Modern Nation:

Political Culture and the Making of Modern Nation-States Edward Weisband, Courtney I P Thomas, 2015-11-17 This book focuses on transformations of political culture from times past to future present It defines the meaning of political culture and explores the cultural values and institutions of kinship communities and dynastic intermediaries including chiefdoms and early states It systematically examines the rise and gradual universalization of modern sovereign nation states Contemporary debates concerning nationality nationalism citizenship and hyphenated identities are engaged The authors recount the making of political culture in the American nation state and look at the processes of internal colonialism in the American experience examining how major ethnic sectarian racial and other distinctions arose and congealed into social and cultural categories The book concludes with a study of the Holocaust genocide crimes against humanity and the political cultures of violation in post colonial Rwanda and in racialized ethno political conflicts in various parts of the world Struggles over legitimacy in nation building and state building are at the heart of this new take on the important role of political culture

The Teleology of the Modern Nation-State Joshua A. Fogel, 2017-05-15 Japan and China did not begin to emerge as unified political entities until the nineteenth century Yet scholars and politicians persistently refer to Japan and China in discussions of earlier periods as if the modern nation state had long been established in these regions Joshua Fogel here brings together essays by eight renowned East Asian scholars to demonstrate why this oversight distorts our historical analysis and understanding of both countries The nation states of Japan and China developed much later and indeed far less uniformly than usually conveyed in popular myth and political culture Moreover the false depiction of an earlier national identity not only alters the factual record it serves the contemporary engines of nationalist mythology and propaganda This interdisciplinary volume asks deceptively simple questions When did Japan and China become Japan and China When and why do inhabitants begin to define their identity and interests nationally rather than locally Identifying the role of mitigating factors from disease and travel abroad to the subtleties of political language and aesthetic sensibility the answers provided in these diverse and insightful essays are appropriately complex By setting aside Western notions of the nation state the contributors approach each region on its own terms while the thematic organization of the book provides a unique lens through which to view the challenges common to understanding both Japan and China This highly readable collection will be important to scholars both inside and beyond the field of East Asian studies

The Reconstruction of Nations Timothy Snyder, 2004-07-11 Yet he begins with the principles of toleration that prevailed in much of early modern eastern Europe and concludes with the peaceful resolution of national tensions in the region since 1989

contemporary China It tries to explore the deep code of state governance describe the characteristics of China's state and summarize the micro experience and mechanism of state construction This book tries to put forward the path of state building with compound country and holds that contemporary China is a compound country with both tradition and modernity On the one hand the state is increasingly focusing on the introduction and creation of modern governance rules on the other hand traditional rules still play an important role in national governance More importantly traditional rules and modern rules are often intertwined to jointly influence the shape of national governance which not only shapes the Chinese road of state building but also adds many uncertain factors to China's path toward a modern state The most important features and benefits of the book are 1 The field investigation of this book is in depth and the data is relatively solid and systematic The author explains the interactive relationship between the government state and farmers through rich and readable stories of farmers petitions 2 This book deeply analyzes the function mechanism of village social structure factors such as clan faction and stratum differentiation in farmers petitions While paying attention to the interaction process between the state and society it also pays attention to the function of structural variables so as to unify the structure and process 3 From the perspective of the relationship between state power and rural society this book divides China's rural areas into four types developed eastern areas clan areas family fragmentation areas and atomized areas On this basis it analyzes the regional differences of farmers petitioning behavior

McLaren, 2015 Immigration has become one of the most pressing political issues of the modern day and public opinion polls indicate that it has been of public concern for some time This book analyses the impact of immigration on perceptions of national political systems in Europe and contends that public concern about immigration is undermining trust in national political institutions and elites as well as satisfaction with the way democracy is working Immigration and Perceptions of National Political Systems in Europe contends that immigration presents more substantial challenges to some national identity constructions and that while national identity in general can help to bolster support for national political systems those who emphasize lengthy ties to the country are likely to be less positive about their national political systems particularly when these allow for relatively easy immigrant incorporation This book also includes an analysis of the impact of concern about immigration on the British political system and shows that while concern about immigration appears to have been fairly high since the 1960s it is only in since 1997 that such concern has come to translate into negative perceptions of the British political system
