Radicals Against Race:

Race, Radicalism, and Reform Ian Robertson, Abram L. Harris, 2017-09-08 First published in 2017 **Radical childhoods** Jessica Gerrard, 2016-05-16 At a time when education appears to be simply reproducing social class relations *Radical childhoods* offers a timely consideration of how children's and young people's education can confront and challenge social inequality Presenting detailed analysis of archival material and oral testimony the book examines the experiences of students and educators in two schooling initiatives that were connected to two of the most significant social movements in Britain Socialist Sunday Schools est 1892 and Black Saturday Supplementary Schools est 1967 Analysing across time the author explores the ways in which these two very different schooling movements incorporated large numbers of women challenged class and race inequality and attempted to create spaces of emancipatory education independent to the state It argues that despite appearing to be on the margins of the public sphere these schools were important if contested and complex sites of political struggle Understanding Radicalism Ernest J. Zarra III, 2023-07-25 *Understanding Radicalism How It Affects What's Happening in Education and Student's Overall* examines and explores the ever growing trend to use education outside groups and social media as agencies of indoctrination and moral suasion to capture the imaginations thus prompting students to question their own racial and gender identities *Cape Radicals* Crain Soudien, 2019-06-03 The history of a radical group of intellectuals who founded the New Era Fellowship which shaped human rights precedents and social justice policy in South Africa In 1937 a group of young Capetonians socialist intellectuals from the Workers Party of South Africa embarked on a project they called the New Era Fellowship NEF In doing so they sought to disrupt and challenge not only prevailing political narratives but the very premises class and race on which they were based In different forums public debates lectures study circles and cultural events the seeds of radical thinking were planted nurtured and brought to full flower Taking a position of non collaboration and non racialism the NEF played a vital role in challenging society's responses to events ranging from the problem of taking up arms during the Second World War for an empire intent on stripping people of colour of their human rights to the Hertzog Bills which foreshadowed apartheid in all its ruthless effectiveness In subsequent narratives of liberation their significance has been overlooked even disparaged and has never been fully understood and acknowledged By shining a contemporary light on the NEF and locating its contribution in current sociological and political discourse educationist Crain Soudien shows how its members were at the forefront of redefining the debate about social difference in a racially divided society **Critical Theories, Radical Pedagogies, and Global Conflicts** Gustavo Fischman, 2005 We are living in a time of resurgent global conflicts and imperialistic tensions a time in which many children are being left behind by school systems that appear more concerned with developing accountability schemes and standardized models of testing than with defending the right of every child to have access to a good education The efforts of countless teachers activists and families working and living in poor areas around the world are labeled as

failures entirely discredited on the basis of their expendability in relation to capital gains or simply ignored In response to these oppressive and challenging conditions this book's contributors a group of committed educators and activists working in an ethos of solidarity across geopolitical and geographical borders have advanced arguments and strategies that link educational transformation to the larger struggle to transform oppressive social relations In a clear attempt to move beyond both nostalgia and romanticism *Critical Theories Radical Pedagogies and Global Conflicts* draws from a range of viewpoints conceptual and thematic transnational and crosscultural First World and Third World to articulate new directions for teachers and activists working to demonstrate that another education and indeed another world is possible

Radicalism, Anti-Racism and Representation Alastair Bonnett, 2023-02-14 First published in 1993 *Radicalism Anti Racism and Representation* is a study set within a wider political context for the discussion of racial representation and anti racism The second half of the book is devoted to interview based exploration of the ambiguities and political characteristics of race equality consciousness amongst public educators It is shown that there is no one anti racism Different ideals and assumptions have been arrived at within different historical and geographical contexts It is suggested that this intellectual plurality provides a resource for those wishing to rethink anti racism in the light of its contemporary malaise The study also explores and explains the development of self critical reflexive anti racist and radical consciousness amongst educators The book provides the first sociological study of anti racism Indeed it is the first to provide a substantive critique of anti racism from outside the New Right It is also the first to look at this phenomenon geographically and to compare anti racism in multiracial and white areas This book will be of interest to students of human geography sociology history ethnic studies and race studies

