## **Modern Japan's Foreign Policy:**

Modern Japan's Foreign Policy Morinosuke Kajima, 1969      *Japan's Foreign Policy* Frank Langdon, 2011-11-01 In 1960 the Japan United States security treaty was rewritten amid controversy and rancor. In the years since Japan has astonished the world with her comeback from the status of defeated nation to a major industrial nation. This book is a detailed study of Japan's foreign policy which guided the nation in its resurgence. Five years in the preparation, the book examines the three main pillars of Japanese foreign policy: national prosperity, national security, and recognition of Japan as an international power. The author's detailed knowledge of Japanese domestic politics provides the essential background for an understanding of the nation's pursuit of its foreign objectives. Most of the policy developments described occurred during the prime ministerships of Hayato Ikeda and Eisaku Sato. Included is consideration of the effect on Japan of the Nixon Doctrine through which the United States called for greater independence and self defense on the part of its allies. Modern Japanese foreign policy is also examined against the changing balance being sought by leading world powers as signified by U.S. President Richard Nixon's visits to Peking and Moscow in 1972 and more recently positive developments towards a peaceful solution to the Vietnam conflict. Special emphasis is given to Japan's external economic policies. Japan's Foreign Policy stresses the extent to which the nation's prosperity goal has been a dominant concern as successive cabinets balanced the economic benefits of the alliance with the U.S. against domestic pacifist pressure and the hostility of Japan's Communist neighbours.

The Foreign Policy of Modern Japan Robert A. Scalapino, 2022-05-13 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1977.      Japanese Foreign Policy in Asia and the Pacific A. Miyashita, Y. Sato, 2001-11-16 Japanese Foreign Policy in Asia and the Pacific aims to provide a broadened framework for examining Japan's foreign policy making by looking at conversion and diversion of interests among Japanese and American policy actors. These include governmental and non-governmental as well as domestic and transnational actors. Utilizing this theoretical framework, the contributors examine the role of U.S. pressure and its interaction with Japan's domestic and Japan-based transnational actors' interests through geographically or thematically focused case studies from Asia and the Pacific regions.      *Modern Japanese Political Thought and International Relations* Felix Rösch, Atsuko Watanabe, 2018-09-16 In an ever more globalized world, sustainable global development requires effective intercultural co-operations. This dialogue between non-western and western cultures is essential to identifying global solutions for global socio-political challenges. *Modern Japanese Political Thought and International Relations* critiques the formation of non-western International Relations by assessing Japanese political concepts to contemporary IR discourses since the Meiji Restoration to better understand knowledge exchanges in intercultural contexts. Each chapter focuses on a

particular aspect of this dialogue from international law and nationalism to concepts of peace and Daoism this collection grapples with postcolonial questions of Japan's indigenous IR theory **Japan's Foreign Aid** David Arase, 2012-10-12 Filling a gap in the existing literature this book analyzes the distinctive features of Japan's development aid especially technical co-operation in comparison with other donors aid Incorporating a wealth of research it discusses whether Japan is behind other leading donor countries in rethinking its aid policy and whether it lacks transparency sensitivity to recipient needs and a coherent and coordinated policy that targets poverty The volume assesses the nature and effectiveness of the administration of Japan's aid and explores the degree of involvement of private sector and non-governmental organizations NGOs Including contributions from experts with direct experience with Japanese ODA the book provides a wide range of recipient and donor viewpoints and presents important policy recommendations **The United Nations in Japan's**

**Foreign and Security Policymaking, 1945-1992** Liang Pan, 2020-03-17 In the mid 1950s as part of Tokyo's goal of reinstating Japan as a full member of the international community Japan sought and gained admittance to the United Nations Since then it has been a proactive member and a generous financial contributor to the organization This study focuses on postwar Japan's foreign policy making in the political and security areas the core UN missions It analyzes these two policy arenas from three perspectives international political structure domestic political organization and the psychology of policymakers The intent is to illustrate how policy goals forged by national security concerns domestic politics and psychological needs gave shape to Japan's complicated and sometimes incongruous policy toward the UN since World War II In contrast to the usual emphasis on the role of the foreign policy bureaucracy however the author argues that we must view the bureaucracy as functioning within a larger framework of party politics and interactions among government agencies political parties and other actors associated with these parties The last part of the book addresses the psychological aspect of Japan's UN policymaking in an effort to elucidate the role of national prestige in generating Japanese policy toward the UN

