Modern Korea Byong-sik Kim,1970 **Modern Korea** Pyŏng-sik Kim,1970 **North Korea and the Geopolitics of Development** Kevin Gray,Jong-Woon Lee,2021-04-15 Gray and Lee focus on three geopolitical moments that have been crucial to the shaping of the North Korean system colonialism the Cold War and the rise of China to examine how the emergence and subsequent development of the North Korean political economy was fundamentally shaped by broader processes of geopolitical contestation **Socialism in Power** Roland Boer,2023-03-01 This book examines the historical development in practice and theory of governance in socialist systems With more than a century of such development from many parts of the world including the Soviet Union China and the DPRK North Korea it is possible to gain much from careful study of their political systems But what is the nature of this socialist governance It is abundantly clear that the type of governance in socialist countries had never before been seen in human history How does this governance work What was the political theory that arose from the practice How did this type of governance develop over time and in light of specific conditions These are the questions that Socialism in Power sets out to answer It does so not by using methods developed for studying Western liberal nation states but by deploying Marxist Leninist analysis Not an abstract Marxism but concrete Marxism as it was applied and developed in light of the particular historical conditions of the countries in question The book begins with careful analysis of the works of Marx and Engels with a particular emphasis on Engels who was crucial in establishing the basic principles of socialist governance Next the book focuses on the Soviet Union which was the first country in human history to experience socialism in power The rarely studied DPRK North Korea comes next as a transition to East Asia followed by a number of chapters on China which arguably has the most developed form of socialist governance
