Diplomacy 1450 - 1919 M.S. Anderson,2014-07-15 Though international relations and the rise and fall of European states are widely studied little is available to students and non specialists on the origins development and operation of the diplomatic system through which these relations were conducted and regulated Similarly neglected are the larger ideas and aspirations of international diplomacy that gradually emerged from its immediate functions This impressive survey written by one of our most experienced international historians and covering the 500 years in which European diplomacy was largely a world to itself triumphantly fills that gap Early Modern Diplomacy and French Festival Culture in a European Context, 1572-1615 Bram van Leuveren,2023-08-14

This book is the first to explore the rich festival culture of late sixteenth and early seventeenth century France as a tool for diplomacy Bram van Leuveren examines how the late Valois and early Bourbon rulers of the kingdom made conscious use of festivals to advance their diplomatic interests in a war torn Europe and how diplomatic stakeholders from across the continent participated in and responded to the theatrical and ceremonial events that featured at these festivals Analysing a large body of multilingual eyewitness and commemorative accounts as well as visual and material objects Van Leuveren argues that French festival culture operated as a contested site where the diplomatic concerns of stakeholders from various national religious and social backgrounds fought for recognition **Material**

Culture in Modern Diplomacy from the 15th to the 20th Century Harriet Rudolph,Gregor M. Metz,2016-12-05 The present volume aims at outlining a new field of research with regard to the history of diplomacy the material culture of diplomatic interaction in early modern and modern times The material culture of diplomacy includes all practices in foreign policy communication in which single artifacts samples of artifacts or else the whole material setting of diplomatic interaction is supposed to be constitutive for creating an intended effect in terms of diplomatic objectives The chapters of this volume focus on intercultural diplomacy in different regions of the world wherein diplomatic actors of various kinds might have been confronted by a whole universe of unfamiliar artifacts and artifact related practices Most of them concentrate on gift giving as a diplomatic practice that offers multiple insights in the complex dynamics of diplomatic relations between representatives of culturally highly diverse political entities In doing so they gainfully apply different theoretical approaches of material culture as an interdisciplinary field of study to the investigation of diplomatic cultures across the globe As a result it becomes obvious that future research into the history of diplomacy should take into account material practices much more thoroughly than has been done before The Rise of Modern Diplomacy, 1450-1919 Matthew

Smith Anderson,1993 **Early Modern European Diplomacy** Dorothee Goetze,Lena Oetzel,2023-12-31 New Diplomatic History has turned into one of the most dynamic and innovative areas of research especially with regard to early modern

history It has shown that diplomacy was not as homogenous as previously thought On the contrary it was shaped by a multitude of actors practices and places The handbook aims to characterise these different manifestations of diplomacy and to contextualise them within ongoing scientific debates It brings together scholars from different disciplines and historiographical traditions The handbook deliberately focuses on European diplomacy although non European areas are taken into account for future research in order to limit the framework and ensure precise definitions of diplomacy and its manifestations This must be the prerequisite for potential future global historical perspectives including both the non European and the European world
