Succession nothing in plant community or ecosystem ecology has been so elaborated by terminology so much reviewed and yet so much the center of controversy In a general sense every ecologist uses the concept in teaching and research but no two ecologists seem to have a unified concept of the details of succession The word was used by Thoreau to describe from a naturalist's point of view the general changes observed during the transition of an old field to a forest As data accumulated a lengthy taxonomy of succession developed around early twentieth century ecologists such as Cooper Clements and Gleason Now nearer the end of the century and after much discussion concerning the nature of vegetation communities where do ecologists stand with respect to knowledge of ecological succession The intent of this book is not to rehash classic philosophies of succession that have emerged through the past several decades of study but to provide a forum for ecologists to present their current research and present day interpretation of data To this end we brought together a group of scientists currently studying terrestrial plant succession who represent research experience in a broad spectrum of different ecosystem

types The results of that meeting led to this book which presents to the reader a unique summary of contemporary research on forest succession Short Writings from Bulawayo II Jane Morris, 2005-08-15 Short Writings from Bulawayo won the Literature in English category at the 2005 Zimbabwe Book Publishers Association awards It is a book of stories poems and non fiction pieces that are evocative of Zimbabwe s second city and its rural surroundings The collection from 23 contributors tells of many things of family and friendship or fear and death or witches and spirits of hunger and drought of dreams and aspirations of leaving home and leaving Zimbabwe of queues and loneliness of football and bicycles and of growing old and of love A unifying theme of many of the stories and poems is loss of innocence of purpose of love of culture of belonging and of life Our Darlings: the Children's Treasury of Pictures & Stories T.J.
