Modern Catholic Social Teaching The Popes Confront The Industrial Age 1740 1958:

Modern Catholic Social Teaching Joe Holland, 2003 The impact of the industrial revolution on the social structures of industrialized nations posed a difficult challenge to the Catholic Church and its Popes In the struggle for human and economic status should the Church side with the new working class or with capitalist barons who along with the old aristocracy identified themselves as upholders of Christian civilization In this history of papal social teaching Joe Holland tells how the popes at first backed the status quo Then with the accession of Pope Leo XIII in 1878 a seismic shift took place Leo's encyclical *Rerum novarum* was the first authoritative Church voice to declare that laboring people have rights the right to fair wages to decent living conditions the right to organize labor unions and even to strike Henceforth the notion of civilization at least for the Church would be grounded in the lives and aspirations of working people Modern Catholic Social Teaching traces this historic shift as it played out in the writings of Leo and the popes who followed him Pius X Benedict XV Pius XI and Pius XII These popes supported Leo's encyclical and even elaborated it as European history experienced the emergence of Globalization, Spirituality, and Justice Revised Edition Daniel G. Groody, 2015-10-15 A theological reading of globalization and a global reading of theology This book offers a rigorously critical and yet inspiring vision of justice as an integral part of Christian spirituality in our complex globalized world At the same time Daniel Groody's analysis draws on the conviction that faith and spirituality have an integral role in the struggle to achieve a more just social order

The Grace of the Rosary David P. Reid, *Christians, the State, and War* Gordon L. Heath,2022-03-14 In *Christians the State and War* An Ancient Tradition for the Modern World Gordon Heath argues that the pre Constantinian Christian testimony regarding the state s just use of violence was remarkably uniform and that it was arguably a catholic or universal tradition More specifically that tradition had five interrelated and intertwined constitutive areas of consensus that can best be understood as parts of one collective tradition Heath further argues that those five related areas of an early church tradition shaped all subsequent theological developments on views of the state its use of violence and the conditions of Christian participation in said violence Whereas the sorry and sordid instances in the church s history related to violence were times when the church drifted from those convictions of consensus the cases when Christians had a more stellar record of responding to the horrors of the world were times when they lived up to them Consequently the way forward today is for Christians to forgo beginning with the just war pacifist debate and instead to begin by letting their views on war and peace be shaped by that ancient tradition