Italian Immigrant Radical Culture Marcella Bencivenni, 2014-02 Maligned by modern media and often stereotyped Italian Americans possess a vibrant if largely forgotten radical past In *Italian Immigrant Radical Culture* Marcella Bencivenni delves into the history of the *sovversivi* a transnational generation of social rebels and offers a fascinating portrait of their political struggle as well as their milieu beliefs and artistic creativity in the United States As early as 1882 the *sovversivi* founded a socialist club in Brooklyn Radical organizations then multiplied and spread across the country from large urban cities to smaller industrial mining areas By 1900 thirty official Italian sections of the Socialist Party along the East Coast and countless independent anarchist and revolutionary circles sprang up throughout the nation Forming their own alternative press institutions and working class organizations these groups created a vigorous movement and counterculture that constituted a significant part of the American Left until World War II *Italian Immigrant Radical Culture* compellingly documents the wide spectrum of this oppositional culture and examines the many cultural and artistic forms it took from newspapers to literature and poetry to theater and visual art As the first cultural history of Italian American activism it provides a richer understanding of the Italian immigrant experience while also deepening historical perceptions of radical politics and culture See the official website of the book at <http://www.marcellabencivenni.com>

Power, Politics

and the Emotions Shona Hunter, 2015-06-05 How can we rethink ideas of policy failure to consider its paradoxes and contradictions as a starting point for more hopeful democratic encounters Offering a provocative and innovative theorisation of governance as relational politics the central argument of *Power Politics and the Emotions* is that there are sets of affective dynamics which complicate the already materially and symbolically contested terrain of policy making This relational politics is Shona Hunter's starting point for a more hopeful but realistic understanding of the limits and possibilities enacted through contemporary governing processes Through this idea Hunter prioritises the everyday lived enactments of policy as a means to understand the state as a more differentiated and changeable entity than is often allowed for in current critiques of neoliberalism But Hunter reminds us that focusing on lived realities demands a melancholic confrontation with pain and the risks of social and physical death and violence lived through the contemporary neoliberal state This is a state characterised by the ascendancy of neoliberal whiteness a state where no one is innocent and we are all responsible for the multiple intersecting exclusionary practices creating its unequal social orderings The only way to struggle through the central paradox of governance to produce something different is to accept this troubling interdependence between resistance and reproduction and between hope and loss Analysing the everyday processes of this relational politics through original empirical studies in health social care and education the book develops an innovative interdisciplinary theoretical synthesis which engages with and extends work in political science cultural theory critical race and feminist analysis critical psychoanalysis and post material sociology

Thinking Black Rob Waters, 2018-11-06 It was a common charge among black radicals in the 1960s that Britons needed to start thinking black As state and society consolidated around a revived politics of whiteness thinking black they felt was necessary for all who sought to build a liberated future out of Britain's imperial past In *Thinking Black* Rob Waters reveals black radical Britain's wide cultural political formation tracing it across new institutions of black civil society and connecting it to decolonization and black liberation across the Atlantic world He shows how from the mid 1960s to the mid 1980s black radicalism defined what it meant to be black and what it meant to be radical in Britain

Religion and Radical Politics Robert Hedborg Craig, 1992 This study discusses an array of movements organisations and activists many largely unstudied who sought to aid the poor and oppressed through Christian social action

Social Work Vivienne E. Cree, Trish McCulloch, 2023-04-04 Building on the successful 1st edition this reader brings together some of the most significant ideas that have informed social work practice over the last fifty years At the same time as presenting these foundational extracts the book includes commentaries that allow the reader to understand the selected extracts on their own terms as well as to be aware of their relations to each other and to the wider social work context There is no settled view or easy consensus about what social work is and should be and the ideas reflected in this volume are themselves diverse and complex The world of social work has changed greatly over the last ten years and this new edition reflects that change with new material on the decolonisation of social work knowledges the greater emphasis on interdisciplinarity and

