Modern Art Thomas Craven,1940 **Modern Art. The Men, the Movements, the Meaning. [With Reproductions.]** Thomas Craven (Writer on Art.),1935 **Struggle Over the Modern** Dennis Raverty,2005 The most familiar strain of this debate to us today is formalism which emphasized purity in art and culminated in the writing of the influential late modern critic Clement Greenberg The other critical position he contends is not as familiar to us today partly because it was so overshadowed by formalist thought in the postwar period This position emphasized the importance of experience over formal purity and is evident in the writing of Greenberg s rival Harold Rosenberg as well as in a number of American writers and critics from the first half of the century *Struggle Over the Modern* reconstitutes this neglected yet important dimension of the avant garde debate in American art criticism decade by decade Jacket *Jewish Dimensions in Modern Visual Culture* Rose-Carol Washton Long,Matthew Baigell,Milly Heyd,2010 A fascinating look at key aspects of visual culture in modern Jewish history Modern Art on Display K. Peters** Richard H. Love, Carl William Peters, 1999 Throughout his life Peters depicted the ordinary places and people of America From Rochester to Rockport Peters made an amazingly coherent group of fascinating masterful American pictures **Grant Wood** R. Tripp Evans, 2010-10-05 He claimed to be the plainest kind of fellow you can find There isn't a single thing I've done or experienced said Grant Wood that's been even the least bit exciting Wood was one of America's most famous regionalist painters to love his work was the equivalent of loving America itself In his time he was an almost mythical figure recognized most supremely for his hard boiled farm scene American Gothic a painting that has come to reflect the essence of America's traditional values a simple decent homespun tribute to our lost agrarian age In this major new biography of America's most acclaimed and misunderstood regionalist painter Grant Wood is revealed to have been anything but plain or simple R Tripp Evans reveals the true complexity of the man and the image Wood so carefully constructed of himself Grant Wood called himself a farmer painter but farming held little interest for him He appeared to be a self taught painter with his scenes of farmlands farm workers and folklore but he was classically trained a sophisticated artist who had studied the Old Masters and Flemish art as well as impressionism He lived a bohemian life and painted in Paris and Munich in the 1920s fleeing what H L Mencken referred to as the booboisie of small town America We see Wood as an artist haunted and inspired by the images of childhood by the complex relationship with his father stern pious the manliest of men with his sister and his beloved mother Wood shared his studio and sleeping quarters with his mother until her death at seventy seven he was forty four We see Wood's homosexuality and how his studied masculinity was a ruse that shaped his work Here is Wood's life and work explored more deeply and insightfully than ever before Drawing on letters the artist's unfinished autobiography his sister's writings and many never before seen documents Evans's book is a

dimensional portrait of a deeply complicated artist who became a National Symbol. It is as well a portrait of the American art scene at a time when America's Calvinistic spirit and provincialism saw Europe as decadent and artists were divided between red-blooded patriotic men and hothouse aesthetes. Thomas Hart Benton said of Grant Wood: "When this new America looks back for landmarks to help gauge its forward footsteps it will find a monument standing up in the midst of the wreckage. This monument will be made out of Grant Wood's works."

Tales from the Easel, 2004. *Tales from the Easel* features seventy full-color reproductions that convey the expressive allusive powers of narrative painting. Though they range widely in subject and setting, all of the paintings gathered here are rendered in a representational or realistic style. Carrying moral, social, or patriotic messages, the paintings are meant to teach, enlighten, or inspire. Then again, the paintings can also tweak the very conventions that define them, with results that range from the delightfully idiosyncratic to the visionary. Thomas Hart Benton, Winslow Homer, Andrew Wyeth, and Jacob Lawrence are just some of the household names whose work appears in *Tales from the Easel*. Others like Elihu Vedder and Lilly Martin Spencer are less well-known but still vital to the development of narrative painting. While some of the artists, including George Caleb Bingham and Paul Cadmus, were classically trained, self-taught painters such as Carlos Shirey, Moon, and Thomas Waterman Wood are also represented. American rivers, cities, and battlefields are among the native surroundings shown in many of the paintings. However, artists also looked elsewhere for settings: to Europe, the Holy Land, or even some imagined realm. Charles C. Eldredge's essay discusses the rich and varied sources of American narrative painting, from literature and history to childhood and domestic life, and an essay by William Underwood Eiland provides a discussion of the southern tale-telling tradition. Artist biographies by Reed Anderson and Stephanie J. Fox appear opposite the paintings, adding further context. *Tales from the Easel*, a companion volume to the national touring exhibit of the same name, is a stunning reminder of a tradition in American painting that has endured across two centuries and numerous art movements.
