centuries The book describes what stopped the houses falling into the river how the houses were gradually enlarged what their layout was inside what goods were sold on the bridge and how these changed over time the extensive rebuilding in 1477 1548 and 1683 96 and the removal of the houses around 1760 There are many new discoveries about the structure of the bridge the width of the roadway the original layout of the houses how the houses were supported the size and internal planning of the houses the quality of their architecture and the trades practised on the bridge The book includes five newly commissioned reconstruction drawings showing what we now know about the bridge and its houses
