From Clovis to Charlemagne: Frankish History and Historians Roger Collins, 2025-09-25 This book is a collection of papers on Frankish historiography in the Merovingian and early Carolingian periods from the late sixth to early ninth centuries and studies numerous individual texts evaluating their witness to the events they describe It also includes hitherto unpublished items on the so called Chronicle of Fredegar in both its original and eighth century versions and also an entirely new article on the Merovingian dynastic crisis of 613 along with a general introduction and a bibliography of its author s writing Particular attention is focused on the element of deception deliberate or otherwise in the narrative accounts

of some of the Frankish histories and chronicles and on the way they were written in order to promote specific interpretations of certain individuals and events or in some cases to conceal their very existence Certain central episodes such as the imperial coronation of Charlemagne are examined to detect the ways in which they were interpreted and presented in contemporary texts From Clovis to Charlemagne Frankish History and Historians will appeal to academics and students interested in the history of early medieval France the processes of historical composition in that period the study of manuscripts relating to it and the wider questions about historical understanding and the interpretation of evidence **The Oxford Illustrated History of Medieval Europe** George Holmes,1988 The individual chapters are scholarly and up to the minute without loss of accessibility or pace The illustrations are many apposite and refreshingly unhackneyed Times Literary Supplement Queens, Consorts, Concubines: Gregory of Tours and Women of the Merovingian Elite E. T. Dailey,2015-04-14 Gregory of Tours hoped to inspire the believers in sixth century Gaul with examples of righteous and wicked deeds and their consequences Critiquing his own society Gregory contrasted vengeful queens rebellious nuns and conniving witches with pious widows humble abbesses and tearful saints By examining his thematic treatment of topics including widowhood marriage sanctity authority and political agency *Queens Consorts Concubines* reassesses the material shaped by such concerns including e g Gregory s accounts of Brunhild Fredegund Radegund and other important elite women Merovingian political policies marital alliances ecclesiastical intrigue even assassinations and seemingly unrelated topics such as Hermenegild s rebellion and the career of Empress Sophia The result a new interpretation of an important witness to the transformations of Late Antiquity The History of the Franks Gregory of Tours,1974-11-28 Written following the collapse of Rome s secular control over western Europe the History of Gregory c AD 539 594 is a fascinating exploration of the events that shaped sixth century France This volume contains all ten books from the work the last seven of which provide an in depth description of Gregory s own era in which he played an important role as Bishop of Tours With skill and eloquence Gregory brings the age vividly to life as he relates the exploits of missionaries martyrs kings and queens including the quarrelling sons of Lothar I and the ruthless Queen Fredegund third wife of Chilperic Portraying an age of staggering cruelty and rapid change this is a powerful depiction of the turbulent progression of faith at a time of political and social chaos *Encyclopedia of Early Christianity* Everett Ferguson,2013-10-08 First published in 1997 What s new in the Second Edition Some 250 new entries twenty five percent more than in the first edition plus twenty five new expert contributors Bibliographies are greatly expanded and updated throughout More focus on biblical books and philosophical schools their influence on early Christianity and their use by patristic writers More information about the Jewish and pagan environment of early Christianity Greatly enlarged coverage of the eastern expansion of the faith throughout Asia including persons and literature More extensive treatment of saints monasticism worship practices and modern scholars Greater emphasis on social history and more theme articles More illustrations maps and plans Additional articles on geographical regions Expanded

chronological table Also includes maps *The Birth of Territory* Stuart Elden, 2022-12-22 Political theory professor Stuart Elden explores the history of land ownership and control from the ancient to the modern world in *The Birth of Territory* Territory is one of the central political concepts of the modern world and indeed functions as the primary way the world is divided and controlled politically Yet territory has not received the critical attention afforded to other crucial concepts such as sovereignty rights and justice While territory continues to matter politically and territorial disputes and arrangements are studied in detail the concept of territory itself is often neglected today Where did the idea of exclusive ownership of a portion of the earth's surface come from and what kinds of complexities are hidden behind that seemingly straightforward definition *The Birth of Territory* provides a detailed account of the emergence of territory within Western political thought Looking at ancient medieval Renaissance and early modern thought Stuart Elden examines the evolution of the concept of territory from ancient Greece to the seventeenth century to determine how we arrived at our contemporary understanding Elden addresses a range of historical political and literary texts and practices as well as a number of key players historians poets philosophers theologians and secular political theorists and in doing so sheds new light on the way the world came to be ordered and how the earth's surface is divided controlled and administered *The Birth of Territory* is an outstanding scholarly achievement a book that already promises to become a classic in geography together with very few others published in the past decades

Political Geography An impressive feat of erudition *American Historical Review* **The Long-haired Kings, and Other Essays in Frankish History** John Michael Wallace-Hadrill, 1962 **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects** University of California (System). Institute of Library Research, University of California, Berkeley, 1972 **Armies and Politics in the Early Medieval West** Bernard S. Bachrach, 1993 In these articles Professor Bachrach starts by looking at aspects of the barbarian occupation of the land of the Roman Empire from Britain to the Alan settlements in southern Gaul His particular interest however is in the political and above all in the military structures that grew out of the Early Middle Ages He has sought to demonstrate that there was a fundamental continuity in military organisation and tactics from the Merovingian through the Carolingian period As he shows there is no reason to connect the origins of feudalism with Charles Martel's wish to create a force of cavalry and it is a fallacy that he grasped the potential of the stirrup for enabling mounted shock combat On the contrary its use in the West progressed only slowly and it had nothing to do with the origins or growth of feudalism Le professeur Bachrach d'abord analyse de certains aspects de l'occupation barbare des terres de l'empire romain de la Grande Bretagne aux campements alans en Gaule méridionale Il s'attache ensuite aux structures politiques et surtout militaires qui furent issues du Haut Moyen Âge Selon lui et il tente d'en faire ici la démonstration l'organisation et les tactiques militaires ont fait preuve d'une continuité fondamentale de l'époque mérovingienne celle des Carolingiens Comme il le démontre il n'y a pas lieu d'établir de liens entre l'origine du féodalisme et le d'écuyer qu'avait Charles Martel de créer une cavalerie il est galemment tout fait erron

de dire que ce dernier s'était rendu compte du potentiel de l'épée en tant que facteur de mener des combats cheval de choc. Bien contraire, l'utilisation de l'épée l'Ouest ne fit que progresser lentement et aucun rapport n'existe entre cet instrument et l'origine ou la croissance de la féodalité.

The papers gathered in this volume were all given in 1999 at the International Congress on Medieval Studies in Kalamazoo at the International Medieval Congress in Leeds and during a day conference held at York.
