Britain's Railways in the Second World War Michael Foley,2021-01-18 A fascinating account of the British Railways system s vital role in the defense of the country and support of the Allied forces during WWII The outbreak of the Second World War had an enormous effect on the railway system in Britain The Big Four companies put aside differences and worked together for the war effort The logistics of transporting troops during the evacuation of Dunkirk and the preparations for D Day were unprecedented Meanwhile they had to cope with the new and constant threat of aerial bombing As a result the railway system effectively served as another branch of the military At the end of the war Winston Churchill likened London to a large animal declaring that what kept the animal alive was its transport system The metaphor could have been applied to the whole of Britain and its most vital transport system was the railway This book brings to light the often forgotten stories of the brave men and women who went to work on the railways and put their lives on the line Engines of War Christian Wolmar,2010-11-02 The birth of the railway in the early 1830 s revolutionized the way the world waged war From armored engines with swiveling guns to the practice of track sabotage to the construction of tracks that crossed frozen Siberian lakes the iron road facilitated conflict on a scale that was previously unimaginable It not only made armies more mobile but widened fighting fronts and increased the power and scale of available weaponry a deadly combination In *Engines of War* Christian Wolmar examines all the engagements in which the railway played a part the Crimean War the American Civil War both world wars the Korean War and the Cold War with its mysterious missile trains and illustrates how the railway became a deadly weapon exploited by governments across the world **Railways in War and After** Great Western Railway (Great Britain),1946 British railways and the great war ; organisation, efforts, difficulties and achievements Edwin A. Pratt,1921-01-01 **The Times History of the War** ,1919 *Railroads in the Civil War* John E. Clark, Jr.,2004-10-01 By the time of the Civil War the railroads had advanced to allow the movement of large numbers of troops even though railways had not yet matured into a truly integrated transportation system Gaps between lines incompatible track gauges and other vexing impediments remained in both the North and South As John E Clark explains in this compelling study the skill with which Union and Confederate war leaders met those problems and utilized the rail system to its fullest potential was an essential ingredient for ultimate victory **Britain's Railways in the First World War** Michael Foley,2021-09-30 It is easy to believe that the only part that Britain s railways played in the First World War was to carry the soldiers to the ships that would take them to France This couldn t be further from the truth Without the help from the railways it is unlikely that the war would have been over as quickly as it was In *Britain s Railways in the First World War* Michael Foley examines how the

railway system and its workers proved to be a vital part of the war effort one contemporary writer even commenting that he thought they were as significant as the navy The book describes how the enlistment of railway troops for the Royal Engineers to meet the increasing transport demands of the military was to bleed the civilian system dry as skilled railwaymen were sent to work at the front In addition the military commandeered thousands of Britain s railway vehicles sending them to each of the theatres of war and turned the already stressed railway workshops away from maintaining what remained of the country s railways and rolling stock so they could produce armaments for the forces instead The book also reveals how the British were so far behind their enemies and allies in the use of railway support to the front lines that they had to plead for help from

World War From troop and hospital trains to carrying munitions and freight the railways were vital *The Rise of Rail-power in War and Conquest, 1833-1914, with a Bibliography* Edwin A. Pratt,1915 *Our Railway System* Robert Mallet,2023-04-12 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost *Railways and International Politics* T.G. Otte,Keith Neilson,2012-09-10 This new study brings together leading experts to show how the modern world began with the coming of the railway They clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world While the effect of railways on economic development is self evident little attention has been paid to their impact on international relations This is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the Great Powers This took many forms Often as in East Asia the competition for railway concessions reflected the clash of rival imperial interests The success or failure of this competition could determine which of the European Powers was to dominate and exploit the markets of China and Siam Just as often railways were linked with military matters Prussia s success in the wars of German unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of German military thinking before the First World War So too did they for the Russians whose vast Empire required rail links capable of moving the Tsarist army quickly and competently Just as importantly railways could be vital for Imperial defence as the British discovered on the North West frontier of India This book will be of much interest to students of international history military history and strategic studies **The Railway Magazine** ,1901 List of References on the Relation of British Railways to the European War Association of American Railroads.
