Modern Canoe:

Canoe Nation Bruce Erickson, 2013-06-15 More than an ancient means of transportation and trade the canoe has come to be a symbol of Canada itself In *Canoe Nation* Bruce Erickson chronicles the story of the canoe in the Canadian imagination He argues that the canoe's sentimental power has come about through a set of narratives that attempt to legitimize a particular vision of Canada and explores how the canoe went from being an industrial economic vehicle to a purely recreational vessel From Alexander Mackenzie to Grey Owl to Pierre Elliott Trudeau the canoe has been overvalued as a connection to the nature of Canada Examining voyageur re enactments turn of the century sportsman stories and the subsequent greening of the canoe this book shows how this symbol authenticates Canada's reputation as a tolerant environmentalist nation even when there is abundant evidence to the contrary Ultimately the stories we tell about the canoe need to be understood as moments in the ever contested field of cultural politics
