Contemporary Perspectives on Social Learning in Early Childhood Education Olivia Saracho, Bernard Spodek, 2007-06-01

Social epistemology is a broad set of approaches to the study of knowledge and to gain information about the social dimensions. This intellectual movement of wide cross disciplinary sources reconstructs the problems of epistemology when knowledge is considered to be intrinsically social. In the first chapter Social Epistemology and Social Learning Olivia Saracho and Bernard Spodek discuss the social and historical contexts in which different forms of knowledge are formulated based on the perspective of social epistemology. They also discuss the emergence of social epistemology which guides researchers to investigate social phenomena in laboratory and field settings. Social factors external to the appropriate business of science have a major impact in the social studies researchers historical case studies. Thus social studies researchers may be considered social epistemologists because a they focus on knowledge of social influences and b they infer epistemologically significant conclusions from their sociological or anthropological research. In addition analyses indicate that studies of scientific paradigms are basically a struggle for political power rather than reflecting reliable epistemic merit. Social studies researchers focus on knowledge of social influences on knowledge which is analogous to the knowledge of the social epistemologists. They also use their sociological or anthropological research to infer epistemologically significant conclusions.

Contemporary Perspectives on Play in Early Childhood Education Olivia Saracho, Bernard Spodek, 2003-02-01

The SAGE Encyclopedia of Contemporary Early Childhood Education Donna Couchenour, J. Kent Chrisman, 2016-03-15

The general public often views early childhood education as either simply babysitting or as preparation for later learning. Of course both viewpoints are simplistic. Deep understanding of child development best educational practices based on development emergent curriculum cultural competence and applications of family systems are necessary for high quality early education. Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age. The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research accurate practical applications of research historical foundations and key facts from the field of contemporary early childhood education. Through approximately 425 entries this work includes all areas of child development physical cognitive language social emotional aesthetic as well as comprehensive review of best educational practices with young children effective preparation for early childhood professionals and policy making practices and addresses such questions as How is the field of early childhood education defined? What are the roots of this field of study? How is the history of early childhood education similar to yet different from the study of public education? What are the major influences on understandings of best practices in early childhood education?

Contemporary Issues in Early Childhood Education in Germany Wilfried Smidt, 2018-07-26. The importance of early childhood education has been emphasized by a large body of research that has demonstrated that children's cognitive and

socio emotional development is significantly influenced by the quality of the education and care received from their families and in preschool Consequently it is important to investigate factors that pertain to the provision of a high quality education and high quality care for young children This book addresses several important issues that are currently under discussion with respect to this topic In particular the book focuses on three topics presently under debate the professionalization of pedagogues working in the field of early childhood education the quality of education and care provided by families and preschools and the promotion of children from socio economically disadvantaged families Providing an excellent overview of current research in Germany this book will be useful to readers who are interested in international perspectives on early childhood education and who want to gain insight into relevant topics discussed in other countries This book was originally published as a special issue of *Early Child Development and Care* Contemporary Challenges in Teaching Young Children Gayle Mindes, 2019-09-02 *Contemporary Challenges in Teaching Young Children* provides both veteran and aspiring early childhood educators with the information and tools they need to build on their understanding of developmentally appropriate practice Teachers face many challenges including family configuration social and political stressors related to accountability requirements funding shortages and the resulting need to teach with fewer resources This innovative book focuses exclusively on problem solving at the classroom level and fosters creative methods of ensuring best practices are in place for all children including those with limited experience in formal social settings and a lack of self regulatory behaviors Drawing on current research and their own wealth of experience expert contributors cover topics from the critical importance of social emotional learning to culturally responsive teaching to using technology to empower teachers and learners Written in accessible non technical language this book addresses complex factors affecting child development guiding readers through the best strategies for tackling real problems in their practice *Contemporary Readings in Curriculum* Barbara Slater Stern, Marcella L. Kysilka, 2008-03-20 This book of readings provides readers with an historical context of the curriculum field *Contemporary Readings in Curriculum* focuses on how curriculum may be organized and what is happening in the academic and co curriculum of schools The readings also address the political nature and current debates of curriculum and how we must be attentive to the increasingly diverse populations found in our schools **The Etude**, 1900 **The Age Factor and Early Language Learning** Marianne Nikolov, 2009 Offers readers chapters on the age factor in different educational contexts across three continents The book documents the development in research methods into early language learning and teaching It includes papers that discuss curriculum and assessment individual differences innovation in teacher education and the role of target language **Directory of Distance Learning Opportunities** Modoc Press, Inc., 2003-02-28 This book provides an overview of current K 12 courses and programs offered in the United States as correspondence study or via such electronic delivery systems as satellite cable or the Internet The Directory includes over 6 000 courses offered by 154 institutions or distance learning consortium members Following an introduction that describes existing practices and
