Contemporary Psychiatry Fritz Henn, Norman Sartorius, Hanfried Helmchen, Hans Lauter, 2013-11-11 Contemporary Psychiatry is an international textbook developed on the basis of the experience with its first three German editions making it a work with long and distinguished tradition It combines the German tradition of phenomenology and diagnosis going back to Kraepelin with the Anglo American tradition and the DSM IV diagnostic system In doing so Contemporary Psychiatry becomes a unique source among psychiatric texts offering a truly international approach to state of the art knowledge and future perspectives of psychiatry The four internationally renowned editors were able to acquire the leading specialists as contributors No less than 120 authors from 10 different countries ensure an extremely high standard and guarantee the consideration of cross cultural aspects A special feature of Contemporary Psychiatry is that it includes chapters on psychiatric disorders caused by extreme circumstances such as for example migration torture rape violence and natural and man made disasters

Contemporary Perspectives on Research in Theory of Mind in Early Childhood Education Olivia Saracho, 2014-01-01 Over the last 35 years studies focusing in young children s knowledge about the mental world have developed into an important area This body of social knowledge is called theory of mind which refers to the individuals ability to interpret and anticipate the other individuals thinking feeling and behavior based on their interpretation of the

situation Many researchers and theorists believe that a representational theory of mind offers a basis for various critical facets of social cognitive performance such as teaching and learning lying and pretending making and keeping friends and social learning more generally The purpose of this volume is to share a collection of research strands on theory of mind research It describes its historical roots and suggests improved alternatives The focus of the volume is to provide a review and critical analysis of the literature on a contemporary domain of knowledge on young children s Theory of Mind For several decades scholarly research on theory of mind has been flourishing and a collection of new publication outlets have emerged such as the ones reviewed in the volume which offers a thorough critical analysis of the research in contemporary perspectives on research in theory of mind in early childhood education The researchers who conducted the critical analyses of the research focused on understanding the mind in relation to 1 young children 2 several assessment procedures 3 metacognitive and neuroscientific processes 3 emotion and educational representations 4 interaction of social and cultural elements and 5 inferences and future research directions The work of these scholars can help guide those researchers who are interested in pursuing studies in early childhood theory of mind in a specific area of study Diagnosis and Assessment in Autism Eric Schopler, Gary B. Mesibov, 2013-11-21 Division TEACCH located in the School of Medicine at the University of North Carolina at Chapel Hill was one of the first programs in the country to understand that autism was an organic rather than a biologic condition We were also one of the earliest programs to recognize the enormous variability in characteristics and behaviors of children described as autistic For these reasons the processes of diagnosis and assessment have always been important and central to our program We are therefore extremely pleased to have a volume representing the most current thinking of the field s leaders in these important areas As with the preceding books in our series Current Issues in Autism this volume is based on one of the annual TEACCH conferences held in Chapel Hill each May The books are not simply published proceedings of the conference papers however Rather conference participants are asked to develop a full chapter around their presentations Other international experts whose work is beyond the scope of the conference but related to the major theme are asked to contribute chapters as well These volumes are designed to provide the most current knowledge in research and professional practice available on the most important issues defining and clarifying autism

Contemporary Perspectives on Research on Bullying and Victimization in Early Childhood Education Olivia Saracho, 2016-09-01 While the research on bullying and peer victimization has increased considerably over the past 20 years a number of studies are emerging that document mixed results of bullying and prevention programs During the last decades several special issues devoted to research on bullying and victimization have been published in national and international scholarly journals Based on the increase of published articles on bullying and victimization in journals textbooks government reports and documents in professional organizations it is timely for a special volume on research on bullying and victimization to appear in the series on Contemporary Perspectives in Early Childhood Education The purpose of this volume

is to share a collection of research strands on bullying and victimization of young children It describes the historical roots and suggests anti bullying programs and strategies to decrease bullying and victimization The bullying and victimization volume can be a valuable tool to researchers who are conducting studies in that area It focuses on important historical and contemporary issues on bullying and victimization in early childhood education ages 0 to 8 to provide the information necessary to make judgments about these issues It also motivates and guides researchers to explore gaps on research on bullying and victimization