co production and the new concern for identities With an accessible introduction to contextualise the selections the book is divided into three main sections each presenting key texts drawn from a wide range of perspectives psychological sociological philosophical educational and political as well as perspectives that are grounded in the experiences of practitioners and those who use services which have contributed to the development of the profession of social work knowledge and values for social work and practice in social work By providing students and practitioners with an easy way into reading first hand some of the most interesting foundational texts of the subject it will be required reading for all undergraduate and postgraduate programmes and professionals undertaking post qualifying training *Responsible Research Practice* Norma RA Romm, 2018-04-21 This book explores ways in which creative research practice can be explicitly and mindfully geared to make a difference to the quality of social and ecological existence It offers a range of examples of how different research methods can be employed and re tuned with this intention The book suggests that what Romm names active research involves using the research space responsibly to open up new avenues for thinking and acting on the part of those involved in the inquiry and wider stakeholders The book includes a discussion of a range of epistemological ontological methodological and axiological positions or paradigms that can be embraced by inquirers implicitly or explicitly It details the contours of an epistemology where knowing is recognized to be grounded in social relations as a matter of ethics While focusing on discussing the transformative paradigm and attendant view of research ethics it considers to what extent the borders between paradigms can be treated as being permeable in creative and active inquiries Apart from considering options for enhancing responsible research practice during the process of inquiry and reconsidering mixed research designs the book also considers options for responsible theorizing that is inspirational for pursuing goals of social and ecological justice

Framing a Radical African Atlantic Holger Weiss, 2013-11-14 In *Framing a Radical African Atlantic* Holger Weiss presents a critical outline and analysis of the International Trade Union Committee of Negro Workers ITUCNW and the attempts by the Communist International Comintern to establish an anticolonial political platform in the Caribbean and Sub Saharan Africa during the interwar period It is the first presentation about the organization and its activities investigating the background and objectives the establishment and expansion of a radical African black Atlantic network between 1930 and 1933 the crisis in 1933 when the organization was relocated from Hamburg to Paris the attempt to reactivate the network in 1934 and 1935 and its final dissolution and liquidation in 1937 38

Black Radical: The Life and Times of William Monroe Trotter Kerri K. Greenidge, 2019-11-19 Winner Mark Lynton History Prize New York Times Times Critics Top Books of 2019 The award winning biography that restores William Monroe Trotter to his essential place next to Douglass Du Bois and Malcom X in the pantheon of American civil rights heroes *Black Radical* reclaims William Monroe Trotter 1872 1934 as a seminal figure whose prophetic yet ultimately tragic and all too often forgotten life offers a link from Frederick Douglass to Black Lives Matter Kerri K Greenidge renders the drama of turn of the century America showing how Trotter a

Harvard graduate a newspaperman and an activist galvanized black working class citizens to wield their political power despite the virulent racism of post Reconstruction America Situating his story in the broader history of liberal New England to satisfying Casey Cep The New Yorker effect this magnificent biography will endure as the definitive account of Trotter s life without which we cannot begin to understand the trajectory of black radicalism in America [The Fascist Persuasion in Radical Politics](#) A. James Gregor,2015-03-08 How valid are the assertions of contemporary radicals who insist that they are Marxists A James Gregor measures the distance that separates today s radicals from the belief system of Marx and Engels He finds that the characteristic qualities of modern mass mobilizing movements bear more impressive similarities to the paradigmatic Fascism of Benito Mussolini than to classical Marxism Thus he offers a new conceptual framework for the analysis of contemporary totalitarian movements and established regimes Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **In the Cause of Freedom** Minkah Makalani,2011-11-28 In this intellectual history Minkah Makalani reveals how early twentieth century black radicals organized an international movement centered on ending racial oppression colonialism class exploitation and global white supremacy Focused primarily on two organizations the Harlem based African Blood Brotherhood whose members became the first black Communists in the United States and the International African Service Bureau the major black anticolonial group in 1930s London In the Cause of Freedom examines the ideas initiatives and networks of interwar black radicals as well as how they communicated across continents Through a detailed analysis of black radical periodicals and extensive research in U S English Dutch and Soviet archives Makalani explores how black radicals thought about race understood the ties between African diasporic Asian and international workers struggles theorized the connections between colonialism and racial oppression and confronted the limitations of international leftist organizations Considering black radicals of Harlem and London together for the first time In the Cause of Freedom reorients the story of blacks and Communism from questions of autonomy and the Kremlin s reach to show the emergence of radical black internationalism separate from and independent of the white Left *Jewish Radical Feminism* Joyce Antler,2018-05-04 Finalist 2019 PROSE Award in Biography given by the Association of American Publishers Fifty years after the start of the women s liberation movement a book that at last illuminates the profound impact Jewishness and second wave feminism had on each other Jewish women were undeniably instrumental in shaping the women s liberation movement of the 1960s 70s and 80s Yet historians and participants themselves have overlooked their contributions as Jews This has left many vital questions unasked and unanswered until now Delving into archival sources and conducting extensive

