Modeling Russias Economy In Transition Transition And Development:

Modeling Russia's Economy in Transition Peter Wehrheim,2003 Peter Wehrheim analyses the economy wide effects of various trade and economic policies that have affected Russia s transition from a planned economy to a market economy in the past decade *Modeling Economic Growth in Contemporary Russia* Bruno S. Sergi,2019-05-23 Russia is one of the world s largest growing economies With this exciting new growth and development there is a wealth of knowledge to be discovered from the strategies and models being used and created throughout Russia s economy **Alternative Political Economy Models of Transition** John Marangos,2017-07-05 The collapse of centrally administered socialism in Russia and Eastern Europe resulted in what is commonly referred to as the transition problem the transformation from a centrally administered socialist economic system to one that is market based Economic science has been faced with the challenge of developing an appropriate body of analysis advice and direction to help other nations that may be undergoing this process In this volume John Marangos adopts a political economy approach that yields alternative models of transition The volume develops transition models from what Marangos defines as the primary elements of six variables 1 economic analysis 2 definitions of the Good Society 3 speed of transition 4 political structure 5 ideological structure and 6 initial conditions The models developed include the shock therapy model the neoclassical gradualist model of transition the post Keynesian model the pluralistic market the socialist model and the non pluralistic market socialist model After identifying the primary elements of each transition model Marangos considers the elements of each model with respect to the desirable reforms An essential element of the transition process is not only to identify the necessary reforms but also a sequence in which the reforms should be introduced For each transition model developed in this book a set of primary and secondary elements were provided in conjunction with a sequence of reforms Analyzing the transition problem from a political economy perspective Marangos shows that it is possible to have inconsistencies within each transition model and between transition models yet be able to identify the potential for implementation and maintenance of necessary reforms each model recommends This volume contributes to the understanding of the process of transition with the objective of identifying an optimal model of transition

The Economics of Growth in Russia Ararat L. Osipian, 2023-05-17 This book presents theoretical and empirical investigation of economic growth in Russia The sharp decline in the national production that Russia endured in the 1990s linked directly to the exhausting and ill planned transition from the planned economy to the market economy resulted in Russia plunging into the poverty trap The goal of this book is to determine whether and how Russia manages to overcome the poverty trap and initiate and sustain economic growth This book fills the gap between the volatile economic growth as an objective economic reality of Russia and the lack of scholarly literature on the issue This study identifies the place and role of foreign aid in economic growth in the market type post transitional Russian economy and concludes that foreign aid does not play any significant role in the national economy contrary to what would follow from the classical poverty trap theory considered reviewed applied and tested in this study Development economists should not overestimate the role of foreign aid in overcoming the poverty trap in those developing economic systems that are currently not in equilibrium and only move toward their steady state The book will be of interest to those who want to learn more about specific problems in Russia s newly built capitalism the country s perspectives and its current semi peripheral status The book will also be an excellent supplement for students in Russian studies programs as well as for investors who want to do business in Russia and try to understand the country s domestic economic conditions and processes

Education in the Structure of the Social and Investment Model of Economic Growth: Scenarios of Development and Mechanisms of Management Elena G. Popkova, 2024-08-12 The importance of the formation of a socially oriented market economy grew due to the adoption of the global goals in the sphere of sustainable development For practical implementation of this idea in the modern economic systems there s a necessity for a new social and investment model of economic growth The essence and the main difference of this model from the traditional model of economic growth are the sources of growth are social investments investments in humans and an increase in the population s quality of life

Optimization Models in a Transition Economy Ivan V. Sergienko, Mikhail Mikhalevich, Ludmilla Koshlai, 2014-12-11 This book opens new avenues in understanding mathematical models within the context of a transition economy The exposition lays out the methods for combining different mathematical

structures and tools to effectively build the next model that will accurately reflect real world economic processes Mathematical modeling of weather phenomena allows us to forecast certain essential weather parameters without any possibility of changing them By contrast modeling of transition economies gives us the freedom to not only predict changes in important indexes of all types of economies but also to influence them more effectively in the desired direction Simply put any economy including a transitional one can be controlled This book is useful to anyone who wants to increase profits within their business or improve the quality of their family life and the economic area they live in It is beneficial for undergraduate and graduate students specializing in the fields of Economic Informatics Economic Cybernetics Applied Mathematics and Large Information Systems as well as for professional economists and employees of state planning and statistical organizations *Cotton, Water, Salts and Soums* Christopher Martius, Inna Rudenko, John P.A.
