**Education about Religions and Worldviews** Anna Halafoff, Elisabeth Arweck, Donald Boisvert, 2018-02-02 This volume presents the findings of a number of empirical and theoretical studies on education about religions and worldviews ERW conducted in the Western societies of Britain Ireland Canada Norway Finland New Zealand Australia and Canada Educational programmes about diverse religions and worldviews began to be investigated and implemented as strategies to encourage interreligious understanding and social cohesion particularly following the 2005 London bombings when a fear of youth radicalisation and home grown terrorism became prevalent In addition as a growing number of people in Western societies and young people especially declare themselves to have no religious affiliation state actors are currently grappling with the reality that we are living in increasingly multifaith and non religious societies and government education systems have become places of contestation as a result of these changes This volume examines ERW research and policies in a number of diverse places in the hope of identifying common themes overlapping insights and best practices that can inform research and policy for religious literacy and interreligious understanding in other contexts This book was originally published as a special issue of the Journal of Intercultural Studies *Religious Education at Schools in Europe* Martin Rothgangel, Robert Jackson, Martin Jäggle, 2014-05-14 The project Religious Education at Schools in Europe REL EDU which is divided up into six volumes Central Europe Western Europe Northern Europe Southern Europe South Eastern Europe Eastern Europe aims to research the situation with regard to religious education in Europe The second volume outlines the organisational form of religious education in the countries of Western Europe England Ireland Northern Ireland Scotland Wales Belgium France Luxembourg Netherlands This is done on the basis of thirteen key issues which allows specific points of comparison between different countries in Europe Thereby the volume focusses the comparative approach and facilitates further research into specific aspects of the comparison *Spiritual and Religious Education* Mal Leicester, Sohan Modgil, 2005-07-15 Volume V distinguishes religious and spiritual education and takes a multi faith approach to pedagogic curricular and resource issues The important area of collective worship is also addressed **Global Impacts of the Western School Model** Joel Spring, 2018-09-03 In this timely analysis of the current state of global educational policies Joel Spring focuses on the spread of the Western school model and its impact on creating an urban consumer culture increasing economic inequalities contributing to environmental destruction and diminishing compassion and empathy essential for energizing social justice movements In his signature straightforward concise style Spring describes and analyzes the school's role in displacing religious with secular values promoting nationalism preparing students to work in global corporations

supporting cultural and linguistic homogeneity and discusses related goals and effects of anti globalization movements such as the Alt right Anti fascist groups radical environmentalism and anarchism An important addition to Spring s body of work on global educational policies this provocative book challenges readers to re examine what they know about education globalization and their interconnections *Facing the Unknown Future* Ina ter Avest,Cok Bakker,Julia Ipgrave,Silke Leonhard,Peter Schreiner,2020 During the 20 year history of the European Network for Religious Education through Contextual Approaches ENRECA several books have been published on the subject of Religious Education from sociological psychological or anthropological perspectives and always in the contextual settings of national educational frameworks and other specific culturally bound phenomena Also very often an international comparative perspective was included The shared goal was not so much to reflect on religion as such and on its changing doctrines institutions and prescriptions but to try and understand religion in the specific European contexts of secularization and the plurality of life orientations and to understand how religion becomes manifest in education in a variety of concrete policies and classroom practices reflecting various social issues This volume marking the 20th anniversary of ENRECA has a specific focus on the contextual dimension of time

Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity *Religious Education*, 1929
