Astrology and Psychic Phenomena Andre Kole, Terry Holley, 2016-09-06 Astrology Tarot cards Ouija boards spiritism psychic healing palm reading and old fashioned fortune telling now called psychic consulting all these are popular in America today Psychic hotlines are heavily represented on television with testimonials to their amazing ability to give people accurate details about their past and predictions about their future Are psychics indeed gifted with supernatural powers Andre Kole and Terry Holley show convincingly how the success of these and other paranormal phenomena depends on deceit and slight of hand rather than on genuine supernatural powers This is an age when countless groups and movements new and old mark the religious landscape in our culture As a result many people are confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully the Zondervan Guide to Cults and Religious Movements series provides essential information and insights for their spiritual journeys The second wave of books in this series addresses a broad range of spiritual beliefs from non Trinitarian Christian sects to witchcraft and neo paganism to classic non Christian religions such as Buddhism and Hinduism All books but the summary volume Truth and Error contain five sections A concise introduction to the group being surveyed An overview of the group's theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between biblical Christianity and the group Truth and Error the last book in the series consists of parallel doctrinal charts compiled from all the other volumes Three distinctives make this series especially useful to readers Information is carefully distilled to bring out truly essential points rather than requiring readers to sift their way through a sea of secondary details Information is presented in a clear easy to follow outline form with menu bar running heads This format greatly assists the reader in quickly locating topics and details of interest Each book meets the needs and skill levels of both nontechnical and technical readers providing an elementary level of refutation and progressing to a more advanced level using arguments based on the biblical text The writers of these volumes are well qualified to present clear and reliable information and help readers to discern truth from falsehood

The Cambridge Companion to Miracles Graham H. Twelftree, 2011-04-14 The miracle stories of the founders and saints of the major world religions have much in common Written by international experts this Companion provides an authoritative and comparative study of miracles in not only Hinduism Islam Buddhism Christianity and Judaism but also indigenous religions The authors promote a discussion of the problems of miracles in our largely secular culture and of the value of miracles in religious belief The miracles of Jesus are also contextualized through chapters on the Hebrew Bible classical culture to the Romans Second Temple and early rabbinic

Judaism and early Christianity This book provides students with a scholarly introduction to miracles which also covers philosophical medical and historical issues **Parapsychology, Philosophy, and Spirituality** David Ray

Griffin,1997-01-09 In this book David Ray Griffin best known for his work on the problem of evil turns his attention to the even more controversial topic of parapsychology Griffin examines why scientists philosophers and theologians have held parapsychology in disdain and argues that neither a priori philosophical attacks nor wholesale rejection of the evidence can withstand scrutiny After articulating a constructive postmodern philosophy that allows the parapsychological evidence to be taken seriously Griffin examines this evidence extensively He identifies four types of repeatable phenomena that suggest the reality of extrasensory perception and psychokinesis Then on the basis of a nondualistic distinction between mind and brain which makes the idea of life after death conceivable he examines five types of evidence for the reality of life after death messages from mediums apparitions cases of the possession type cases of the reincarnation type and out of body experiences His philosophical and empirical examinations of these phenomena suggest that they provide support for a postmodern spirituality that overcomes the thinness of modern religion without returning to supernaturalism *The Skeptical Text*

Rigopoulos,2021-04-01 In this biographical study Antonio Rigopoulos explores the fundamental role of a hagiographer within a charismatic religious movement in this case the postsectarian cosmopolitan community of the Indian guru Sathya Sai Baba The guru s hagiographer Narayan Kasturi was already a distinguished litterateur by the time he first met Sathya Sai Baba in 1948 The two lived together at the guru s hermitage more or less continuously from 1954 up until Kasturi s death in 1987 Despite Kasturi s influential hagiography Sathyam Sivam Sundaram little scholarly attention has been paid to the hagiographer himself and his importance to the movement In detailing Kasturi s relationship to Sathya Sai Baba Rigopoulos emphasizes that the hagiographer s work was not subordinate to the guru s definition of himself Rather his discourses with the holy man had a reciprocal and reinforcing influence resulting in the construction of a unified canon Furthermore Kasturi s ability to perform a variety of functions as a hagiographer successfully mediated the relationship between the guru and his followers Drawing on years of research on the movement as well as interviews with Kasturi himself this book deepens our understanding of this important pan Indian figure and his charismatic religious movement **In the Presence of Sai Baba**
