Modern China And A New World:

Modern China and the New World Randall Doyle, Zhang Boshu, 2011-12-16 Modern China and the New World focuses upon a few of the main topics associated with China's recent rise to global prominence. Dr. Randall Doyle discusses the impact that China will have on the geopolitical balance throughout the Asia Pacific region as well as the effect of China's new power on U.S.-China relations in the 21st century. Dr. Zhang Boshu addresses China's continuing struggles with Tibet and the Dalai Lama. He also discusses the existing political system within China today and the future possibility of democratic reforms occurring and transforming Chinese society itself. Modern China and the New World presents these important topics by incorporating not just traditional reading and research but also integrating the personal experiences of the authors.

Women in Chinese Buddhism Jessica Huset Tilton, 2025-10-30 Tilton examines how cultural, political, and economic forces exert pressures on the levels of freedom and equality for female Buddhists within the Buddhist community as well as women's rights within society. The book charts women's spiritual paths over four periods, beginning with the Buddha and his revolutionary stance on women, to the creation of a fully ordained female Saṅgha in China, which peaked during the Tang dynasty and finally to its resurgence in the late Qing and early Republic period, ending with a sharp decline to near extinction during the Mao Zedong years (1949-1976). As the nun and lay communities arise directly from the broader female community, Tilton argues that there is a direct correlation between women's rights issues and those of liberties for Buddhist women within the Saṅgha. Specifically, women's equality within this world as well as their right to achieve liberation from this world or samsara. Charting the evolution of Buddhist women in China across multiple centuries, this book is a valuable resource for academics, researchers, and students of Asian Studies, Buddhist Studies, as well as those interested in the intersection of gender and religion.

Perspectives on Modern China Kenneth Lieberthal, Joyce Kallgren, Roderick MacFarquhar, Frederic Wakeman, 2016-09-16 The conveners of this book of the September 1989 Four Anniversaries China Conference in Annapolis asked the contributors to look back from that point in time to consider four major events in modern Chinese history in the perspective of the rapid changes that were shaping the Chinese society, economy, polity, and sense of place in the world in the 1980s, a time when China was making rapid strides toward becoming more integrated with the outside world. With contributions by distinguished scholars in the field, the four anniversaries considered are the High Qing, the May Fourth Movement, forty years of communism in China, and ten years of the Deng era.

Shen, 2007-11-13 Why do the Chinese sometimes speak out against U.S. and yet at other times remain silent? This book uses a variety of previously untapped sources including a range of news sources within China itself, weblogs and interviews with prominent figures to make a powerful new argument about the causes and consequences of the new Chinese nationalism. **Modern China** Geeta Kochhar, 2019-02-12 This book looks at the transition of modern Chinese society in terms of its culture and literature. Since the economic reforms and open door policy in 1978, the Chinese society has undergone a drastic transformation. It is headed towards becoming an ultra-modern, advanced society and a world superpower. Among the pillars of great change are the advances in technology and communication that have reshaped Chinese society. This volume explores China's march towards modernity in the 21st century as defined by its own terms. It discusses China's social structure, ageing population, gender stratification, marriages, cultural identity, cosmopolitanism, its history of communism, law, economic reforms, financial institutions and challenges of the global markets. The book sheds light on Chinese literature and media and brings out various facets of social changes across time. With its topical debates and issues, this volume will be useful to scholars and researchers of Chinese studies, East Asian studies, geopolitics, area studies, international relations, politics and foreign policy, along with think tanks and those in media and journalism. Quest for Status Deborah Welch Larson, Alexei Shevchenko, 2019-02-26 A look at how the desire to improve international status affects Russia's and China's foreign policies. Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia. Applying social identity theory, the idea that individuals derive part of their identity from larger communities to nations, they contend that China and Russia have used various modes of emulation, competition and creativity to gain recognition from other countries and thus validate their respective identities. To make this argument, they analyze numerous cases including Catherine the Great's attempts to westernize Russia, China's identity crises in the nineteenth century and both countries' responses to the end of the Cold War. The authors employ a multifaceted method of measuring status, factoring in influence and inclusion in multinational organizations, military clout and cultural sway among other considerations. Combined with historical precedent, this socio-psychological approach helps explain current trends in Russian and Chinese foreign policy. *Chinese America: History and Perspectives 1993*, *The SAGE Handbook of Contemporary China* Weiping Wu, Mark Frazier, 2018-07-09 The study of contemporary China constitutes a fascinating yet challenging area of scholarly inquiry. The Geography of Contemporary China Jing'ai Wang, Shunlin Liang, Peijun Shi, 2022-06-28 This textbook provides a comprehensive and very detailed insight into Chinese Contemporary Geography in English. It documents the geographical issues associated with China's rapid growth. Since initiating the reforms and open policy, China has achieved tremendous success. China's rapid growth is now a driving force in the global economy and is achieving unprecedented rates of poverty reduction. However, China also faces a number of sustainability and emerging challenges associated with rapid growth, such as growing regional disparities in terms of per capita income and social economic development, sustainable resource development, and issues related to regional and global economic integration. In addition, rapid economic growth has also brought about major challenges such as resource shortages, ecological and environmental destruction, land degradation, and frequent disasters. This book presents the authors' reflections. This lavishly illustrated book covers physical geography, history, and economic and political systems of the world's most populous country. The major focus is on geographical issues in China's contemporary development, agriculture, population, urbanization, resource and energy, and environment. The lead author of the book has taught relevant courses in China for three decades and authored and edited multiple textbooks for Chinese students. This book will appeal to undergraduate students of geography and related disciplines with a regional focus on China and to the general reader who wants to learn different geographical aspects of modern China with little academic background in geography.

China's Intelligentsia in the Late 19th to Early 20th Centuries Qing Zhang, 2023-09-18 Intelligentsia has been a widely used term in the studies of history and society to describe intellectual, academic, educational, and publishing circles. Zhang Qing analyses the formation of Chinese intelligentsia in the context of modern China, more specifically the late Qing dynasty and Republic of China, and addresses topics such as the expansion of newspaper distributions, the relationship between newspapers and academia, the impact of newspapers on society, the change of readers' expressions, and scholars' social mobility. The emergence of the intelligentsia and other circles in the early twentieth century is an epitome of the drastic changes in Chinese society at the time, indicative both of a new state-society relation and of Chinese scholars' efforts to find new roles and identities for themselves after bidding farewell to imperial examinations. The author shows how both the emergence of new type publications and new roles in academia had a profound influence on modern China. The formation of the intelligentsia at the turn of the twentieth century was not only a key to grasping modern Chinese history but also a mirror for examining the future society.
