2005 marks the centenary of Russia's first revolution an unplanned spontaneous rejection of Tsarist rule that was a response to the Bloody Sunday massacre of 9th January 1905 A wave of strikes urban uprisings peasant revolts national revolutions and mutinies swept across the Russian Empire and it proved a crucial turning point in the demise of the autocracy and the rise of a revolutionary socialism that would shape Russia Europe and the international system for the rest of the twentieth century The centenary of the Revolution has prompted scholars to review and reassess our understanding of what happened in 1905 Recent opportunities to access archives throughout the former Soviet Union are yielding new provincial perspectives as well as fresh insights into the roles of national and religious minorities and the parts played by individuals social groups political parties and institutions This text brings together some of the best of this new research and reassessment and includes thirteen chapters written by leading historians from around the world together with an introduction from Abraham Ascher      *The Revolution of 1905* Abraham Ascher,1988 The first of two volumes this is the most comprehensive account of the Revolution of 1905 a decisive turning point in modern Russian history to appear in any Western language in a generation

Rolt,1960      *The Revolution of 1905* Abraham Ascher,2004 This is a concise history of the Revolution of 1905 a critical juncture in the history of Russia when several possible paths were opened up for the country By the end of that year virtually every social group had become active in the opposition to the autocracy which was on the verge of collapse Only the promise of reform in particular the formation of a parliament Duma that would participate in governing the country enabled the old order to survive For some eighteen months the opposition and the Tsarist regime continued to struggle for supremacy and only in June 1907 did the government reassert its authority It drastically changed the relatively liberal electoral law depriving many citizens of the vote Although the revolution was now over some institutional changes remained intact Most notably Russia retained an elected legislature and political parties speaking for various social and economic interests As a result the autocratic system of rule was undermined and the fate of the political and social order remained uncertain      **Blood & Laughter** David King,Cathy Porter,1983      **The Russian Revolution of 1905 [engl.]**.
