Modern Papal Diplomacy and Social Teaching in World Affairs Mariano P. Barbato, Robert J. Justra, Dennis R. Hoover, 2020-06-29 This comprehensive collection offers a concise introduction to the institutional framework of the Holy See conceptualizing papal agency and positions from a range of international theory perspectives The authors international scholars from political science history and religious studies explore multiple fields of papal and Vatican influence ranging from spy networks and inter religious dialogue to social doctrine and religious freedom This book demonstrates that contrary to secularization theory the papacy is not in decline in world politics Since World War II the Holy See has played a steadily increasing role in international relations Globalization supports the role of the Catholic Church as a transnational actor not only in the advanced industrial societies of the West but also increasingly across the Global South In this volume the authors document the legacies of John Paul II and Benedict XVI as well as the current pontificate of Pope Francis from a range of contemporary perspectives This book comprises research articles and commentary essays on the papacy in world politics originally published in *The Review of Faith International Affairs*

The Modern Papacy Since 1798 Frank J. Coppa, 1998 This initial volume runs from the French Revolution to the fall of the Soviet Union It ends with the pontificate of John Paul II the first non Italian pope since 1522 Its central theme is the response of this most ancient of institutions to the multiplying challenges of the modern age The book begins with the philosophical upheaval brought about by the Enlightenment and the ensuing French and industrial revolutions The intellectual political and economic changes they inspired were to dominate the nineteenth century and continue to shadow and shape our own time They challenged not only the traditional political order but the religious establishment as well As a result the Papacy found its authority questioned and its power curtailed

Guatemala's Catholic Revolution Bonar L. Hernández Sandoval, 2018-11-30 Guatemala s Catholic Revolution is an account of the resurgence of Guatemalan Catholicism during the twentieth century By the late 1960s an increasing number of Mayan peasants had emerged as religious and social leaders in rural Guatemala They assumed central roles within the

Catholic Church teaching the catechism preaching the Gospel and promoting Church directed social projects Influenced by their daily religious and social realities the development initiatives of the Cold War and the Second Vatican Council 1962 65 they became part of Latin America s burgeoning progressive Catholic spirit Hern ndez Sandoval examines the origins of this progressive trajectory in his fascinating new book After researching previously untapped church archives in Guatemala and Vatican City as well as mission records found in the United States Hern ndez Sandoval analyzes popular visions of the Church the interaction between indigenous Mayan communities and clerics and the connection between religious and socioeconomic change Beginning in the 1920s and 1930s the Guatemalan Catholic Church began to resurface as an institutional force after being greatly diminished by the anticlerical reforms of the nineteenth century This revival fueled by papal power an increase in church sponsored lay organizations and the immigration of missionaries from the United States prompted seismic changes within the rural church by the 1950s The projects begun and developed by the missionaries with the support of Mayan parishioners originally meant to expand sacramentalism eventually became part of a national and international program of development that uplifted underdeveloped rural communities Thus by the end of the 1960s these rural Catholic communities had become part of a Catholic revolution a reformist or progressive trajectory whose proponents promoted rural development and the formation of a new generation of Mayan community leaders This book will be of special interest to scholars of transnational Catholicism popular religion and religion and society during the Cold War in Latin America

The Politics of Religion and the Rise of Social Catholicism in Peru (1884-1935) Ricardo Daniel Cubas Ramacciotti, 2017-10-23 In *The Politics of Religion and the Rise of Social Catholicism in Peru 1884 1935* Ricardo Cubas Ramacciotti provides a lucid synthesis of the Catholic Church s responses to the secularisation of the State and society whilst offering a fresh appraisal of the emergence of Social Catholicism and its contribution to social thought and development of civil society in post independence Peru Making use of diverse historical sources Cubas provides a comprehensive view of a reformist yet anti revolutionary trend within the Peruvian Church that decades before the emergence of Liberation Theology and under divergent intellectual paradigms developed an active agenda that addressed the new social problems of the country including those of urban workers and of indigenous populations
