Modern British Art Danny Pearson,2014-02-01 WOW Facts are specifically written for struggling readers Art can be a painting a drawing a sculpture almost anything It can hang on a wall in a gallery or it can stand on top of a hill Find out about some of Britain s best known modern artists and be inspired by some of their amazing artworks      **Aspects of Modern British Art V.** Austin/Desmond Fine Art (Sunninghill, Berks.),1987      Contemporary British Art Grant Pooke,2011

The last few decades have been among the most dynamic within recent British cultural history Artists across all genres and media have developed and re fashioned their practice against a radically changing social and cultural landscape both national and global This book takes a fresh look at some of the themes ideas and directions which have informed British art since the later 1980s through to the first decade of the new millennium In addition to discussing some iconic images and examples it also looks more broadly at the contexts in which a new post conceptual generation of artists those typically born since the late 1950s and 1960s have approached and developed aspects of their professional practice Contemporary British Art is an ideal introduction to the field To guide the reader the book is organised around genres or related practices painting sculpture and installation and film video and performance The first chapter explores aspects of the contemporary art market and some of the contexts within which art is made supported and exhibited The chapters that discuss various genres of art practice also mention books that may be useful to support further reading Extensively illustrated with a wide range of work both known and less well known from artists such as Chris Ofili Rachel Whiteread Damien Hirst Banksy Anthony Gormley Jack Vettriano Sam Taylor Wood Steve McQueen and Tracey Emin and many more      **Modern British Posters** Paul Rennie,2010 Modern British Posters explores the interaction between modern art and graphic design in Britain throughout the twentieth century A distinctive characteristic of modern society is the progressively more complete integration of art design and architecture The poster has been an integral expression of this phenomenon since its invention in modern form during the 1860s The poster was made possible by the development of industrial colour lithography and by the appearance of large hoardings as a consequence of metropolitan redevelopment Furthermore this co incidence developed at precisely the same time as the birth of the cultural avant garde Following the First World War during a period of social and political realignment major artists embraced the developing technologies of graphic reproduction to make commercial poster images and reach out to an audience beyond the complacent limits of the gallery This required artists to embrace the possibilities of new technologies in print media and was thus instrumental in transforming commercial art into graphic design From this point forward the poster and the artistic avant garde have been inextricably linked The poster reached a level of maturity in design just as the cultural reform of the 1920s was beginning This synchronicity has established the poster as a particularly

significant cultural object Every great artist in Britain contributed to this effort and Modern British Posters features the work of artists such as John Minton Paul Nash Hubert Williams Edward McKnight Kauffer Leonard Cusden Edward Wadsworth and Tom Eckersley amongst many others These images speak broadly of people landscape technology and identity and cover themes such as transport architecture the seaside accident prevention and popular culture In Britain the graphic archive is dispersed amongst various institutions This fragmentation means that for practical purposes the general story of British poster design remains to be told As such Modern British Posters provides an important addition to the history of visual culture in Britain during the twentieth century
