Modern European History:

Modern European History Hutton Webster, 1925 **The Oxford Handbook of Early Modern European History, 1350-1750** Hamish M. Scott, 2015 This Handbook re-examines the concept of early modern history in a European and global context. The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching, research and scholarly publishing. More recently, however, the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned. The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing. It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity. Volume II is devoted to Cultures and Power, opening with chapters on philosophy, science, art and architecture, music and the Enlightenment. Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments, notably the expansion of state power. *Modern European History* Charles Downer Hazen, 1919 *A History of Modern Europe* Albert S. Lindemann, 2012-12-10 A History of Modern Europe surveys European history from the defeat of Napoleon to the twenty-first century, presenting major historical themes in an authoritative and compelling narrative. Concise, readable, single volume covering Europe from the early nineteenth century through the early twenty-first century. Vigorous interpretation of events reflects a fresh, concise perspective on European history. Clear and thought-provoking treatment of major historical themes. Lively narrative reflects complexity of modern European history but remains accessible to those unfamiliar with the field. **Early Modern Europe, 1450-1789** Merry E. Wiesner-Hanks, 2022-08-25 Thoroughly updated edition of a best-selling, acclaimed book placing early modern European history in a global and environmental context. *The Politics of Moderation in Modern European History* Ido de Haan, Matthijs Lok, 2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day. It explores the attempts to find a middle way between ideological extremes from the nineteenth century. Juste Milieu and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism. The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse. The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate. At the same time, the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view. *A Concise History of Modern Europe*

David S. Mason, 2018-06-15 Highlighting the most important events, ideas, and individuals that shaped modern Europe, this text provides a concise history of the continent from the Enlightenment to the present day, focusing on the causes and consequences of revolution, the origins and development of human rights and democracy, and issues of European identity and integration. **A History of Modern Europe** John M. Merriman, 1996. *A History of Modern Europe* John Merriman, 2009-09-29 Available in both one volume and two volume paperback editions. *A History of Modern Europe* presents a panoramic survey of modern Europe from the Renaissance to the present day. A single author lends a unified approach and consistent style throughout, with an emphasis on the connections of events and people over time. The Third Edition, like the two before it, is authoritative and up to date. New to the Third Edition is the theme of empire. From the imperial rivalries between France and Spain in the sixteenth and seventeenth centuries through the rise and fall of the Ottoman Turkish empire and on into the imperial history of the twentieth century, decolonization, the spread of the Soviet empire, and the imperial power of the United States, the theme of empire helps students find commonalities among the events of European history. **Themes in Modern European History 1780-1830** Pamela Pilbeam, 2017-06-30 *Themes in Modern European History 1780-1830* is an authoritative and lively exploration of a period dominated by events which have shaped modern Europe. In a series of articles, six leading academics present some controversial conclusions: the east-west contrast in Europe today has more to do with responses to the French Revolution of 1789 than the Russian Revolution of 1917; the conservative Europe of 1814 was the product of the Romantic imagination, not a Restoration of the old regime. Spanning political, social, economic, and demographic facets of revolutions, this is an indispensable textbook for all students of the nineteenth century and for all those interested in understanding the nature of Europe today. **Modern European Intellectual History** Dominick LaCapra, Steven L. Kaplan, 1982. **Readings in Modern European History** James Harvey Robinson, Charles Austin Beard, 2023-07-18 *Readings in Modern European History: Europe since the Congress of Vienna* is a collection of primary source documents and writings on European history from 1815 to 1923. The book was first published in 1908 and has been used as a textbook in many college history courses. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it.
