Security Policy Reorientation In Peripheral Europe A Comparative Perspective Approach:

Security Policy Reorientation in Peripheral Europe Kjell Engelbrekt, 2019-09-18 This title was first published in 2002 This rich comparative analysis looks at security policy reorientation in four European states located at the periphery of the European continent During the post Cold War period Greece Bulgaria Sweden and Finland conducted a security policy that was heavily influenced by their close proximity to the iron curtain Probing this transition during a decisive phase of the post Cold War reconstitution of the wider European security order the author analyzes national security policy making from the standpoints of three international relations traditions realism institutionalism and political anthropology This engaging work is invaluable for students scholars and policy analysts working in the field of international relations and European politics

European Union and Strategy Kjell Engelbrekt, Jan Hallenberg, 2010-09-13 This edited volume sets out to explore the paradox that the European Union EU produces policies with strategic qualities but lacks the institutions and concepts to engage in strategic reasoning and action proper The book has a two fold agenda exploring current EU external policies that are or seem to be linked to strategic priorities and also studying the concept of strategy in the particular context of EU decision and policymaking The volume first examines the character of the Union as a strategic actor at this stage of its development It then explores the ability of the Union to act and otherwise influence both its periphery and the wider world focusing in particular on how it is perceived by other actors The final section comprises personal assessments by a group of contributors regarding the character of the union as a strategic actor in the present and future When these are pieced together a picture emerges of a European strategy in the making albeit one that so far is modest and partial This book will be of interest to students of European Security European Politics and IR *Studia diplomatica* ,2006 **American Book Publishing Record** ,2003 *Forthcoming Books* Rose Arny, 2002 *Security Policy Reorientation in Peripheral Europe* Kjell Engelbrekt, 2001 *The British National Bibliography* Arthur James Wells, 2003 *Books in Print Supplement* ,2002

Old Europe, New Security Mary Troy Johnson, Janet Adamski, Cristina M. Schweiss, 2017-11-30 Many of the US criticisms of Western European reluctance to engage in the 2004 war in Iraq stem from a perception that these governments are weak on defence or unwilling to pull their own weight in the international system Secretary Rumsfeld pejoratively designated traditional Atlantic Alliance allies as Old Europe to distinguish them from the freshly minted cooperative states of New Europe In doing so Rumsfeld accused Old Europe of yet again relying on the United States to solve shared security problems This volume critically evaluates the validity of this view of Western European choices and policies Rather than a primary reliance on military force as first line defence it proposes that Western European governments are expanding the set of tools they have to apply to the post Cold War array of security and defence problems The volume examines the emergent European security approach from multiple perspectives in multiple institutions and identities and in different geographic contexts Europe After the Cold War Wojciech Kostecki, 1996
