The author expounds his own point of view on the value of human beings as the foundation of value philosophy and subsequently applies it to understanding conflicting values between China and the West, universal values, etc. In addition, he discusses the cultural value concept in China, e.g., the craze for traditional Chinese culture, value choices in socialism with Chinese characteristics, and Deng Xiaoping's great practice. Combining the fields of academic study, political affairs, cultural communication, and social life, the book offers a valuable resource for scholars, researchers, politicians, diplomats, university students, and those who want to study and understand value philosophy, Chinese value research, and Chinese culture. In addition, it seeks to realize the value of human beings in culture. Lastly, its discussions on the value concept can facilitate understanding and respect among people's all over the world. **Flying Machines:**
