Modern Art And The Object:

Modern Art And The Object Ellen H. Johnson, 2019-03-04 This book is devoted to a reexamination of modern art from the point of view of the artist's approach to the object. It chronicles the complex changing relationship between art and the object over the past hundred years, a fundamental organicism relationship as one thing grows out of another. **Modern Art and the Object** ELLEN H. JOHNSON, Taylor & Francis Group, 2019-06-28

From Space in Modern Art to a Spatial Art History Jutta Vinzent, 2019-12-02 This book traces artists' theories of constructive space in the first half of the twentieth century. Drawing on these concepts and recent theories on space, it develops a methodology termed Spatial Art History that conceives of artworks as physical spatio-temporal things which produce the social to overcome the reductive understanding of art as a mere mirror or facilitator of society. **Dictionary Of Modern Art** Matthew Baigell, 2021-12-13 Alphabetically arranged and crossreferenced entries provide background information on major American painters, sculptors, printmakers, and photographers, plus important topics and movements central to American art from the sixteenth century to the present.

The Changing Boundaries and Nature of the Modern Art World Richard Kalina, 2021-04-08 Concentrating on the shifting boundaries and definition of art, Richard Kalina offers a panoramic view of the contemporary art scene over the last 30 years. His focus is on the ongoing development of concepts, the transformation of art worlds, and the social matrices in which they are created. Discussing painting in general and abstract painting in particular, his survey takes in photorealism, sculpture, and art forms found outside of the modernist tradition. Kalina's group of artists includes Mel Bochner, Joan Mitchell, Cy Twombly, Franz West, and Alma Thomas, who in their ongoing projects explicitly or implicitly questioned the aesthetic assumptions of their times. Merging an examination of animating philosophies and context, political, social, and personal, with a sharply focused look at the works of art themselves, Kalina brings us closer to understanding the social matrices in which art is embedded and responds to bigger questions about the object nature of the work of art in today's world. **Boundaries of Modern Art** Richard Pooler, 2013-02-04 Conceptual art in the Western world is in crisis. That is the view of many people who are disillusioned with what they regard as its attention-seeking antics, where artists themselves have proudly proclaimed the death of art. Why has art been on this road to destruction, and how did it get there? How does one make sense of the bewildering complexity of Conceptual art, and how does one extract meaning from its diverse and sometimes bizarre manifestations? This predicament needs explanation and an exploration of the theoretical underpinnings of modern and contemporary art and a means to evaluate it. This book starts with a summarised overview of the major art movements since the beginning of the twentieth century, a tracing of the extraordinary journey that art has followed in modern times. The next part considers contemporary art movements to explore whether they have value and how that value can be determined. Are the activities that take place in the name of art actually art? Or, as some would have it, is it a gigantic sham manipulated by clowns to make a trap for fools? To some, it is an outrage that modern and contemporary artists can splash paint around.

quickly and freely with a modicum of skill or assemble a range of found objects and regard themselves as gifted and creative artists Others see this as a new forward rolling wave with art at last released from the suffocation and restrictions of the past The rules have been cast aside There are fresh ways of exploring and seeing the world and expressing it freely The world is constantly changing and art must change with it Modern art has followed a long journey Traditions have been largely cast aside and replaced with an unceasing search for the new Our apparent progress is now being questioned Where do we go from here Are we on the right road The second half of this book discusses how we can make sense of contemporary art and assign value to an artwork Traditional painting and sculpture have physical limits Conceptual art does not This is a new freedom but is it freedom for art or freedom from art

Frameworks for Modern Art Jason Gaiger,2003-01-01 This generously illustrated volume the first in the Art of the Twentieth Century series introduces and explores a range of contemporary issues and debates about art and its place in the wider culture today The opening chapter discusses key concepts such as modernity modernism autonomy spectatorship and globalization Four case studies follow each devoted to a specific work of art across the span of the century Marcel Duchamp's Bottlerack Barnett Newman's Eve Ana Mendieta's Silueta series and Yarla by the Australian Aboriginal Yuendumu community These works have been selected not only for their intrinsic interest but also for the way in which they open up wider questions of meaning and interpretation that are central to understanding twentieth century art
