Weissman,2019-09-05 Building on his 2006 book Which Side Are You On Dick Weissman s A New History of American and Canadian Folk Music presents a provocative discussion of the history evolution and current status of folk music in the United States and Canada North American folk music achieved a high level of popular acceptance in the late 1950s When it was replaced by various forms of rock music it became a more specialized musical niche fragmenting into a proliferation of musical styles In the pop folk revival of the 1960s artists were celebrated or rejected for popularizing the music to a mass audience In particular the music seemed to embrace a quest for authenticity which has led to endless explorations of what is or is not faithful to the original concept of traditional music This book examines the history of folk music into the 21st century and how it evolved from an agrarian style as it became increasingly urbanized Scholar performer Dick Weissman himself a veteran of the popularization wars is uniquely qualified to examine the many controversies and musical evolutions of the music including a detailed discussion of the quest for authenticity and how various musicians critics and fans have defined that pursuit Child and Adolescent Psychotherapy David A. Crenshaw,2008-09-26 This edited collection by David A

Crenshaw with contributions from such notables as James Garbarino Kenneth V Hardy and Andrew Fussner addresses the multiple sources of wounding of children and teens in contemporary life The book conveys a message of hope and optimism even in work with children who might be viewed as impossible cases because the contributors share a passion for utilizing and building on the strengths of children and families These authors go beyond treating psychiatric symptoms to address in a more comprehensive way the emotional suffering of youth The unifying treatment framework for the book is relational therapy The emotional injuries of children do not develop in a vacuum but rather in a relational context and healing must also be embedded in an empathic relationship between the child and the family Building repairing and restoring connections within the family and the larger community as well as within the therapeutic relationship opens the door to growth healing and meaningful belonging The stories of triumph over adversity by the courageous children and families in this book will inspire those who daily strive to make a meaningful difference in the lives of hurting youth to renew their commitment to this worthy mission *Arabica* ,1999 **The Writers Directory 2008** Michelle Kazensky,2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication Entries include