*Routledge Library Editions: Japan's International Relations* Various Authors, 2021-05-28 This set brings together a collection of key works about the International Relations of Japan Written by a range of international experts the titles cover the essential aspects of Japan's postwar relationship to the outside world its changing notion of its role in the international community and its relations with China and the US **Japan's Role in International Politics since World War II** Edward R. Beauchamp, 2013-04-11 The best scholarship on the development of contemporary Japan This collection presents well over 100 scholarly articles on modern Japanese society written by leading scholars in the field These selections have been drawn from the most distinguished scholarly journals as well as from journals that are less well known among specialists and the articles represent the best and most important scholarship on their particular topic An understanding of the present through the lens of the past The field of modern Japan studies has grown steadily as Westerners have recognized the importance of Japan as a leading world economic force and an emerging regional power The post 1945 economic success of the Japanese has

however been achieved in the context of that nation's history, social structure, educational enterprise and political environment. It is impossible to understand the postwar economic miracle without an appreciation of these elements. Japan's economic emergence has brought about and in some cases exacerbated already existing tensions and these tensions have in turn had a significant impact on Japanese economic life. The series is designed to give readers a basic understanding of modern Japan, its institutions and its people as we stand on the threshold of a new century often referred to as the Pacific Century.

**Japan's International Agenda** Yoichi Funabashi, 1995-07-01 What is Japan's political role in the world? Over the past decade Japan has been increasingly pressured to assume more financial and political burdens globally. Its foreign policy has thus evolved in a piecemeal manner around the question of managing foreign pressures. To date policy has been largely developed by bureaucrats who are traditionally responsible for public policy in Japan. The lack of a clear set of foreign policy objectives however has made it impossible for the bureaucracy to play its previous role as the arbiter of public interests. Today there is increased recognition that in a more pluralistic society nongovernmental public policy specialists are needed to provide a more integrated and longer term vision of foreign policy goals. This book represents the first private and non-governmental indigenous effort to stimulate public debate of Japanese foreign policy. Japan's International Agenda makes a distinctive contribution to the foreign policy debate. Its contributors are younger Japanese non-governmental foreign affairs specialists each with considerable international experience and committed to the belief that significant policy reforms are essential. As a statement of Japan's ability to contribute substantially to international policy debates on such broad questions of security and trade and development Japan's International Agenda will enable scholars and experts in North America, Europe, the Asia Pacific region and elsewhere to engage in substantive dialogue on critical public policy issues with their Japanese counterparts. This book represents the first private indigenous effort to stimulate public debate of Japanese foreign policy. Its contributors are young Japanese foreign affairs specialists each with considerable international experience and a commitment to the belief that significant policy reforms are essential.

**India and the Major Powers After Pokharan II** Baldev Raj Nayar, 2001 The Book Examines The Positions That Different Major Powers Took On India's Nuclear Tests In 1998 Both Jointly And Severally. It Discusses The Responses Not Only Of P 5 But Also Those Of Germany And Japan.

**Japan's Foreign Relations in Asia** James D.J. Brown, Jeff Kingston, 2018-01-02 Japan's Foreign Relations in Asia has been specifically designed to introduce

students to Japan's foreign relations in Asia since 1990 a period in which there have been dramatic developments in Japan including the reinterpretation of the Constitution and expanded US Japan defence cooperation The geopolitical dynamics and implications of these new developments are profound and underscore the need for a new textbook on this subject Covering not only the key regional players of China and the Koreas this textbook also encompasses chapters on Japan's relations with India Myanmar Indonesia Vietnam the Philippines and Thailand along with its multilateral engagement and initiatives Combined with transnational chapters on critical issues key themes covered by this book include An historical overview of key post war developments Japan's evolving security policy Analysis of the region's escalating maritime disputes An evaluation of Japanese soft power in Asia Written by leading experts in accessible jargon free style this new textbook will appeal to undergraduate and postgraduate students of Japanese politics international relations and foreign policy and Asian affairs in general

**The Diplomatic Ideas and Practices of Asian States**, 2021-11-22 Asia has emerged as the centre of international conflict and change in the post war era In Europe the post cold war approach is to adjust East West power relationships without disturbing the territorial status quo and to conduct foreign policy according to classical European principles of compromise and compensation Asians are newcomers in world affairs Asian diplomatic traditions differ from European ones and there are many border disputes and power rivalries The idea of Asia was created by Europeans for Europeans and it led to Western dominance of Asia From colonial subjects Asians have become important players in military economic and diplomatic affairs To understand the Asian dimension of contemporary world affairs we need to take a fresh look at Asian diplomatic ideas and practices This volume brings together recognised experts to explain the imperatives and external policies of different types of Asian states

Leaders and Leadership in Japan Ian Neary, 2014-05-01 Shows Japan's group orientated society may have had fewer so called leaders but has excelled as a society of king makers On the other hand the way leadership is expressed derives from different values and perceptions of hierarchy

