Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book s chapters e g Mora s Marx s D B Weiner s examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 Short History of Psychiatry discussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease **Bulletin of the Public Library of the City of Boston** Boston Public Library, 1910 **Modern Greek Folklore and Ancient Greek Religion** John Cuthbert Lawson, 2017-09-15
Excerpt from *Modern Greek Folklore and Ancient Greek Religion A Study in Survivals* The scheme of work originally proposed was the investigation of the customs and superstitions of modern Greece in their possible bearing upon the life and thought of ancient Greece and to the Managers of the Craven Fund at that time with whom was associated Mr R A Neil of Pembroke College to whose memory I have dedicated this book I render hearty thanks for their willingness to encourage a venture new in direction vague in scope and possibly void of result The course of research proposed was one which required as the first condition of any success considerable readiness in speaking and understanding the popular language and to the attainment of this my first few months were necessarily devoted When once the ear has become accustomed to the modern pronunciation a knowledge of ancient Greek makes for rapid progress and some three or four months spent chiefly in the cafes of small provincial towns rendered me fairly proficient in ordinary conversation Subsequent practice enabled me also to

follow conversations not intended for my ear and on more than one occasion I obtained from the talk of peasants thus overheard information which they might have been chary of imparting to a stranger About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
