this book could not have come at a more appropriate time a time to take stock not only of the changes but also the continuities in media systems of the region since 1989 To what extent are media institutions still controlled by political forces To what extent are media markets operating in Central and Eastern Europe Do media systems in Central and Eastern Europe resemble media systems in other parts of Europe The answers to these questions are not the same for each country in the region Their experience is not homogeneous An international line up of distinguished experts and emerging scholars methodically examine the different economic political cultural and transnational factors affecting developments in media systems across Central and Eastern Europe Whereas earlier works in the media system tradition have in the main adopted the political framework of comparative politics the authors argue that media systems are also cultural and economic institutions and there are other critical variables that might explain certain outcomes better Topics discussed range from political economy to gender inequality to the study of ethno cultural diversity This unmatched volume gives you the unique opportunity to study the growing field of comparative media analysis across Eastern and Western Europe A valuable resource that goes beyond the field of media and cultural analysis which media scholars as well as to area specialists should not go without Foreign Direct Investment Inflows Into the South East European Media Market Zvezdan Vukanović, 2016-07-25

Žilková, 2021-04-16 The book of studies named Globalisation Trends in the Media contains an evaluation of the media culture in Slovakia. It deals with problems caused by globalisation and by the specific circumstances of media production. Whilst the post-socialist states are in many respects in a similar situation, they each have their own specific attributes too. As this book features not only Slovak but also Czech and Polish authors, the English reader will be able to gain an idea of the state of media production and especially of the media culture in Central Europe. The nature of media culture in Central Europe when compared to that of countries situated further east differs mainly in its inclination towards western Europe and unfortunately towards America too. The book contains theoretical and glozing articles dealing with radio and television production as well as the Internet. Overall, the book aims to introduce the reader to the state of the Slovak media culture to its audience and also to its problems and successes since the year 1989. The book will probably attract the attention of experts in media production, academics of media culture and young people interested in radio and television production who would like to learn something about the culture of a small Central European country. They might have come across a similar phenomena in England. The book will help them find out how European culture influences Slovakia.
