Prentice-Hall Foundations of Modern Political Science Series , **Armed Organizations and Political Elites in Civil**

Wars Erwin van Veen,2024-06-03 This book analyses under what conditions and with what developmental effects armed organizations shift their coercive profile during civil wars with a focus on the recent conflicts in Syria and Iraq The work begins with an operationalisation of the term political settlement focusing on how power is organized in fragile and conflict affected countries and then uses this operationalization to analyse the political settlements of contemporary Syria and Iraq including their breakdown and transformation during recent civil wars of 2011 today in Syria and 2014 17 in Iraq It subsequently examines why and how elite factions have used armed organizations in times of conflict This approach links an understanding of the broad evolution of power relations at the national level with the specific effects of the use of armed organizations on such relations It argues for a shift from assigning fixed labels to armed organizations during civil wars to studying their coercive profile in a dynamic fashion i e how armed organizations behave in terms of their use of threats and coercive force The book introduces five profiles of coercive behaviour that demonstrate how the same organization can behave very differently at various points in time One of these the hybrid coercive profile fills a gap in the existing civil war typology of organized armed violence by opening up the possibility of elite factions deliberately combining collaborative and competitive modes of behaviour As an evidence base the book provides in depth analysis of the origins evolution and operations of four armed organizations that have acted under a hybrid coercive profile during the Syrian and Iraqi civil wars the Syrian Kurdish People s Defence Forces the Eagles of the Whirlwind of the Syrian Social Nationalist Party the Iraqi Kurdish Peshmerga and the Badr Organization By connecting the concepts of political settlement and civil war and applying them to specific armed organizations operating in Syria and Iraq the book offers new insights into this nexus This book will be of much interest to students of civil wars conflict studies Middle Eastern Studies and International Relations **Robert A. Dahl** David Baldwin,Mark Haugaard,2017-10-02 This book is devoted to the work of Robert A Dahl who passed away in 2014 Dahl was one of the most important American political scientists and normative democratic theorists of the post war era and he was also an influential teacher who mentored some of the most significant academics of the next two generations of American political science As an incredibly productive scholar he had a career that spanned more than half a century his first book was published in 1950 his last was in 2007 at the age of 92 As a political scientist he was respected even by those who were critical of his works This theoretical significance and profound influence is reflected in the collection of chapters in this volume which reads like a who s who of the contemporary US political science scene His co author Bruce Stinebrickner

documents the evolution of his and Dahl's seminal text *Modern Political Analysis* and how it became the standard introduction to American political science for nearly fifty years Katharine MacKinnon's chapter is of significance for its insights upon Dahl and also represents a succinct statement of a feminist reading and critique of contemporary political science Steven Lukes contributes a highly concise statement of the difference between one dimensional and three dimensional power This work will be a standard reference work for any researchers or those interested in the work of Robert Dahl among both established academics and students This book was originally published as a special issue of the *Journal of Political Power* **Catalog of Copyright Entries.
