**Taxation in Modern China** Donald J. S. Brean,2013-10-23 Taxation in Modern China is concerned with tax and public financial issues arising in China s economic transition The contributors among the leading authorities on public finance transitional economics and policy reform in China direct attention to the largest and most comprehensive fiscal reform program in modern history The essays collected here cover the main institutional intergovernmental and industrial issues and address the long term challenges facing China as well as transitional changes

**China's Economic Culture** Carsten Herrmann-Pillath,2016-10-04 China s spectacular rise challenges established economic moulds both at the national level with the concept of state capitalism and at the firm level with the notion of indigenous Chinese management practices However both Chinese and Western observers emphasise the transitional nature of the reforms thereby leaving open the question as to whether China s reform process is really a fast catch up process with ultimate convergence to global standards or something different This book by a leading economist and sinologist argues that culture is an exceptionally useful tool to help understand fully the current picture of the Chinese economy Drawing on a range of disciplines including social psychology cognitive sciences institutional economics and Chinese studies the book examines long run path dependencies and cultural legacies and shows how these contribute crucially to the current cultural construction of economic systems business organisations and patterns of embedding the economy into society and politics

**Economic Development in Modern China Since 1949** Guan Quan,2023-07-31 As the second volume of a two volume set on the Chinese economic history this book investigates Chinese economic development since 1949 uncovering the momentum unique models and general laws of economy in China From the perspective of development economics the two volume set studies the economic history and development of China since 1912 with a focus on the quantitative analysis of economic activities This volume describes the historical process and characteristics of the economy since 1949 then looks into the momentum and inner logic that underpin the economic development The former part covers issues of agriculture industry population and labor force urbanization and mobility income distribution and poverty and price changes The latter part includes analyses on the capital formation human resources technological progress institutions macro policies international trade and direct investment This title will interest scholars and students working on Chinese economic history the Chinese economy and modern Chinese society

*Industrial Development in Modern China* Guan Quan,2020-12-30 This book studies the process of economic and industrial development in the Republic of China 1912 1949 in the hope of shedding light on how China came to be a comparative economic laggard in the period especially in comparison to Japan Backed up by extensive industrial statistical data gathered and rigorously analyzed by the author this book stands out from previous research that has been limited to theoretical inferences and general judgments with scarce empirical evidence So far from being a purely historical review of

China's industrial development this book focuses on the internal logic of economic phenomena especially the relationship among economic variables reflected in economic data and it offers discussions within the framework of economic development theory The author uses multivariate statistical analysis to draw comparisons between the industrial development of China and that of Japan focusing on outbound investment and its importance for economic growth This book will appeal to academics and general readers interested in the economic development and modern economic history of East Asia as well as development economics and industrial and technological history

**Understanding China's Economy**  
Gregory C. Chow, 1994 In the early 1990s the world began to recognize China as a rising economic power to reckon with China's economy is dynamic her human and natural resources are plentiful and her economic growth has been well sustained over the last 16 years In fact some have predicted that by the year 2020 China's economic output will be close to half that of the US It is undeniable that China will be an economic giant if she is not already one today In this book the author has traced China's economic development over the last 16 years The steps and characteristics of China's economic reform are detailed The prospects for China's economic growth are studied The author also attempts to analyze topical issues pertaining to China's economic relations with the US and her integration with the other Asian economies This book provides the interested reader with a bird's eye view of the Chinese economy over the last 16 years Most chapters are written for the general reader while a few are for professional economists For the questions it answers or for those that it raises this is an important book to read

### **The Making of the State Enterprise System in Modern**

**China** Morris L. Bian, 2005-04-30 The conventional argument is that China borrowed its economic system and development strategy wholesale from the U S S R in the 1950s Bian shows instead that basic state owned enterprise bureaucratic governance management and incentive mechanisms and provision of social services and welfare developed in China during the war years 1937 1945 Modern China Cary Krosinsky, 2020-05-23 Calling for more cooperation between China and the west this new book by noted author and educator Cary Krosinsky provides readers with an on the ground perspective of what s really happening in China today on the back of its recent economic rise its desire and need to solve environmental challenges and the new positive dynamic created by its need for foreign capital In doing so Krosinsky and his colleagues from the Sustainable Finance Institute and Brown University highlight how China has recaptured its role as a leader in innovation arguing that current approaches to the relationship hinder global progress on issues such as climate change inequality air pollution food integrity and water security and pushes back on confrontational approaches and attempts to clarify misperceptions about contemporary China China s recent rise includes becoming a global leader on green policy and green finance as it is increasingly leading the way towards modernization through innovation strategies focused on infrastructure education healthcare and aspects of clean energy technology leading to opportunities across private equity venture capital and green bonds This creates an exciting opportunity for positive change with environmental challenges becoming more salient to its own population adding pressure on the government to provide solutions China changes faster than any country in the world creating an opportunity for meaningful ongoing positive transitions Modern China is a call for more cooperation and makes a clear cogent case for collaboration in the face of current confrontational approaches At the same time dire environmental and social circumstances require an all hands on deck approach This book provides specific examples of what s working and what s needed to compete and thrive in this new paradigm through trusted relationships placed front and center for the future of economies and the betterment of global society **An Introduction to the Chinese Economy**
