On Literature J. Hillis Miller, 2003-09-02 Debates rage over what kind of literature we should read what is good and bad literature and whether in the global digital age literature even has a future But what exactly is literature Why should we read literature How do we read literature These are some of the important questions J Hillis Miller answers in this beautifully written and passionate book He begins by asking what literature is arguing that the answer lies in literature s ability to create an imaginary world simply with words On Literature also asks the crucial question of why literature has such authority over us Returning to Plato Aristotle and the Bible Miller argues we should continue to read literature because it is part of our basic human need to create imaginary worlds and to have stories Above all On Literature is a plea that we continue to read and care about literature

The Philosophy of Christopher Nolan George A. Dunn, Jason T. Eberl, 2017-06-20 As a director writer and producer Christopher Nolan has substantially impacted contemporary cinema through avant garde films such as Following and Memento and his contribution to wider pop culture

with his Dark Knight trilogy His latest film Interstellar delivered the same visual qualities and complex thought provoking plotlines his audience anticipates The Philosophy of Christopher Nolan collects sixteen essays written by professional philosophers and film theorists discussing themes such as self identity and self destruction moral choice and moral doubt the nature of truth and its value whether we can trust our perceptions of what s real the political psychology of heroes and villains and what it means to be a viewer of Nolan s films Whether his protagonists are squashing themselves like a bug struggling to create an identity and moral purpose for themselves suffering from their own duplicitous plots donning a mask that both strikes fear and reveals their true nature or having to weigh the lives of those they love against the greater good there are no simple solutions to the questions Nolan s films provoke exploring these questions yields its own reward

Uncanny Modernity Jo Collins,2008-04-01 This book explores the sense in which the uncanny may be a distinctively modern experience the way these unnerving feelings and unsettling encounters disturb the rational presumptions of the modern world view and the security of modern self identity just as the latter may themselves be implicated in the production of these experiences as uncanny Restless Secularism Matthew Mutter,2017-06-27 A scholarly and deeply sensitive study that explores how religion and secularism are tightly interwoven in the major works of modernist literature Matthew Mutter provides a broad survey of modernist literature examining key works against a background of philosophy theology intellectual and social history while tracing the relationship of modernism s secular imagination to the religious cultures that both preceded and shaped it Mutter s provocative study demonstrates how despite their explicit desire to purify secular life of its religious residues Wallace Stevens Virginia Woolf and other literary modernists consistently found themselves entangled in the religious legacies they disavowed Color in the Age of Impressionism Laura Anne Kalba,2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumi re brothers perfection of the autochrome color photography process Focusing on Impressionist art Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas Pierre Auguste Renoir and Claude Monet The proliferation of vibrant new colors in France during this time challenged popular understandings of realism abstraction and fantasy in the realms of fine art and popular culture More than simply adding a touch of spectacle to everyday life Kalba shows these bright varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color Impressionism emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification mirrored and mediated this change shaping the ways in which people made sense of both modern life and modern art Demonstrating the central importance of color history and technologies to the study of visuality Color in the Age of Impressionism adds a dynamic new layer to our understanding of visual and material culture Stranger Magic Marina Warner,2012-03-01 Our foremost theorist of myth

fairytale and folktale explores the magical realm of the imagination where carpets fly and genies grant prophetic wishes Stranger Magic examines the profound impact of the Arabian Nights on the West the progressive exoticization of magic and the growing acceptance of myth and magic in contemporary experience As If Michael Saler,2012-01-09 Many people throughout the world inhabit imaginary worlds communally and persistently parsing Harry Potter and exploring online universes These activities might seem irresponsibly escapist but history tells another story Beginning in the late nineteenth century when Sherlock Holmes became the world's first virtual reality character readers began to colonize imaginary worlds debating serious issues and viewing reality in provisional as if terms rather than through essentialist just so perspectives From Lovecraft's Cthulhu Mythos and Tolkien's Middle earth to the World of Warcraft and Second Life As If provides a cultural history that reveals how we can remain enchanted but not deluded in an age where fantasy and reality increasingly intertwine

The Fairy Way of Writing Kevin Pask,2013-10-15 A history of popular superstitions tales and magic in British literature In The Fairy Way of Writing Kevin Pask seeks to explain the origins and popularity of enchantment in Shakespeare's plays Writers John Dryden and Joseph Addison originated the phrase fairy way of writing to define the concept of an English creative imagination founded on a synthesis of high literary culture and the popular culture of tales and superstitions Beginning with Chaucer Johnson Dryden and Milton Pask argues that the fairy way of writing not only sets the stage for the fairy tale the Gothic novel and children's literature but also informs genres beyond the English canon including painting twentieth century fantasy fiction and French fairy tales In addition to English writers and visual artists such as Pope Blake and Keats who were directly engaged with Shakespearean fantasy Pask also examines fairy tales letters and paintings by the French writers Madame d'Aulnoy Charles Perrault Madame de Sevigné and the Swiss born artist Johann Heinrich Füssli Fuseli The Fairy Way of Writing alters the traditional sense of English literary history and of Shakespeare's singular place in it insisting on the importance of often overlooked literary and visual works It recovers a distinctive aspect of English literary culture from across the entire early modern era and beyond one that has been studied in the context of individual periods and writers but is only now explored in relation to the history of European nationalism and the creation of the modern literary system

Magical Realism and the History of the Emotions in Latin America Jerónimo Arellano,2015-05-21 Iconoclastic in spirit Magical Realism and the History of the Emotions in Latin America is the first study of affect and emotion in magical realist literature Against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as One Hundred Years of Solitude Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought Magical Realism and the History of the Emotions draws on affect theory the history of emotions and new materialism

Haile,2020-04-15 Outstanding Academic Title

CHOICE The Buck the Black and the Existential Hero Refiguring the Black Male Literary Canon 1850 to Present combines philosophy literary theory and jazz studies with Africana studies to develop a theory of the black male literary imagination In doing so it seeks to answer fundamental aesthetic and existential questions How does the experience of being black and male in the modern West affect the telling of a narrative the shape or structure of a novel the development of characters and plot lines and the nature of criticism itself James B Haile argues that since black male identity is largely fluid and open to interpretation reinterpretation and misinterpretation the literature of black men has developed flexibility and improvisation termed the jazz of life Our reading of this literature requires the same kind of flexibility and improvisation to understand what is being said and why as well as what is not being said and why Finally the book attempts to offer this new reading experience by placing texts by well known authors such as Frederick Douglass Ralph Ellison and Colson Whitehead in conversation with texts by those who are less well known and those who have for the most part been forgotten in particular Cecil Brown Doing so challenges the reader to visit and revisit these novels with a new perspective about the social political historical and psychic realities of black men
