Going On An Adventure Jeff Evans, 2025-06-05 This book is about an adventure that God put upon my heart and put me on years ago Years ago I was diagnosed with a malignant melanoma and three months after that my wife was diagnosed with non Hodgkin's lymphoma At that time we had five

children from the ages of two to ten It was a life changing and spiritual change for both of us Also this spring I was given a sabbatical A buddy and I drove across the country on our motorcycles This book is about my adventure with God through cancer and what I believe was my and my wife s ultimate healing and it is also about my adventure and experience going across the country on my motorcycle Each chapter will include parallel my experience and adventure in a certain area with God and my adventure on the bike My prayer and hope is that this will lead the reader to begin and or continue on their own adventure with God As God spoke to me There is so much more to Me than what you have learned and experienced Just be open I hope He will also speak to you Let us go deeper and closer in our walk with Jesus Missus on a motorbike Jackie Hartley,2013-12-02 In 2002 just when the kids had finally left home and life was getting a bit easier Jackie s husband came back from a conference and told her that he wanted to learn to ride a motorbike before he got too old Jackie was first shocked and then horrified Having witnessed a tragic bike accident in her early 20 s she was very against the idea and tried to talk him out of it Then slowly she got drawn into the fascinating world of biking and bikers until overcoming her own fears she took to the road on two wheels Full of wry observations about bikers both on and off bikes amusing anecdotes and a self mocking account of Jackie s efforts to learn to handle her machine on her ever widening travels this book shows us that motorbiking is not just about power speed and big macho men in leathers *Two Years in a Gulag* Frank Pleszak,2013-02-15 The true story of a Polish peasant exiled to the harsh Gulags of north eastern Siberia during the Second World War *Motorcycle* Steven E. Alford,Suzanne Ferriss,2008-01-03 A highly illustrated account of the history design and culture of the motorbike Motorcycle is essential reading for the Harley Davidson roadhog bike collector or anyone who s felt the power of the unmistakable king of the road *Cultural Heritage of the Great War in Britain* Ross J. Wilson,2016-04-22 As the hundredth anniversary approaches it is timely to reflect not only upon the Great War itself and on the memorials which were erected to ensure it did not slip from national consciousness but also to reflect upon its rich and substantial cultural legacy This book examines the heritage of the Great War in contemporary Britain It addresses how the war maintains a place and value within British society through the usage of phrases references metaphors and imagery within popular media heritage and political discourse Whilst the representation of the war within historiography literature art television and film has been examined by scholars seeking to understand the origins of the popular memory of the conflict these analyses have neglected how and why wider popular debate draws upon a war fought nearly a century ago to express ideas about identity place and politics By examining the history usage and meanings of references to the Great War within local and national newspapers historical societies political publications and manifestos the heritage sector popular expressions blogs and internet chat rooms an analysis of the discourses which structure the remembrance of the war can be created The book acknowledges the diversity within Britain as different regional and national identities draw upon the war as a means of expression Whilst utilising the substantial field of heritage studies this book puts forward a new methodology for

assessing cultural heritage and creates an original perspective on the place of the Great War across contemporary British society

Tourist Experience Richard Sharpley, Philip Stone, 2010-10-04 To consume tourism is to consume experiences. An understanding of the ways in which tourists experience the places and people they visit is therefore fundamental to the study of the consumption of tourism. Consequently it is not surprising that attention has long been paid in the tourism literature to particular perspectives on the tourist experience including demand factors, tourist motivation, typologies of tourists and issues related to authenticity, commodification, image and perception. However, as tourism has continued to expand in both scale and scope and as tourists' needs and expectations have become more diverse and complex in response to transformations in the dynamic socio-cultural world of tourism, so too have tourist experiences. *Tourist Experience* provides a focused analysis into tourist experiences that reflect their ever-increasing diversity and complexity and their significance and meaning to tourists themselves. Written by leading international scholars, it offers new insights into emergent behaviours, motivations and sought meanings on the part of tourists based on five contemporary themes determined by current research activity in tourism: experience, dark tourism, experiences, experiencing, poor places, sport tourism, experiences, writing the tourist experience and researching tourist experiences, methodological approaches. The book critically explores these experiences from multidisciplinary perspectives and includes case studies from a wide range of geographical regions. By analyzing these contemporary tourist experiences, the book will provide further understanding of the consumption of tourism.

Drive Iain Borden, 2013-02-15 The open road is a phrase that calls to mind a sense of freedom, adventure and new possibilities that make driving one of our most liberating activities. In *Drive*, Iain Borden explores the way driving allows us to encounter landscapes and cities around the world. He takes particular notice of how driving is portrayed in film from America to Europe to Asia and from Hollywood to the avant-garde, covering over a century of history and referencing hundreds of movies. From the dusty landscapes of *The Grapes of Wrath* to the city streets of *The Italian Job*, from the aesthetic delights of *Rain Man* and *Traffic* to the existential musings of *Thelma and Louise* and *Vanishing Point*, from the freeway pleasures of *Radio On* and *London Orbital* to the high-speed dangers of *Crash*, *Bullitt* and *Cat on a Hot Tin Roof*, this book shows how driving with different speeds, cars, roads and cities provides experiences and challenges beyond compare. Borden concludes that as an integral part of modern life, car driving is something to be celebrated and even encouraged, making *Drive* a timely riposte to anti-car attitudes and those blind to the richness of life behind the wheel.
