Modern Aether Science:

Modern Aether Science Harold Aspden, 1972 The Fire of Aether is the all-vivifying Spirit of Cosmic Matter Helena Petrovna Blavatsky, 2019-04-07 Part 1 Aether is the Father of the Universe and the all vivifying Spirit of Cosmic Matter Myths always speak to those who listen In Kosmos there are three higher principles Chthonia Chaos ther Zeus and Chronos Time ther is the Spirit of Cosmic Matter represented by Zeus Osiris and other androgynous deities Astral Light is their shadow on earth Fire is the unity of ther in its universality But there are two Kosmic Fires and a distinction is made between them in the Occult teachings ther and Hemera are the light of the superior and the light of the inferior or terrestrial regions ther Chaos Akasha is Deity The ther of the Greeks is the Akasha of the Hindus the Ether of modern physics is one of ther's subdivisions on our plane ther and Chaos Plato's Mind and Matter are the two primeval and eternal principles of the universe utterly independent of anything else ther is the all vivifying intellectual principle Chaos a shapeless liquid principle without form or sense from the union of which two sprung into existence the Universe the first androgynous deity the chaotic matter becoming its body and ther its soul Chaos Theos Kosmos are aspects of the Unknown Space Deity in the shape of ther Chaos Akasha Soul of the Universe and noumenon of Astral Light pervades all things The Theurgists called it the Living Fire and the Spirit of Light The science of physics and of metaphysics for that matter know nothing of ther Yet Father ther is re welcomed with open arms and wedded to gravitation ther is the source and cause of all forces whether cohesive chemical thermal electric or magnetic ther is septenary whether Akasha is meant by the term or its lower principle Ether Akasha is the Matrix of the Universe and the Mysterium Magnum from which all that exists is born by separation or differentiation it is the cause of existence it fills the infinite Space and is Space itself in one sense But as the finite within the Infinite this light must have its shadowy side the Astral Light which is no light Individual human beings can overpower that fatal light but only by the holiness of their lives and by acts of kindness and brotherly love In Buddhism there are no compulsory beliefs We are to believe only when the writing doctrine or teaching is corroborated by our own reason and consciousness But then we have to act accordingly and abundantly Nihil is synonym for the impersonal divine Principle the Infinite All which is neither being nor thing It is the Parabrahman of the Vedantist The One Life of the Buddhist That of the Chhandogya Upanishad the Ain Soph of the Kabbalah The Absolute of Hegel Lord Buddha taught that the Primitive Substance is eternal and unchangeable Its vehicle is the pure luminous ther boundless infinite Space still a creation of maya Mastery of Buddhist dogmas can be attained only by following the Platonic deductive method i e proceeding from universals to particulars In Buddhist philosophy annihilation implies only a dispersion of matter in whatever form or semblance of form it may be Even our astral bodies pure ether are but illusions of matter so long as they retain their terrestrial outline ther is incorruptible The spirits of creatures who are emanations of the most sublimated portions of ther are Breaths not forms The body of Jesus was abandoned to the earth while Christos the Inner Man was clothed with a luminous body made up of ther Part 2 Ether is the Mother of differentiated