interviews with these fierce pioneers Joyce Antler has at last broken the silence about the confluence of feminism and Jewish identity Antler's exhilarating new book features dozens of compelling biographical narratives that reveal the struggles and achievements of Jewish radical feminists in Chicago New York and Boston as well as those who participated in the later self-consciously identified Jewish feminist movement that fought gender inequities in Jewish religious and secular life Disproportionately represented in the movement Jewish women's liberationists helped to provide theories and models for radical action that were used throughout the United States and abroad Their articles and books became classics of the movement and led to new initiatives in academia politics and grassroots organizing Other Jewish identified feminists brought the women's movement to the Jewish mainstream and Jewish feminism to the Left For many of these women feminism in fact served as a portal into Judaism Recovering this deeply hidden history Jewish Radical Feminism places Jewish women's activism at the center of feminist and Jewish narratives The stories of over forty women's liberationists and identified Jewish feminists from Shulamith Firestone and Susan Brownmiller to Rabbis Laura Geller and Rebecca Alpert illustrate how women's liberation and Jewish feminism unfolded over the course of the lives of an extraordinary cohort of women profoundly influencing the social political and religious revolutions of our era **Louis Armstrong, Duke Ellington, and Miles Davis**

Aaron Lefkowitz, 2018-06-20 This book examines Louis Armstrong Duke Ellington and Miles Davis as distinctively global symbols of threatening and nonthreatening black masculinity It centers them in debates over U.S. cultural exceptionalism noting how they have been part of the definition of jazz as a jingoistic and exclusively American form of popular culture

Meir Kahane Shaul Magid, 2023-08-08 The life and politics of an American Jewish activist who preached radical and violent means to Jewish survival Meir Kahane came of age amid the radical politics of the counterculture becoming a militant voice of protest against Jewish liberalism Kahane founded the Jewish Defense League in 1968 declaring that Jews must protect themselves by any means necessary He immigrated to Israel in 1971 where he founded KACH an ultranationalist and racist political party He would die by assassination in 1990 Shaul Magid provides an in-depth look at this controversial figure showing how the postwar American experience shaped his life and political thought Magid sheds new light on Kahane's radical political views his critique of liberalism and his use of the grammar of race as a tool to promote Jewish pride He discusses Kahane's theory of violence as a mechanism to assure Jewish safety and traces how his Zionism evolved from a fervent support of Israel to a belief that the Zionist project had failed Magid examines how tradition and classical Jewish texts profoundly influenced Kahane's thought later in life and argues that Kahane's enduring legacy lies not in his Israeli career but in the challenge he posed to the liberalism and assimilatory project of the postwar American Jewish establishment This incisive book shows how Kahane was a quintessentially American figure one who adopted the radicalism of the militant Left as a tenet of Jewish survival *Racial Structure and Radical Politics in the African Diaspora* Georgia A. Persons, 2017-07-05 This is a must-read book for anyone interested in the areas of racial theory and racial relations multicultural and polarized

religions and the making of African personality and culture In keeping with earlier volumes in the series it emphasizes the cross fertilization of Africa and the world In *Binga Bank The Development of the Black Metropolis* Beth Johnson gives an historic look at the opening of the Binga Bank its founder and how the bank helped stimulate the black metropolis in Chicago *Black on the Block* takes a look at life in the community of North Kenwood Oakland California Mark Christian describes what it is like to be a member in the African diaspora in the United States and United Kingdom In the racial theory and racial relations area Clarence Tally's *The aeRace Concept and Racial Structure* argues that the study of race has become dominated by the idea that race is socially constructed Reiland Rabaka analyzes discourse on the process of awarding reparations to people of African origin Paula A Moore explains why people of African descent with mental health problems do not receive treatment *Patriot Day* focuses on the emergence and growth of Islam in America and its struggle to connect with America's cultural heritage *Edward Wilmot Blyden and the African Personality* by James Conyers reviews Blyden's ideas and beliefs challenging the European worldview *Cultural Helix Theory* examines the most fundamental component of African culture language and how it affects the black community *Black in the Saddle* by Demetrius W Pearson chronicles the professional and personal experiences of Willie Thomas an African American cowboy

Unveiling the Energy of Verbal Beauty: An Mental Sojourn through **Radicals Against Race**
