Modeling Tanks And Military Vehicles:

Modeling Tanks and Military Vehicles Sheperd Paine,1982 **How to Build Dioramas** Sheperd Paine,2000 Learn everything you need to know about making your dioramas look real This fantastic revised edition will show you how with new projects new photos and expert tips Includes painting weathering and detailing tips for figures aircraft vehicles and more By Sheperd Paine **How to Model World War II German Armor** Carl McLaughlin,2002 This book offers many helpful techniques for creating German armored vehicles from the World War II era Covers numerous aspects of superdetailing models weathering airbrushing creating figures and dioramas and much more By Carl McLaughlin Modelling US World War II Armoured Fighting Vehicles Tom Cole,2022-03-21 Aimed at military model makers and wargamers who are interested in the armoured fighting vehicles of the United States as used throughout World War II this book follows on from Modelling British World War II Armoured Vehicles by the same author The book places its emphasis on US Army and US Marine Corps AFVs modelled mainly in 1 72 and 1 48 scales in a deliberate departure from the more popular 1 35 scale to encourage and inspire model makers who are new to or less familiar with these scales Illustrated with over 270 colour photos this book features every major US AFV used in World War II with many models shown in various stages of construction and paintings It presents step by step guides demonstrating the painting techniques appropriate for different scales and includes an additional section showing how to paint wargames models There is also a review of how the USA developed tanks and other armoured vehicles from the interwar period through to the end of World War II This fascinating story will help model makers and wargamers give the vehicles they build an historical context **Airbrushing and Finishing Scale Models** Brett Green,2011-03-15 Brett Green details the prerequisites of airbrushing including the different types of spray equipment and air sources available offering advice on appropriate thinners paint ratios and air pressures to ensure the most appropriate paint coverage across a range of different airbrushing applications He then examines various airbrushing techniques across a wide range of models Ten step by step illustrated studies ranging from weathered military aircraft to pristine high gloss motor vehicles science fiction models fantasy figures groundwork and buildings will complete this in depth guide to getting the best results on your models **How to Build Armor Dioramas** Lynn Kessler, *AK914 - MODELING T54 - T55 EN* , MiniArt s first collaboration with AK Interactive brings as a result this fantastic book backed by the quality and originality of both brands This book covers the scale models of this iconic tank and the new MiniArt models showing 6 extensive and amazing step by step articles and numerous curiosities of the different versions and evolutions A book that a modeler can t miss even if you are not a fan of this tank The T 54 and T 55 are a family of tanks designed in the Soviet Union descendants of the armored vehicles used during the II WW by this ancient power The T 55 is sibling of the T 54 which was developed from this with a series of important modifications and that saw the light in 1955 Basically it is actually an improvement of the T 54 which was decided to change its name for some reason but that retains so much of the initial design that it should

have been a T 54 with its bullet corresponding to the revised version One of the most important improvements offered by the T 54 55 with respect to the old tanks was the incorporation of the 100mm cannon that some units of the T 44 already introduced The hull is formed by welded plates and the tower is made of cast iron This is how the best modeling book oriented to these iconic tanks begins Displaying your model Richard Windrow,2011-05-03 Even after the paint dries there is still one important decision left to the modeller How to display the finished work In this new guide expert modeller Richard Windrow covers all the common and many less common display techniques including dioramas simple display cases mirror stands domes for individual figures deep picture frame boxes and even light boxes In a book crammed with pictures of beautiful models on display from World War II tanks to modern day rally cars it instructs both novice and expert modellers alike on how to take a simple model and display it as a work of art

Advanced Kalman Filtering, Least-Squares and Modeling Bruce P. Gibbs,2011-03-29 This book is intended primarily as a handbook for engineers who must design practical systems Its primary goal is to discuss model development in sufficient detail so that the reader may design an estimator that meets all application requirements and is robust to modeling assumptions Since it is sometimes difficult to a priori determine the best model structure use of exploratory data analysis to define model structure is discussed Methods for deciding on the best model are also presented A second goal is to present little known extensions of least squares estimation or Kalman filtering that provide guidance on model structure and parameters or make the estimator more robust to changes in real world behavior A third goal is discussion of implementation issues that make the estimator more accurate or efficient or that make it flexible so that model alternatives can be easily compared The fourth goal is to provide the designer analyst with guidance in evaluating estimator performance and in determining correcting problems The final goal is to provide a subroutine library that simplifies implementation and flexible general purpose high level drivers that allow both easy analysis of alternative models and access to extensions of the basic filtering Supplemental materials and up to date errata are downloadable at <http://booksupport.wiley.com>

Human Factors Issues in Combat Identification Robert Herz,Dee Andrews,Mark Wolf,2017-09-29 This edited book presents an array of approaches on how human factors theory and research addresses the challenges associated with combat identification Special emphasis is placed on reducing human error that leads to fratricide which is the unintentional death or injury of friendly personnel by friendly weapons during an enemy engagement Although fratricide has been a concern since humans first engaged in combat operations it gained prominence during the Persian Gulf War To reduce fratricide advances in technological approaches to enhance combat identification e g Blue Force Tracker should be coupled with the application of human factors principles to reduce human error The book brings together a diverse group of authors from academic and military researchers to government contractors and commercial developers to provide a single volume with broad appeal Human Factors Issues in Combat Identification is intended for the larger human factors community within academia the military and other organizations that work with the

military such as government contractors and commercial developers as well as others interested in combat identification issues including military personnel and policy makers
