All Our Welfare Peter Beresford, 2016-01-29 The UK welfare state is under sustained ideological and political attack It has also been undermined by accusations of paternalism and past failures to engage with the very people it is intended to help This unique book is the first to critique the past present and future welfare state from a participatory perspective Peter Beresford champion of user involvement draws on pioneering theories and practice of welfare service user movements to offer a blueprint for a new participatory social policy He controversially challenges orthodox social policy and the limitations of both Fabian and Neo liberal perspectives in engaging people to improve their own welfare drawing on service users own ideas and experience including fascinating vignettes from his own family s experience to demonstrate the value of user knowledge Filling a much needed gap in the literature this accessible text will provide a great introduction for students and a road map for practitioners of an alternative vision for a future participatory and sustainable social policy It will also command much wider interest from everyone concerned with how we look after each other in future in society

The Road Not Taken Frank McLynn, 2012-07-05 Britain has not been successfully invaded since 1066 nor in nearly 1 000 years has it known a true revolution one that brings radical systemic and enduring change The contrast with Britain s European neighbours France Germany Italy Spain Greece Russia is dramatic all have been convulsed by external warfare revolution and civil war and experienced fundamental change to their ruling elites or social and economic structures Frank McLynn takes seven occasions when Britain came closest to revolution the Peasants

Revolt of 1381 the Jack Cade rebellion of 1450 the Pilgrimage of Grace in 1536 the English Civil Wars of the 1640s the Jacobite Rising of 1745 6 the Chartist Movement of 1838 48 and the General Strike of 1926 Why at these dramatic turning points did history finally fail to turn McLynn examines Britain's history and themes of social religious and political change to explain why social turbulence stopped short of revolution on so many occasions **Britain, 1890-1939** Rosemary Rees, 2003 Heinemann Advanced History offers a differentiation strategy with books covering AS and A2 Exam preparation includes practice questions advice on what makes a good answer and help for students on interpreting questions and planning essays **Domesticating the Airwaves** Maggie Andrews, 2012-01-26 Using case studies and analytical overviews this book explores the relationship between broadcasting and the intimate domestic sphere into which it is broadcast It focuses on the period from the 1920s when broadcasting was established in the UK to the present day when both domesticity and broadcasting have become areas of anxiety and contestation The entry of the wireless and later television into the home changed men and women's experience of domesticity offering education and reducing isolation But broadcasting did not merely change domestic leisure patterns it actively intervened in constructing domesticity The supposedly natural relationship between femininity and domesticity has structured the nature of broadcasting and also the discourses which have emerged concerning the consumption of broadcast media Contemporary broadcasting continues to be obsessed by domesticity both in an idealised sense as well as portraying the domestic world as one of turmoil and crisis This volume demonstrates that the relationship between broadcasting and domesticity is a key and often neglected feature of the cultural history of Britain in the last 100 years **Metropolitan Identities and Twentieth-Century Decolonization** Lena Tan, 2015-10-14 This book focuses on the role of the processes and mechanisms involved in metropolitan identity construction maintenance and change in twentieth century decolonization an event integral to world politics but little studied in International Relations Red Ellen Laura Beers, 2016-10-10 In 1908 Ellen Wilkinson a fiery adolescent from a working class family in Manchester was the only girl who talks in school debates By midcentury Wilkinson had helped found Britain's Communist Party earned a seat in Parliament and become a renowned advocate for the poor and dispossessed at home and abroad She was one of the first female delegates to the United Nations and she played a central role in Britain's postwar Labour government In Laura Beers's account of Wilkinson's remarkable life we have a richly detailed portrait of a time when Left leaning British men and women from a range of backgrounds sought to reshape domestic imperial and international affairs Wilkinson is best remembered as the leader of the Jarrow Crusade the 300 mile march of two hundred unemployed shipwrights and steelworkers to petition the British government for assistance But this was just one small part of Red Ellen's larger transnational fight for social justice She was involved in a range of campaigns from the quest for official recognition of the Spanish Republican government to the fight for Indian independence to the effort to smuggle Jewish refugees out of Germany During Wilkinson's lifetime many British radicals viewed themselves as members of an international socialist

community and some like her became involved in socialist feminist and pacifist movements that spanned the globe By focusing on the extent to which Wilkinson s activism transcended Britain s borders Red Ellen adjusts our perception of the British Left in the early twentieth century A lark for the sake of their country Rachelle Saltzman,2018-02-28 A lark for the sake of their country tells the tale of the upper and middle class volunteers in the 1926 General Strike in Great Britain With behaviour derived from their play traditions the larks rags fancy dress parties and treasure hunts that prevailed at universities and country houses the volunteers transformed a potential workers revolution into festive public display of Englishness Decades later collective folk memories about this event continue to define national identity Based on correspondence and interviews with volunteers and strikers as well as contemporary newspapers and magazines novels diaries plays and memoirs this book recreates the context for the volunteers actions It explores how the upper classes used the strike to assert their ideological right to define Britishness as well as how scholars novelists playwrights diarists museum curators local historians and even a theme restaurant have continued to recycle the strike to define British identity

Women in Agriculture Linda M. Ambrose,Joan M. Jensen,2017-03 Taking readers into the rural hinterlands of the rapidly urbanizing societies of the United States Canada Great Britain and the Netherlands the essays in Women in Agriculture tell the stories of a cadre of professional women who worked as agricultural researchers producers marketers educators and community organizers and acted to bridge the growing rift between those who grew food and those who only consumed it
