Modern Chinese Warfare:

Modern Chinese Warfare, 1795-1989 Bruce A. Elleman, 2001 A survey of Chinese warfare both internal and international from the opium wars of the 1840s through to the end of Vietnam **Modern Chinese Warfare, 1795-1989** Bruce A. Elleman, 2005-07-28 Why did the Chinese empire collapse and why did it take so long for a new government to reunite China Modern Chinese Warfare 1795 1989 seeks to answer these questions by exploring the most important domestic and international conflicts over the past two hundred years from the last half of the Qing empire through to modern day China It reveals how most of China's wars during this period were fought to preserve unity in China and examines their distinctly cyclical pattern of imperial decline domestic chaos and finally the creation of a new unifying dynasty By 1989 this cycle appeared complete but the author asks how long this government will be able to hold power Exposing China as an imperialist country and one which has often manipulated western powers in its favour Bruce Elleman seeks to redress the views of China as a victimised nation *Operational Art in Modern Chinese Warfare* Peter R. Ofstedal, 1996 Operational Art in Modern Chinese Warfare Peter R. Ofstedal, Naval War College (U.S.). Joint Military Operations Department, 1996

Medieval Chinese Warfare 300-900 David Graff, 2003-09-02 Shortly after 300 AD barbarian invaders from Inner Asia toppled China's Western Jin dynasty leaving the country divided and at war for several centuries Despite this the empire gradually formed a unified imperial order Medieval Chinese Warfare 300 900 explores the military strategies institutions and wars that reconstructed the Chinese empire that has survived into modern times Drawing on classical Chinese sources and the best modern scholarship from China and Japan David A Graff connects military affairs with political and social developments to show how China's history was shaped by war **A History of the Modern Chinese Army** Xiaobing Li, 2007-06-01 Since the establishment of the Red Army in 1927 China's military has responded to profound changes in Chinese society particularly its domestic politics shifting economy and evolving threat perceptions Recently tensions between China and Taiwan and other east Asian nations have aroused great interest in the extraordinary transformation and new capabilities of the Chinese army In A History of the Modern Chinese Army Xiaobing Li a former member of the People's Liberation Army PLA provides a comprehensive examination of the PLA from the Cold War to the beginning of the twenty first century that highlights the military's central function in modern Chinese society In the 1940s the Chinese army was in its infancy and many soldiers were rural conscripts and volunteers who had received little formal schooling The Chinese military rapidly increased its mobility and weapon strength and the Korean War and Cold War offered intense combat experience that not only allowed soldiers to hone their fighting techniques but also helped China to develop military tactics tailored to the surrounding countries whose armies posed the most immediate threats Yet even in the 1970s the completion of a middle school education nine years was considered above average and only 4 percent of the 224 top Chinese generals had any college credit hours However in 1995 the high command began to institute massive reforms to transform the PLA

from a labor intensive force into a technology intensive army Continually seeking more urban conscripts and emphasizing higher education the PLA Reserve Officer Training and Selection program recruited students from across the nation These reservists would become commissioned officers upon graduation and they majored in atomic physics computer science and electrical engineering Grounding the text in previously unreleased official Chinese government and military records as well as the personal testimonies of more than two hundred PLA soldiers Li charts the development of China's armed forces against the backdrop of Chinese society cultural traditions political history and recent technological advancements *A History of the Modern Chinese Army* links China's military modernization to the country's growing international and economic power and provides a unique perspective on China's establishment and maintenance of one of the world's most advanced military forces

A History of the Modern Chinese Army Xiaobing Li, 2007-06-01 Since the establishment of the Red Army in 1927 China's military has responded to profound changes in Chinese society particularly its domestic politics shifting economy and evolving threat perceptions Recently tensions between China and Taiwan and other east Asian nations have aroused great interest in the extraordinary transformation and new capabilities of the Chinese army In *A History of the Modern Chinese Army* Xiaobing Li a former member of the People's Liberation Army PLA provides a comprehensive examination of the PLA from the Cold War to the beginning of the twenty first century that highlights the military's central function in modern Chinese society In the 1940s the Chinese army was in its infancy and many soldiers were rural conscripts and volunteers who had received little formal schooling The Chinese military rapidly increased its mobility and weapon strength and the Korean War and Cold War offered intense combat experience that not only allowed soldiers to hone their fighting techniques but also helped China to develop military tactics tailored to the surrounding countries whose armies posed the most immediate threats Yet even in the 1970s the completion of a middle school education nine years was considered above average and only 4 percent of the 224 top Chinese generals had any college credit hours However in 1995 the high command began to institute massive reforms to transform the PLA from a labor intensive force into a technology intensive army Continually seeking more urban conscripts and emphasizing higher education the PLA Reserve Officer Training and Selection program recruited students from across the nation These reservists would become commissioned officers upon graduation and they majored in atomic physics computer science and electrical engineering Grounding the text in previously unreleased official Chinese government and military records as well as the personal testimonies of more than two hundred PLA soldiers Li charts the development of China's armed forces against the backdrop of Chinese society cultural traditions political history and recent technological advancements *A History of the Modern Chinese Army* links China's military modernization to the country's growing international and economic power and provides a unique perspective on China's establishment and maintenance of one of the world's most advanced military forces

