Religion and Modern Society Bryan S. Turner, 2011-03-31 Religion is now high on the public agenda with recent events focusing the world's attention on Islam in particular. This book provides a unique historical and comparative analysis of the place of religion in the emergence of modern secular society. Bryan S. Turner considers the problems of multicultural, multi-faith societies and legal pluralism in terms of citizenship and the state with special emphasis on the problems of defining religion and the sacred in the secularisation debate. He explores a range of issues central to current debates: the secularisation thesis itself, the communications revolution, the rise of youth spirituality, feminism, piety, and religious revival. Religion and Modern Society contributes to political and ethical controversies through discussions of cosmopolitanism, religion, and globalisation. It concludes with a pessimistic analysis of the erosion of the social in modern society and the inability of new religions to provide social repair.
