The Science of Criminal Justice James R. Davis, 1986 Encyclopedia of Community Corrections Shannon M. Barton-Bellessa, 2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Encyclopedia of Community Corrections explores all aspects of community corrections from its philosophical foundation to its current inception Features a thematic reader's guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance a chronology in the back matter helps students put individual events into broader historical context a glossary provides students with concise definitions to key terms in the field a resource guide to classic books journals and web sites along with the further readings accompanying each entry guides students to further resources in their research journeys and

appendix offers statistics from the Bureau of Justice **The Annals of the American Academy of Political and Social Science**, 1975 *Criminal Violence*, 1982 **Understanding Offending Populations and the Power of Correctional Psychotherapy** Karla Sapp, 2023-10-16 This book investigates the general correctional offender population and the psychotherapy services they receive. The offender population has long been considered the most difficult to engage in psychotherapy, often described as resistant, non-compliant, unworkable, and without feeling. This unique and culturally diverse population tends to find themselves as a result of going through a cycle of arrest, conviction, incarceration, and release. Although other offender populations such as female offenders, severely mentally ill, and sex offenders have received considerable attention in scholarship, there has been little research focused on the treatment of the general offender population and how to reduce recidivism through the appropriate delivery of effective assessment and treatment services. This book will bridge that gap in literature addressing who the offender population is, social and systematic factors they face, psychological understandings of criminal behavior, rehabilitation and psychotherapy theories and approaches to treatment, as well as best practices. Future efforts in justice initiatives, advocacy, and public policy. This book is best suited for upper-level undergraduates, graduate students, and researchers and practitioners in criminal justice fields and mental health professions working with offender populations.