Dictionary of Contemporary Chinese Military History Larry M. Wortzel, 1999-09-30 Tracking the evolution of the Red Army through the war against Japan and the Chinese civil war

Wortzel's book provides a comprehensive basic reference focusing on the major events people and issues that have produced the historical legacy of the People's Liberation Army Placing contemporary Chinese military history in the context of China's 19th century clashes with the West and Japan Wortzel illustrates how the imposition of unequal treaties by foreign powers conditioned China's 20th century defense forces and actions and explains how the Communist military forces developed It also shows how fractionalization in the Communist military leadership led to the Cultural Revolution and Mao Zedong's purges Drawing on a substantial number of sources available only in Chinese as well as on English language secondary sources the book provides a basic reference aimed at orienting the nonspecialist to the significant events and people in China's recent military history The book will also provide a quick reference for the specialist in Chinese history

Chinese Military Strategy in the Third Indochina War Edward C. O'Dowd, 2007-04-16 This well researched volume examines the Sino Vietnamese hostilities of the late 1970s and 1980s attempting to understand them as strategic operational and tactical events The Sino Vietnamese War was the third Indochina war and contemporary Southeast Asia cannot be properly understood unless we acknowledge that the Vietnamese fought three not two wars to establish their current role in the region The war was not about the Sino Vietnamese border as frequently claimed but about China's support for its Cambodian ally the Khmer Rouge and the book addresses US and ASEAN involvement in the effort to support the regime Although the Chinese completed their troop withdrawal in March 1979 they retained their strategic goal of driving Vietnam out of Cambodia at least until 1988 but it was evident by 1984-85 that the PLA held back by the drag of its Maoist organization doctrine equipment and personnel was not an effective instrument of coercion Chinese Military Strategy in the Third Indochina War will be of great interest to all students of the Third Indochina War Asian political history Chinese security and strategic studies in general

A Military History of Modern China Peter Worthing, 2007-09-30 Traces the history of Imperial China Republican China and the People's Republic of China revealing how the war and the military have influenced the course of Chinese history

Modern Chinese Defence Strategy Rosita Dellios, 1989-06-18 The author argues that the Chinese believe in the strategy of people's war under modern conditions and are confident that middle range technology and unconventional warfare and the combination of the human and weapon factors represent a successful application of the strategy

From Red Cliffs to Chosin: the Chinese Way Of War Major James G. Pangelinan, 2015-11-06 This monograph examines Chinese warfare and suggests that three and a half millennia of Chinese military history have produced a distinctive and enduring Chinese Way Of War While the art and science of war in China have evolved considerably throughout its history the characteristics and philosophies of its style of warfare contain some propensities that endure from antiquity to the present They are The Chinese military orientation focuses more on the strategic and operational levels of war than the tactical The Chinese prefer strategic maneuver warfare to attritional or other

forms of warfare Chinese warfare emphasizes the importance of shaping operations the arrangement of the conditions of the war campaign or battlefield in one's favor before initiating combat Finally deception and unorthodox warfare play a leading role in Chinese martial philosophy and conduct of war These four propensities of the Chinese way of war are general trends that emerge when the entire span of Chinese warfare is broadly considered Rooted in the philosophy and theories of the great military classics of ancient China these propensities provide continuities in the war fighting styles traditions and preferences of Chinese armies throughout history While none of the four propensities of Chinese warfare are practiced by China alone when aggregated they form a broad approach to war fighting that is unlike that of any other country in the world The distinctiveness of the Chinese way of war is a product of China's unique cultural traditions religious and social philosophies and historical evolution

21st Century Chinese Cyberwarfare William Hagestad II, 2012-03-05 21st Century Chinese Cyberwarfare draws from a combination of business cultural historical and linguistic sources as well as the author's personal experience to attempt to explain China to the uninitiated The objective of the book is to present the salient information regarding the use of cyber warfare doctrine by the People's Republic of China to promote its own interests and enforce its political military and economic will on other nation states The threat of Chinese Cyberwarfare can no longer be ignored It is a clear and present danger to the experienced and innocent alike and will be economically societally and culturally changing and damaging for the nations that are targeted

China's Use of Military Force in Foreign Affairs Markus B. Liegl, 2017-03-16 This book explains why China has resorted to the use of large scale military force in foreign affairs How will China use its growing military might in coming crisis and existing conflicts This book contributes to the current debate on the future of the Asia Pacific region by examining why China has resorted to using military force in the past Utilizing fresh theoretical insights on the causes of interstate war and employing a sophisticated methodological framework the book provides detailed analyses of China's intervention in the Korean War the Sino Indian War China's border clashes with the Soviet Union and the Sino Vietnamese War It argues that China did not employ military force in these wars for the sake of national security or because of material issues under contestation as frequently claimed Rather the book's findings strongly suggest that considerations about China's international status and relative standing are the principal reasons for China's decision to engage in military force in these instances When reflecting the study's central insight back onto China's contemporary territorial conflicts and problematic bilateral relationships it is argued that the People's Republic is still a status seeking and thus highly status sensitive actor As a result China's status ambitions should be very carefully observed and well taken into account when interacting with the PRC This book will be of much interest to students of Chinese foreign policy Asian politics military and strategic studies and IR in general
