**Locating Nordic Noir** Kim Toft Hansen, Anne Marit Waade, 2017-10-14 This book is a comprehensive study of Nordic Noir television drama from the 1990 s until today The authors introduce the history of contemporary Nordic Noir from the perspective of place production and location studies The chapters include readings of well known television crime dramas

such as Beck The Killing Trapped and The Bridge as well as a range of other important Nordic Noir cases The authors position the development of Nordic Noir in the global market for popular television drama and place the international attention towards Nordic crime dramas within regional development of drama production in Sweden Denmark Norway and Iceland Consequently Nordic Noir is read as both a transnational financial and creative phenomenon and as a local possibility for community building Offering a comprehensible scholarly and methodologically original approach to the popularity of Nordic television crime dramas this volume is aimed at readers with an interest in crime drama as well as scholars and students of television drama Noir in the North Stacy Gillis, Gunnthorunn Gudmundsdottir, 2020-10-01 What is often termed Nordic Noir has dominated detective fiction film and television internationally for over two decades But what are the parameters of this genre both historically and geographically What is noirish and what is northern about Nordic noir The foreword and coda in this volume by two internationally bestselling writers of crime fiction in the north Yrsa Sigur ard ttir and Gunnar Staalesen speak to the social contract undertaken by writers of noir while the interview with the renowned crime writer Val McDermid adds nuance to our understanding of what it is to write noir in the North Divided into four sections Gender and Sexuality Space and Place Politics and Crime and Gene and Genealogy Noir in the North challenges the traditional critical histories of noir by investigating how it functions transnationally beyond the geographical borders of Scandinavia The essays in this book deepen our critical understanding of noir more generally by demonstrating for example Nordic noir s connection to fin de si cle literatures and to mid century interior design and by investigating the function of the The Oxford Handbook of Compounding Rochelle Lieber, Pavol Stekauer, 2011-07-07 This book state in crime fiction presents a comprehensive review of theoretical work on the linguistics and psycholinguistics of compound words and combines it with a series of surveys of compounding in a variety of languages from a wide range of language families Compounding is an effective way to create and express new meanings Compound words are segmentable into their constituents so that new items can often be understood on first presentation However as keystone keynote and keyboard and breadboard sandwich board and mortarboard show the relation between components is often far from straightforward The question then arises as to how far compound sequences are analysed at each encounter and how far they are stored in the brain as single lexical items. The nature and processing of compounds thus offer an unusually direct route to how language operates in the mind as well as providing the means of investigating important aspects of morphology and lexical semantics and insights to child language acquisition and the organization of the mental lexicon This book is the first to report on the state of the art on these and other central topics including the classification and typology of compounds and cross linguistic research on the subject in different frameworks and from synchronic and diachronic perspectives The History of German Literature on Film Christiane Schönfeld, 2023-06-15 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE This book tells the story of German language literature on film beginning with pioneering motion picture adaptations of Faust in 1897

and early debates focused on high art as mass culture It explores analyzes and contextualizes the so called golden age of silent cinema in the 1920s the impact of sound on adaptation practices the abuse of literary heritage by Nazi filmmakers and traces the role of German language literature in exile and postwar films across ideological boundaries in divided Germany in New German Cinema and in remakes and movies for cinema as well as television and streaming services in the 21st century Having provided the narrative core to thousands of films since the late 19th century many of German cinema s most influential masterpieces were inspired by canonical texts popular plays and even children's literature Not being restricted to German adaptations however this book also traces the role of literature originally written in German in international film productions which sheds light on the interrelation between cinema and key historical events It outlines how processes of adaptation are shaped by global catastrophes and the emergence of nations by materialist conditions liberal economies and capitalist imperatives political agendas the mobility of individuals and sometimes by the desire to create reflective surfaces and perhaps even art Commercial cinema's adaptation practices have foregrounded economic interest but numerous filmmakers throughout cinema history have turned to German language literature not simply to entertain but as a creative contribution to the public sphere marking adaptation practice at least potentially as a form of active citizenship
