Modern French Drawings In Czechoslovakia:

Modern French Drawings in Czechoslovakia Dr. Peter Spielmann, 1970 **Modern French drawings in Czechoslovakia**, 1970 **Modern and Contemporary Czech Art** Antonín Matějček, Zdeněk Wirth, 1924 **Modernity, History, and Politics in Czech Art** Marta Filipová, 2019-07-08 This book traces the influence of the changing political environment on Czech art criticism history and theory between 1895 and 1939 looking beyond the avant garde to the peripheries of modern art The period is marked by radical political changes the formation of national and regional identities and the rise of modernism in Central Europe specifically the collapse of Austria Hungary and the creation of the new democratic state of Czechoslovakia Marta Filipov studies the way in which narratives of modern art were formed in a constant negotiation and dialogue between an effort to be international and a desire to remain authentically local **Czech Modern Painters (1888-1918)** Petr Wittlich, 2012 Dealing with not only specific artists in the context of their national identity but also with overarching themes in the rise of modernism Czech Modern Painters is an articulate and well researched overview of modern art styles from the former Czechoslovakia focusing on impressionism the Art Nouveau movement and cubism This study covers three generations of artists who changed the landscape of traditional art at the turn of the twentieth century and looks specifically at how these artists pushed the boundaries of and came into conflict with the work of their predecessors To do so Petr Wittlich has combed through each artist s work in art school galleries and new art journals while tracking each individual s own personal style The result is a beautifully illustrated book that carefully explains the aesthetic theory of each movement and provides biographical information on the leading personalities of the period and brief informative captions for each reproduction Wittlich also investigates the profound influence of capitalism and the way in which these artists departed from the prevailing aesthetic tastes of their contemporaries Czech Modern Painters has the magisterial quality of a textbook for students of modern art styles while maintaining readability making it appealing to art lovers and historians alike **East Central European Art Histories and Austria** Karolina Majewska-Güde, Monika Leisch-Kiesl, 2024-05-06 The specific role of the Austro Hungarian Empire and the later nation of Austria within the formation of regional art histories in East Central Europe has received little attention in art historical research so far Taking into account the era of the Dual Monarchy as well as the period after 1989 the contributions analyze and critically scrutinize the imperial legacies transnational transfer processes and cultural hierarchies in art historiographies artistic practices and institutional histories Consisting of 17 texts with new commissions and one reprint case studies monographic essays and interviews grouped thematically into two sections the anthology proposes a pluriversal narrative on regional cultural and political contexts **19th and 20th Century French Art** Národní galerie v Praze, Anna Janišťinová, 1995 **Czechoslovakism** Adam Hudek, Michal Kopeček, Jan Mervart, 2021-09-30 This collection systematically approaches the concept of Czechoslovakism and its historical progression covering the time span from the mid nineteenth century to

Czechoslovakia's dissolution in 1992-1993 while also providing the most recent research on the subject Czechoslovakism was a foundational concept of the interwar Czechoslovak Republic and it remained an important ideological, political, and cultural phenomenon throughout the twentieth century. As such, it is one of the most controversial terms in Czech, Slovak, and Central European history. While Czechoslovakism was perceived by some as an effort to assert Czech domination in Slovakia, for others it represented a symbol of the struggle for the Republic's survival during the interwar and Second World War periods. The authors take care to analyze Czechoslovakism's various emotional connotations; however, their primary objective is to consider Czechoslovakism as an important historical concept and follow its changes through the various cultural, political, and social contexts spanning from the mid-nineteenth century to the breakup of Czechoslovakia in 1993. Including the work of many of the most eminent Czech and Slovak historians, this volume is an insightful study for academic and postgraduate student audiences interested in the modern history of Central and Eastern Europe, nationality studies, as well as intellectual history, political science, and sociology.

Artbibliographies Modern, 1996. Abstracts of journal articles, books, essays, exhibition catalogs, dissertations, and exhibition reviews. The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century. Photography is covered from its invention in 1839 to the present. A particular emphasis is placed upon adding new and lesser-known artists and on the coverage of foreign language literature. Approximately 13,000 new entries are added each year. Published with title LOMA from 1969-1971.
