peace and the place of the church in the midst of revolution In a manner that betrays his confidence in the eventual triumph of faithfulness Yoder concludes that the peace witnessing free church is by definition always the community that is the soul and conscience of our revolutionary age

**A Kingdom Not of this World** Garrett Green, 1964

**Revolutionary Churches in Revolutionary Seasons:** Dagmawi M. Wube, 2018-01-20 Since the downfall of the Derge

and the establishment of the decree for religious freedom there have been types of problems related to the size and type of groups that have greatly affected the Ethiopian evangelical church. The first category of problem is due to the attraction that many contemporary church leaders have for reaching multitudes and building mega church ministries at the expense of small group ministries. Because of the priority on the large group environment, small group ministries have been neglected, resulting in a whole generation of students and people who have never experienced the vibrant spiritual benefits of a small group. As a result, believers are inclined to attend only Sunday Worship Services and the rest of the week live disconnected from vital relational community and involvement. Too many churches in Ethiopia today have chosen to focus on the quantity of the people rather than the quality of the disciple, resulting in the spiritual diseases of nominalism and carnality. Discipleship and biblical Koinonia are being ignored; therefore, many people are not experiencing the richness of biblical Christianity in many practical ways. This has resulted in the loss of Ethiopian Evangelicals' identity as well as an influence on all aspects of Ethiopian culture, including her institutions and government.

**The Philosophy of Religion in Post-Revolutionary Iran** Heydar Shadi, 2018-11-16. This book explores the intellectual discourse in post-revolutionary Iran. It focuses on Abdolkarim Soroush, a leading Muslim liberal thinker whose theory of religion is regarded as highly relevant to the current theological and intellectual dynamics in the Islamic world. *The Philosophy of Religion in Post-Revolutionary Iran* discusses why and how Soroush's thought has developed from an Islamic apologetic modernist theology in the 1970s to a liberal theory about religion in post-revolutionary Iran. Through a close and detailed analysis of Soroush's main theories, the book argues that Soroush's thought evolved through reception of post-positivist epistemology and interaction with Islamism in practice into a historicist and pluralist theory of religion, a theory that regards religion, including Islam, as being a contextual and historical dialogue between man and the Absolute. The book also highlights some shortcomings of Soroush's reform project. Specifically, it notes that Soroush consciously or unconsciously has not yet admitted many extensive consequences of his theories, such as those relating to historicity of religious rituals (ibadat) or recognition of the post-Mohammadan revelations and religions. In addition, some other features and implications of Soroush's thought, such as a historical-critical approach to the Koran, post-secular and post-Islamist theologies, and his dialogical approach that goes beyond the Orientalism-Occidentalism dichotomy, are discussed. Providing a detailed overview on this leading Muslim thinker, this book will appeal to students and scholars of Islamic Philosophy, Middle East Studies, and Philosophy of Religion.

**The Living Church**, 1947      **Fire in the Minds of Men** James Billington, 2017-10-24. This book traces the origins of a faith, perhaps the faith of the century. Modern revolutionaries are believers no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in

revolutionaries the innovative creators of a new tradition His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century The theater was Europe of the industrial era the main stage was the journalistic offices within great cities such as Paris Berlin London and St Petersburg Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto romanticism of Germany as the critical rationalism of the French Enlightenment The conversion of social theory to political practice was essentially the work of three Russian revolutions in 1905 March 1917 and November 1917 Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power Despite his hard realism about the adverse practical consequences of revolutionary dogma Billington appreciates the identity of its best sponsors people who preached social justice transcending traditional national ethnic and gender boundaries When this book originally appeared The New Republic hailed it as remarkable learned and lively while The New Yorker noted that Billington pays great attention to the lives and emotions of individuals and this makes his book absorbing It is an invaluable work of history and contribution to our understanding of political life