*The China Problem in Postwar Japan* Robert Hoppens, 2015-01-29 The 1970s were a period of dramatic change in relations between Japan and the People's Republic of China PRC The two countries established diplomatic relations for the first time forged close economic ties and reached political agreements that still guide and constrain relations today This book delivers a history of this foundational period in Sino Japanese relations It presents an up to date diplomatic history of the relationship but also goes beyond this to argue that Japan's relations with China must be understood in the context of a larger China problem that was inseparable from a domestic contest to define Japanese national identity The China Problem in Postwar Japan challenges some common assertions or assumptions about the role of Japanese national identity in postwar Sino Japanese relations showing how the history of Japanese relations with China in the 1970s is shaped by the strength of Japanese national identity not its weakness

**Japanese Society and the Politics of the North Korean Threat** Seung Hyok Lee, 2016-02-24 In 1998 and in 2006 North Korea conducted ballistic missile tests that landed dangerously close to Japan In the first case the North Korean tests

provoked only Japanese alarm and severely constrained action In the second the tests led to unilateral economic sanctions the first time since the end of the Second World War that Japan has used coercion against a neighboring state What explains this dramatic shift in policy choice Seung Hyok Lee argues that the 2006 sanctions were not a strategic response to the missile tests but a reflection of changing public attitudes towards North Korea the result of the shocking revelation that the North Koreans had abducted at least seventeen Japanese citizens in the 1970s and 80s and secretly held them prisoner for decades Japanese Society and the Politics of the North Korean Threat is the first book on this development in English and a valuable case study of public opinion s increasing influence on Japanese security policy *Japan and the Sino-Soviet Alliance, 1950-1964* C. Braddick, 2003-12-09 Japan and the Sino Soviet Alliance 1950 1964 reveals the divisive impact of the Sino Soviet Alliance on Japanese domestic politics and foreign relations during the turbulent years between 1950 and 1964 Drawing on extensive Japanese sources and unprecedented access to previously classified government documents C W Braddick exposes the myths shrouding this formative era in Japan s postwar development **Japan and the League of Nations** Thomas W. Burkman, 2007-12-03 Japan joined the League of Nations in 1920 as a charter member and one of four permanent members of the League Council Until conflict arose between Japan and the organization over the 1931 Manchurian Incident the League was a centerpiece of Japan s policy to maintain accommodation with the Western powers The picture of Japan as a positive contributor to international comity however is not the conventional view of the country in the early and mid twentieth century Rather this period is usually depicted in Japan and abroad as a history of incremental imperialism and intensifying militarism culminating in war in China and the Pacific Even the empire s interface with the League of Nations is typically addressed only at nodes of confrontation the 1919 debates over racial equality as the Covenant was drafted and the 1931 1933 League challenge to Japan s seizure of northeast China This volume fills in the space before between and after these nodes and gives the League relationship the legitimate place it deserves in Japanese international history of the 1920s and 1930s It also argues that the Japanese cooperative international stance in the decades since the Pacific War bears noteworthy continuity with the mainstream international accommodationism of the League years Thomas Burkman sheds new light on the meaning and content of internationalism in an era typically seen as a showcase for diplomatic autonomy and isolation Well into the 1930s the vestiges of international accommodationism among diplomats and intellectuals are clearly evident The League project ushered those it affected into world citizenship and inspired them to build bridges across boundaries and cultures Burkman s cogent analysis of Japan s international role is enhanced and enlivened by his descriptions of the personalities and initiatives of Makino Nobuaki Ishii Kikujir Nitobe Inaz Matsuoka Y suke and others in their Geneva roles **Trade and Security** Charles M. Dobbs, 2010-02-19 In a strange way the United States achieved its goal for the Vietnam War but forgot why it was fighting It was not fighting to keep South Vietnam from falling to the communists it was fighting in Indochina to buy time for the other free nations of the region to develop economically and

strengthen their respective relationships with their polities In 1961 the region seemed weak economically Japan was on the eve of its great expansion that turned it into the world s second largest economy for many years South Korea and Taiwan still depended on US economic assistance and focused more on the perceived communist threat than improving the quality of life for their peoples Thailand similarly watched the civil war in Laos the Philippines needed to develop stability in government and the Malay peoples moved from Malaya to Malaysia to Malaysia and Singapore all the while warily watching events in Indonesia Trade and Security discusses how the US government sought to rally the region against the Communist threat and in part opened the American economy to exploitation by its East Asian allies and how those Allies used the Cold War and the perceived Chinese threat to gain greater access despite the consequent damage the American economy suffered While US financial officials complained about the increasing damage to the domestic economy and to the worsening balance of trade and balance of payments deficits diplomatic and military leaders remained fixated on the general superpower confrontation with the Soviet Union and the regional competition with the People s Republic of China
