred and middle class revanchism The men who deplored sex among young people and sought to restore the power of husbands and fathers were also sworn to reclaim

the white man's country striving to take the vote from blacks and bar immigrants Comparing the Klan to the European fascist movements that grew out of the crucible of the first World War MacLean maintains that the remarkable scope and frenzy of the movement reflected less on members power within their communities than on the challenges to that power posed by African Americans Jews Catholics immigrants and white women and youth who did not obey the Klan's canon of appropriate conduct In vigilante terror the Klan's night riders acted out their movement's brutal determination to maintain inherited hierarchies of race class and gender Compellingly readable and impeccably researched *The Mask of Chivalry* is an unforgettable investigation of a crucial era in American history and the social conditions cultural currents and ordinary men that built this archetypal American reactionary movement *The Coming Age of Scarcity* Michael N. Dobkowski, Isidor Wallimann, 1998-03-01 Michael Dobkowski and Isidor Wallimann have edited a book that although ominous is not a fatalistic look at the future *The Coming Age of Scarcity* lays out the perils of not recognizing the reality of genocide or of acknowledging the full implications of warfare Showing how scarcity and surplus populations can lead to disaster *The Coming Age of Scarcity* is about evil It tells of ethnic cleansing and excavates the world's expanding killing fields The writers in this volume are all too aware that the future suggests that present day population growth land resources energy consumption and per capita consumption cannot be sustained without leading to greater catastrophes The essays in this volume ask What is the solution in the face of mass death and genocide As philosopher John K Roth says in the Foreword The essays can sensitize us against despair and indifference because history shows that human made mass death and genocide are not inevitable and no events related to them will ever be **Handbook of Culture and Social Networks** Nick Crossley, Paul Widdop, 2025-01-09 This forward thinking Handbook explores two major research strands in the fast developing field of culture and network analysis the underlying social networks of culture and the cultural bases of social networks *Companion to Historiography* Michael Bentley, 2006-02-27 This Companion presents a clear thematic overview of historiography explored through a series of stimulating and wide ranging articles Compiled by experts in the field the Companion is fully indexed for ease of access *The Routledge History of the Holocaust* Jonathan C. Friedman, 2010-12-15 The genocide of Jewish and non Jewish civilians perpetrated by the German regime during World War Two continues to confront scholars with elusive questions even after nearly seventy years and hundreds of studies This multi contributory work is a landmark publication that sees experts renowned in their field addressing these questions in light of current research A comprehensive introduction to the history of the Holocaust this volume has 42 chapters which add important depth to the academic study of the Holocaust both geographically and topically The chapters address such diverse issues as continuities in German and European history with respect to genocide prior to 1939 the eugenic roots of Nazi anti-Semitism the response of Europe's Jewish Communities to persecution and destruction the Final Solution as the German occupation instituted it across Europe rescue and rescuer motivations the problem of prosecuting war crimes gender and Holocaust experience the

persecution of non Jewish victims the Holocaust in postwar cultural venues This important collection will be essential reading for all those interested in the history of the Holocaust

This is likewise one of the factors by obtaining the soft documents of this **Radical Perspectives On The Rise Of Fascism In Germany 1919 1945** by online.