matter vivified by the formless Fire of Aether When we recall pictures from the ether the returning current meeting the outgoing wave of crystallised sound takes it up by magnetic attraction and returns to us simultaneously the images of the past and the vibrations of its sounds Each particle of matter is the register of all that has happened and previsionally apprehends even unspoken thought which once conceived displaces the particles of the brain by setting them in motion and scatters its ideas throughout the universe thus impressing them indelibly upon the eternal and boundless expanse of ether The Divine Intellect is veiled in man His animal brain alone philosophizes When astral light circulates in harmony with the divine spirit the occult powers of plants animals and minerals magically sympathize with the superior natures and the divine soul of man attunes with the inferior ones But during the barren periods the latter lose their magic sympathy and the spiritual sight of the majority of mankind is so blinded as to lose every notion of the innate powers of its divine lineage and essence Spirit is the personal god of each mortal and his only divine element The dual soul on the contrary is semidivine i e potentially divine It is only when the human individuality soiled with earthly impurities overcomes separateness and identifies itself with the divine intelligence within that the aroma of personal experience can become immortal Although invisible thought is a material force Let the least cerebral motion reverberate in the Ether of Space and it will produce a disturbance reaching to infinity Akasha is not the Holy Ghost because it would then be Shekh nah M laprakriti Akasha is the noumenon of the Cosmic Septenary whose soul is Ether Ether is the lining of Akasha and Akasha is the Anima Mundi and Mother of Kosmos Akasha whose lowest form is the Ether of Space is entirely different from the medium of Science Fire is the Spirit of Deity the active male generative principle and Ether the Soul of Matter is the light of the Fire the passive female principle from which everything in this Universe emanated Hence Ether or Water is Mother and Fire is Father Sound is the characteristic of Akasha Ether it generates air the property of which is touch and which by friction generates colour and light The ether of Science is the grossest manifestation of Akasha though on our plane it is the seventh principle of the astral light and three degrees higher than radiant matter When ether penetrates or informs something it may be molecular because it takes on the form of the latter and its atoms inform the particles of that something We may perhaps call matter crystallised ether There is no such things as light heat sound or electricity There is nothing but radiant energy due to one thing Motion of Ether Modern Science may divide its hypothetically conceived ether in as many ways as it likes the real Ether of Space i e ther will remain as it is throughout Ether is the vibrating sound board in Nature in all of her seven differentiations Where there was no Ether there would be no sound The Astral Light or Ether of Space preserves the images of all beings and things on its sensitised waves An occult explanation of Spirit photographs is that they are objective copies from subjective photographs impressed upon the ether and constantly thrown out by our thoughts words and deeds There exists an infinite ocean of ether in which all material substance floats and through which are transmitted all forces in the physical universe So long as Spirit photography instead of being regarded a science is presented to the public as a new revelation from the God of

Israel and Jacob the jury will go on deliberating much longer The mediumistic rapping is a correlation of vital force emitted from the person of the rapper with the potential energy of the ether Cyprianus the reformed sorcerer of Antioch confessed that he knew of the Chald an division of ether into parts Part 3 The Seven Cosmic Elements with their numberless sub Elements are modifications of One Element There is but One Element in Nature and at its rootless root is Deity The so called Seven Elements of which five have already manifested and asserted their existence are the fabric veiling Deity Father ther has pre eminence over and is the synthesis of all elements Chaos Theos Kosmos is Unknown Space producing the four primary Elements which are known on the terrestrial plane as Seven Cosmic Elements The attempt to derive God from the Anglo Saxon word good is an abandoned idea God is Jod a phallic hook He may be the creator of physical man out of nothing but not the spark of divine intelligence that fell in order to make animal man divine The Seven immortal gods who give birth and life to all are constantly forming matter under the never ceasing impulse of the One Element The Seven Cosmic Elements with their numberless sub Elements are modifications and aspects of the One and only Element Four are entirely physical and the fifth Ether semi material Akasha of which Ether is the grossest form is the Fifth Cosmic Principle which corresponds to and from which unfolds the human Manas The first four numbers in German are named after four elements But the Ancients represented the world by five elements Had they been ignorant of the heterogeneity of the elements they would have had no personifications of Fire Air Water Earth and ther Of the Seven Elements on our Earth four are now fully manifested while the fifth Ether is only partially so as we are hardly in the second half of the Fourth Round and consequently the Fifth Element will manifest fully only in the Fifth Round It will only be in the next or Fifth Round that Ether the gross body of Akasha will become a familiar fact of Nature to all men as air is familiar to us now Cosmic Elements are the noumena of the terrestrial elements Water is Matter in its precosmic state Ether contains all other states of matter and their properties The waters of creation are not the liquid we know but ther the Fiery Waters of Invisible Space Fohat is the Son of ther in its highest aspect From Mahat Intelligence proceeds ether from ether air from air heat from heat water and from water earth with everything on her ther is universal Fire imponderable power and potency Ether is one of Seven Cosmic Principles Akasha is the synthesis of ther and Ether an aspect of Akasha The Astral Light is no light it is the dark side of Ether teeming with conscious semi conscious and unconscious entities The Secret Doctrine and Modern Science Bertram A.
